

CHEMICAL GROUP

A daily choice which
determines the future of our planet

GENERAL CATALOGUE

A daily choice which determines
the future of our planet

www.arcochimica.it

Every day our researchers make responsible and coherent choices for developing highly-technological low-impact solutions.

CHEMICAL GROUP

Our technical and sale staff **support dealers and final customers** during the survey and the start-up phase of new facilities and are highly motivated to solve issues customers may bring forward. We sell our products exclusively through a net of retailers in Italy as well in a number of foreign countries: Portugal, Spain, Greece, Croatia, Hungary and France.

We produce the entire range of our products in our Medolla (Italy) plant, which is equipped with highly technological production lines. Our facilities have an average production capacity of 26.000kg/day.

Our R&D and analysis laboratory is run by an internal team highly qualified in the design of new products and in the creation of formulae with a great innovative value.

AS A RECOGNITION FOR ITS COMMITMENT IN THE CONSERVATION OF THE ENVIRONMENT AND FOR ITS POLICY OF ENVIRONMENTAL IMPROVEMENT, ARCO CHIMICA WAS AWARDED THE FOLLOWING PRIZES

2008

We have taken an important
commitment for the future

WE WERE THE FIRST ITALIAN COMPANY TO DESIGN AND PUT
ON THE EUROPEAN MARKET OF PROFESSIONAL CLEANING
A COMPLETE RANGE OF PRODUCTS WITH THE
ECOLABEL CERTIFICATION.

The Ecolabel is the European mark of ecological quality, also called “ecologicallabel” or “European flower”, it verifies that a product or service have a reduced environmental impact but still granting the same performances of conventional products and services.

The mark was instituted in 1992 for establishing a recognizable environmental label within all EU countries and for allowing manufacturers to operate according to common rules.

Thanks to the increase of visibility on the market and in the number of the target customers, the Ecolabel mark constitutes a real competitive advantage. In fact it allows taking advantage of a distinctive element, synonymous of environmental and performance quality, drawing attention to the product/service on the entire European market and attracting environmentally conscious consumers.

SERVIZI

AR-CO CHIMICA è in grado di offrire alla propria clientela i seguenti servizi di post-vendita:

- Software gestionali per imprese di servizi
- Corsi di formazione tecnici e commerciali presso la propria sede o presso i Dealers
- Affiancamento agenti di vendita
- Sopralluoghi tecnici
- Analisi di prodotto

AR-CO CHIMICA inoltre mette a disposizione della propria clientela i seguenti strumenti tecnico-commerciali:

- Quaderni di lavoro tecnico settoriali

CORSI DI DETERGENZA AVANZATI

SPORCO

“Una sostanza nel posto sbagliato”

Deteriora l'aspetto delle superfici.

Riduce il livello di igiene.

Può causare danni meccanici o chimici

L'obiettivo perseguito con la pulizia e l'igiene è rimuovere e prevenire lo sporco avendo cura di salvaguardare superfici, operatori e ambiente.

QUADERNI DI LAVORO

Dall'ABC della detergenza a quaderni di lavoro tecnico-settoriali specifici.

Alcuni esempi:

- Piano di pulizia per caseifici
- Piano di pulizia per centri commerciali
- Piano di pulizia per macelli
-

better cleaning for a
better hospitality

Tailor

The Key to Cleaning

Clear-cost cleaning,
in one all-inclusive fee

open your Future

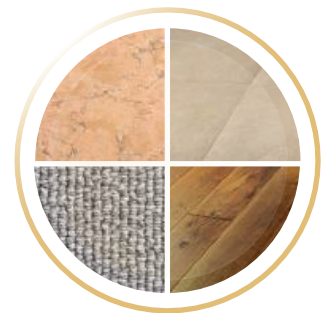

SYSTEM

FULL RENT Hotel represents a revolution in the cleaning for hospitality: it consists of the payment of the **“room cost”** (for actually cleaned rooms) all-inclusive of machines, equipments, cloths and detergents. The **“room cost”** fee also includes a wide range of services: from the consulting service in the development of the cleaning plan to the continuous training of operators, to a modern and complete control system for the service.

