

Scrubbing, washing, sweeping cloth pad

Ref : 1346

Nordic Swan Ecolabel
3083 0048

Technical characteristics :

Product :

Dimensions : 12 x 47 cm

Color: green

Weight : 56 g

Textile:

Composition : 92% microfibre : 100% recycled polyester
8% : 100% scrubbing polyester

Weight/sqm : 700 g/m²

Thickness : 8 mm

Back of the mop :

Composition : soft Velcro : 100 % polyester

Technical Specifications Sheet

Function and Strong points:

- Use dry or slightly damp to dust floors, walls, ceilings and all smooth surfaces (tiles, thermoplastics, parquet, etc.) as well as fabric walls and ceilings.
- Cloth pad backside: soft 100% polyester Velcro.
- The scouring fibres increase and improve the effectiveness of cleaning and dislodging dirt.

Synthesis independent laboratory test:

- according to a methodology inspired by standard NF EN 16615: 2015 show that the pads make it possible to obtain cleaning efficiency with water by mechanical elimination of microorganisms greater than 99.9% (Staphylococcus aureus, Pseudomonas aeruginosa, Enterococcus hirae, Candida albicans).
- Pay attention : the results of this test must be compared to tests performed under conditions similar to those used by Concept Manufacturing: 2 sweeping actions, 4 strains tested, as stipulated by standard NF EN 16615:2015, wiping movement simulating the average pressure exerted in practice: to do this, the pad is placed on a unit mass weighing 2.3 kg.

How to use :

- With the 40 cm Velcro frame and all the ergonomic telescopic pole of Concept Microfibre range
- pre impregnated (200 ml of cleaning liquid per pad for a 20 m² to 30 m² surface)

Washing instructions :

- Lower washing temperatures help protect the environment
- Wash with a suitable washing powder at 60°C and at maximum washing temperatures as necessary
- Without softener / without chlorine
- Low temperature drying
- Resists up to 400 washing cycles

Packaging:

- In bulk
- 100 units per carton
- 2 400 units per pallets (24 cartons)
