

FLOOR ZILLA

swing

swing mop covers

FloorZilla swing flat mops for ergonomic movement with optimised mechanical cleaning results. Thanks to the innovative diamond coating, they glide gently over any floor and loosen stubborn dirt without any effort. FloorZilla **power swing** with our patented 3D active elements is the best choice for intensive cleaning. FloorZilla **daily swing** for smooth, thorough maintenance cleaning.

Time saving

Up to 20% less working time

Simple

Up to 60% less effort

Thorough

70% more dirt removal

Deep clean, eco-friendly and compatible with all floor coverings

FloorZilla mop covers clean floors gently and deeply at the same time. Thanks to their mechanical cleaning power, they require fewer cleaning chemicals. A perfect balance between purity and the environment.

Flooring

FloorZilla swing is suitable for use on both hard and elastic flooring.*

What makes swing so innovative is ...

... the cleaning performance of a diamond pad integrated in the mop cover. It stands out from all common mop covers thanks to the VreactiV technology with diamond coating. It removes stubborn dirt almost effortlessly, creates improved shine and is gentle on the flooring.

Sustainable

With FloorZilla, you make a sustainable contribution to protecting the environment, as our mop covers require fewer cleaning chemicals. Our products are made in Germany.

MADE IN GERMANY