SIMPLER ORGANIZATION

Tailor allows a better control and a simplification of the organization, it zeroes supply orders for equipment and detergents. It reduces stock and warehouse space as concentrated detergents are supplied with Aladin automated dilution system. Disposable materials and routine maintenance services are provided according to a detailed schedule.

ENVIRONMENTAL IMPROVEMENT

Eliminating empties and packaging of chemical products improves the environmental parameters of the facility:

- * Reduction of CO2 emission
- * Reduction of H2O consumption
- * Reduction of plastic consumption
- * Reduction of cardboard consumption
- * Reduction of power consumption
- * FullRent provides the calculation of the reduction of environmental impact of the facility by means of a specific software.

Aladin

What you needed to get the best result.

www.arcochimica.it

Find out more about Aladin technology

CHEMICAL GROUP

Innovative

- Allows the preventive calculation of detergents' consumption per each operator
- Supplies concentrated detergent in controlled form (unit-doses or pre-set dilution)
- Controls concentrated detergents' consumption by means of a web platform or by sms

Simple

- Simplifies products' dilution process
- Simplifies products' charge and discharge operation

Safe

- Reduces the chemical hazard for operators

Eco-efficient

- Considerably reduces the impact on the environment
- Calculates the actual environmental improvement by means of a dedicated software

concentrated detergents

INFINITI

Outstanding performances
in very little space

www.arcochimica.it

A simple Infyniti unit-dose allows getting all possible combinations of traditional product for manual or machine cleaning. The different unit-dose sizes, 15/30/50/80/100 ml, allow getting always the right quantity for jerrycans, bottles, buckets and tanks.

INFYNITI SYSTEM

The objective is to offer a line of unit-dose products and a calculation system that allows a different approach to chemical detergents. The use of this system offers all the possible combinations for manual and mechanized cleaning and for daily maintenance of all types of washable surfaces. Furthermore this system permits to obtain always the right dilution for every application.

CERTIFIED ECOLOGY

It represents the most up-to-date ecological solution in terms of concentrated products, having been conferred the Italian Green Public Procurement mark.

STRONG POINTS

- Reduction in the time necessary for dosing the detergent.
- Always the right dilution for every application
- Reduction of warehouse space and transport costs
- Reduction of waste and shortages
- Reduction of risks for operators
- Optimization of the costs for product's application
- Traceability of UNIT-DOSES (production batch)

DEEP CLEANING

Sahara

5 Kg 1L

pH 13,5+/-0,5

1- 3 %

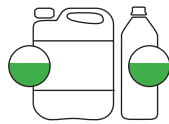

Alkaline-based detergent for hard surfaces and floors deep cleaning with degreasing action.

DILUTION: from 1% to 3% (30g/L). The suggested dilution allows reducing to the minimum the impact on the environment.

METHOD OF USE: Sahara can be used manually (with traditional flat mop) or with scrubber drier machine.

MAINTENANCE

Amazzonia

5 Kg 1L

pH 5,5+/-0,5

1- 3 %

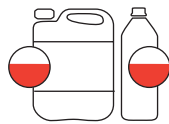

Neutral detergent for routine maintenance of floors and ceramic surfaces. Fresh flowers fragrance.

DILUTION: from 1% to 3% (30g/L). The suggested dilution allows reducing to the minimum the impact on the environment.

METHOD OF USE: Amazzonia can be used manually (with traditional flat mop) or with scrubber drier machine

ACID DETERGENTS

Artico

5 Kg 1L

pH 2+/-0,5

1- 3 %

Slightly acid-based detergent for daily maintenance of floors, ceramic and hard surfaces. Floral/ Fruit fragrance.

DILUTION: from 1% to 3% (30g/L). The suggested dilution allows reducing to the minimum the impact on the environment.

METHOD OF USE: Artico can be used manually (with traditional flat mop) or with scrubber drier machine

Farol

750 ml

pH 2,6+/-0,5

Pronto all'uso

Viscous acid detergent for the cleaning of sanitary fittings.

METHOD OF USE:

Farol is ready to use. Its angled bottle with safety dispensing cap allows an easy and uniform application of the product on all the internal surface of the toilet bowl. Apply an uniform quantity of product on the internal edge and surface of the WC bowl. Let it act. While rinsing, use the WC brush for a better cleaning

SPECIAL PRODUCTS

Niagara

5 Kg 1L

pH 10,5+/-0,5

Pronto all'uso

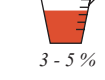

Multipurpose self-drying cleaner for windows and glass. Fresh flowers fragrance.

DILUTION: Niagara is ready to use. The suggested dilution allows reducing to the minimum the impact on the environment.

METHOD OF USE: Spray the product on the surface to be cleaned and dry using a cloth or paper.

HEAVY DUTY degreasers

PRODUCT	USE	DILUTION	DESCRIPTION
<p>MISTRAL</p> 		<p>pH 13,5+/-0,5</p>  <p>0,5 - 8 %</p>	<p>Solvent-based super degreasing detergent with very high detaching power</p> <p>Mistral is suitable to remove all kinds of dirty grease like animal, vegetable and mineral from all type of surfaces.</p>
<p>PROGRES</p> 		<p>pH 13,5+/-0,5</p>  <p>2 - 10</p>	<p>Degreasing detergent for glazed micro porous gres floor tiles</p> <p>Easily removes organic and mineral greasy dirt and also old deposits by cleaning and bleaching tiles deep down.</p>
<p>CITROCLEAN</p> 		<p>pH 10,9+/-0,5</p>  <p>3 - 5 %</p>	<p>Citrus Terpenic-based dissolvent, degreasing detergent</p> <p>It is suitable to remove organic greases from floors. Citroclean dissolves and removes oils, tar stain, lubricants and vegetable/ animal grease stains. This product can be used in the food industry to wash hoods, filters and very greasy surfaces then followed by an accurate rinse.</p>

ENERGY

pH 13,5+/-0,5

Solubilizing Degreasing Detergent

Particularly suitable to degrease cooker hoods, cooker hoods filters, floors and all washable surfaces.

PROFEX

pH 13,5+/-0,5

Lemon-scented Degreasing Detergent

Profex is an alkaline detergent suitable to remove organic and food grease from surfaces. Indicated for hard surfaces.

SINERGY

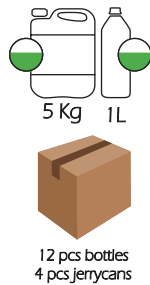

pH 13,5+/-0,5

Fast-acting Degreasing Detergent

Specific for all type of grease and pigmented dirt, suitable to be used in garages, warehouse, industries and canteens. Controlled foaming action.

GOTA

pH 10,1+/-0,5

Multipurpose Degreasing Detergent with Controlled-foaming Action

Gota is an ammoniacal-based detergent containing natural soaps and suitable for daily cleaning of soaps and tiles, glasses, doors and window frames and all washable hard surfaces.

STRAT

pH 13+/-0,5

Super Wax-stripper Solvent-based, Fast-acting and Low-foaming

Wax-stripper specific for a fast removal of old wax layers. Strat is suitable for wax stripping from resilient floors (PVC, linoleum, rubber, etc.) marbles and stone floors.e gomma.

VENTO

pH 10,9+/-0,5

Ready-to-use Degreasing Detergent

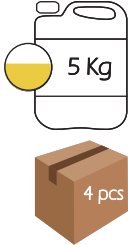

Vento is a detergent with new active ingredients for kitchen surfaces cleaning.

HEAVY DUTY wax-strippers

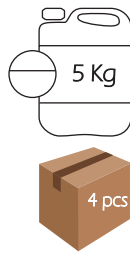

PRODUCT	USE	DILUTION	DESCRIPTION	
<p>RAPPER</p> 	 5 Kg  4 pcs		<p>pH 12,5+/-0,5</p>  5 - 30 %	<p>Wax Stripping Solvent-based Degreasing Detergent</p> <p>Rapidly and effectively dissolves old metalized layers of wax and the most resisting stains.</p>
<p>SOLMIX</p> 	 5 Kg  4 pcs		<p>pH 10,9+/-0,5</p>  10 - 20 %	<p>Multipurpose Solvent-based Detergent</p> <p>Solmix is suitable to remove paint and ink stains felt-tip, pen marks and glue from surfaces.</p>
<p>TAGO</p> 	 5 Kg  4 pcs		<p>pH 13,5+/-0,5</p>  10 - 20 %	<p>Low-foaming Wax-stripping Detergent</p> <p>Concentrated wax-stripping detergent. Particularly suitable to remove old layers of metalized wax from PVC, linoleum and rubber floors.</p>
<p>DR 15</p> 	 5 Kg  4 pcs		<p>pH 10,8+/-0,5</p>  0,5 - 20 %	<p>Low-foaming Multipurpose Degreasing Detergent</p> <p>It easily removes greasy and oil dirt, as well as films of metalized wax.</p>
<p>TECNIK</p> 	 5 Kg  4 pcs		<p>pH 8,2+/-0,5</p>  3 - 15 %	<p>Concentrated Degreasing Detergent</p> <p>With strong emulsifying action for deep cleaning of floors and vertical surfaces.</p>

PROTECTION

PRODUCT	USE	DILUTION	DESCRIPTION
<p>HALLES</p>  	  <p>HI - SPEED</p>	<p>pH 8,3+/-0,5</p>  <p>Ready to use</p>	<p>Polymeric Self-polishing Single-layer Emulsion</p> <p>Self-polishing, high reticulation emulsion. Assures a high standard of polishing and resistance using Hi-Speed systems.</p>
<p>MAYOR</p>  	  <p>HI - SPEED</p>	<p>pH 9,25+/-0,5</p>  <p>Ready to use</p>	<p>Acrylic-polyurethane Emulsion</p> <p>Mayor is an acrylic and polyurethane polymers-based super protector, with high resistance. It completely prevents the yellowing effect. Indicated for maintenance with Hi-Speed systems.</p>

KOMETA

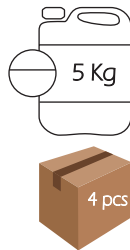

pH 8,7+/-0,5

Self-Polishing Polyacrylic Emulsion

Kometa is a self-polishing high-reticulation emulsion. It grants a high standard of polishing and resistance using Hi-Speed systems.

LUXOR

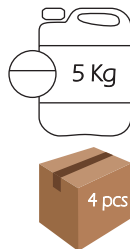

pH 8,7+/-0,5

Self-Polishing Metalized Emulsion

Self-polishing emulsion with high reticulation. Suitable on high traffic floors. It provides a high standard of polishing and resistance using High-Speed systems.

REFLEX

pH 8,7+/-0,5

Self-Polishing Polyacrylic Emulsion

Reflex is a high-reticulation self-polishing emulsion. It provides a high standard of polishing and resistance using Hi-Speed systems.

BULL BLACK

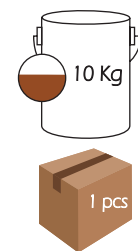

pH 8,5+/-0,5

Polyacrylic emulsion suitable for black studded rubber floors

It is a coloured Polyacrylic emulsion with high covering power. It leaves surfaces protected, polished and it is resistant to traffic. Indicated for black floors.

TEK

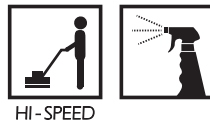

pH n.a.+/-0,5

Solvent-based Liquid Wax for Wooden Floors Protection and Polishing

Tek is a solvent-based liquid wax for cleaning, protecting and polishing wooden floors.

MIRROR

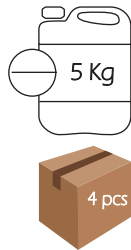

pH 2,7+/-0,5

Marble Floor Regenerator

Liquid for marble crystallization and polishing process.

SCUDO

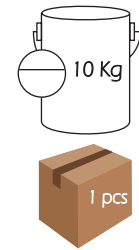

pH 8,5+/-0,5

Water and oil proof, Stain and dust-resistant product for Concrete surfaces

Scudo is a product suitable to protect concrete floors. It makes a coat resistant to washing with detergents and it is highly resistant to traffic.

SILPAV

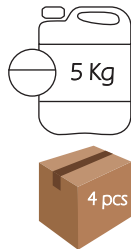

pH n.a.+/-0,5

Water and oil Repellent Sealing

Suitable to seal and proof floors for the first treatment. The particular composition of Silpav makes it resistant to alkaline-based detergents and acid substances.

T.P.

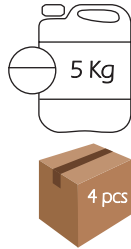

pH 8+/-0,5

Acrylic Dust-resistant Sealer

T.P. is very good for preparing the surface of old and worn-out floors like PVC, rubber and linoleum before treating them with metalized waxes.

MAYOR HOSPITAL

pH 8,5+/-0,5

Antistatic and high-resistance to alcohol Emulsion

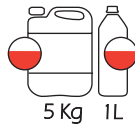

It is very good for different kind of resilient floors like: linoleum, PVC, rubber and porous floors. The particular mixture between wax and polymers shows an high-resistance to alcohol and disinfectant solutions, it is recommended for the cleaning of operating rooms and hospitals in general.

MAINTENANCE

PRODUCT	USE	DILUTION	DESCRIPTION
<p>GLOSSY</p> 	 <p>5 Kg 1L</p>  <p>12 pcs bottles 4 pcs jerrycans</p>	<p>pH 6,5+/-0,5</p>  <p>1 - 3 %</p>	<p>Eco-friendly Detergent</p> <p>Glossy is an eco-friendly detergent containing a polyacrylate polymer with high capacity in preventing dirt deposits, and capable to increase the glossy on surfaces without an unpleasant accumulation result.</p>

KISS

12 pcs bottles
4 pcs jerrycans

pH 9,5+/-0,5

Alcoholic Scented Polishing Detergent

Residues and foam free daily cleaning detergent particularly indicated on polished floors like glazed polished stoneware and especially shiny floors like: ceramic, glossy porcelain stoneware, vitrified surfaces, varnished parquet and floating floors.
Rinse-free.

KISS MAGNOLIA/ESOTICO

4 pcs

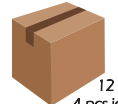

pH 9,5+/-0,5

Alcoholic Magnolia/esotico-scented Polishing Detergent

Kiss Magnolia/Esotico is a residues and foam free daily cleaning detergent particularly indicated on polished floors like glazed polished stoneware and especially shiny floors like ceramic, glossy porcelain stoneware, vitrified surfaces, varnish parquet and floating floors.
Rinse-free.

GREEN / GREEN LAVANDA

12 pcs bottles
4 pcs jerrycans

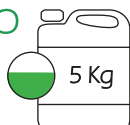

pH 10,5+/-0,5

Scented Polishing Detergent

Residues-free detergent for maintenance of all surfaces and recommended for daily maintenance of floors protected with self-polishing waxes.
Rinse-free.

GREEN OCEANO

4 pcs

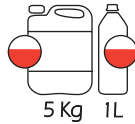

pH 9+/-0,5

Scented Polishing Detergent

Residues-free detergent for maintenance of all surfaces and recommended for daily maintenance of floors protected with self-polishing waxes.
Rinse-free.

LIPARI CEDRO / PINO

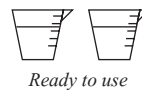

12 pcs bottles
4 pcs jerrycans

HI-SPEED

pH 10,5+/-0,5

Scented Polishing Detergent

Residues-free detergent for maintenance of all surfaces and recommended for daily maintenance of floors protected with self-polishing waxes.
Rinse-free.

IROKO

12 pcs

pH 9,7+/-0,5

Eco-friendly Detergent with low residues for wood floor

Iroko is an eco-friendly detergent with neutral pH for parquets daily maintenance.

SIC

5 Kg 1L

12 pcs bottles
4 pcs jerrycans

pH 9,5+/-0,5

1 - 3 %

Scented Polishing Detergent

Residues-free detergent for maintenance of all surfaces and recommended for daily maintenance of floors protected with self-polishing waxes.
Rinse-free .

SIC Acqua Marina

5 Kg

4 pcs

pH 9,6+/-0,5

1 - 4 %

Maintenance Detergent with Persistent "aquamarine" Scent

Residues-free detergent for maintenance of all surfaces and recommended for daily maintenance of floors protected with self-polishing waxes.
Rinse-free .

MEGRIN

5 Kg

4 pcs

pH 9,6+/-0,5

1 - 3 %

Scented Polishing Detergent

Residues-free detergent for maintenance of all surfaces and recommended for daily maintenance of floors even when protected with self-polishing waxes.
Rinse-free .

MEGRIN Plus

5 Kg

4 pcs

pH 9,6+/-0,5

1 - 5 %

Scented Polishing Detergent

Residues-free detergent for maintenance of all surfaces and recommended for daily maintenance of floors even when protected with self-polishing waxes.
Rinse-free .

ABETE

5 Kg

4 pcs

pH 10+/-0,5

2 - 4 %

Scented Polishing Detergent

Residues-free detergent for maintenance of all surfaces and recommended for daily maintenance of floors even when protected with self-polishing waxes.
Rinse-free .

ASTRA

5 Kg

4 pcs

HI - SPEED

pH 8,5+/-0,5

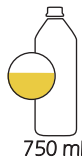

2 - 100 %

Wash and Wax Maintainer Detergent

Astra allows an easy restoration of the metalized waxy film. Also suitable on lead-polished floors.
Can be used for both protection and maintenance.

SCHNELL

pH 8,5+/-0,5

Dry Spray

Suitable for maintenance and to be used with Hi-Speed single-disc machines. Allows restoring the waxy film and grants a long-lasting wet-gloss effect.

ORIX

pH 13,4+/-0,5

Multipurpose Chlorine-based Scented Detergent

Orix is suitable for maintenance of hard surfaces. Particularly suggested on all kinds of floors, wall tiles, majolica and bathroom fittings; suitable for cleaning: washbasins, baths, bidet and toilet bowls' inside surface.

SELF AMMONIO

pH 10,3+/-0,5

Ammoniacal Maintenance Detergent with Balsamic Fragrance

Self Ammonio is a multipurpose detergent for daily maintenance of floors and all washable surfaces. Thanks to its combination of pine balsamic essence and ammonia, leaves the room clean and pleasantly scented.

ACID DETERGENTS

PRODUCT	USE	DILUTION	DESCRIPTION
---------	-----	----------	-------------

ELKASAN PESCA

pH 2,6+/-0,5

Ready to use

Sanitizing Gloss-Enhancing Detergent Containing Weak Acids

Suitable for daily cleaning of washbasins, taps, sanitary fittings, showers and ceramic tiles. Leaves a pleasant and long-lasting peach scent. Rinse-free.

ELKASAN FRAGOLA

pH 2,6+/-0,5

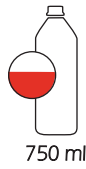

Ready to use

Sanitizing Gloss-Enhancing Detergent Containing Weak Acids

Suitable for daily cleaning of washbasins, taps, sanitary fittings, showers and ceramic tiles. Leaves a pleasant and long-lasting strawberry scent. Rinse-free.

PROTECTOR

pH 1,3+/-0,5

Scale-remover with Protective Formula for daily cleaning of sanitary fittings
Protector is a strong acid-based detergent with a pleasant fragrance.

CRISTAL BAGNO

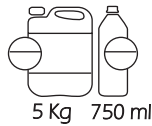

pH 0,6+/-0,5

Scented Scale-remover
Removes and prevents the formation of lime scale.
Pleasant and long-lasting scent.

RAPID

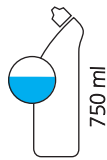

pH 0,5+/-0,5

Concentrated Odourless Descaler
Removes calcareous and rusty residues. Recommended for descaling toilet bowls and removing cooking and oxidized residues.

DETER WC

pH 0,5+/-0,5

Concentrated Scented Sanitizing and Bleaching Detergent
Its quaternary ammonium salts perform a sanitizing and deodorant action and complete the hygienizing action of its acid components.

IRIS WC GEL

pH 2+/-0,5

Maintenance Sanitizing Detergent
IRIS WC gel is sanitizing and deodorant product, thanks to its active principles that complete its hygienizing action.

FRESH BAGNO

pH 0,6+/-0,5

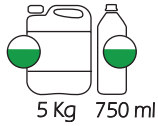

Maintenance scented Detergent
Sulfanic acid and citric acid based detergent suitable for the cleaning of sinks, taps, showers and ceramic tiles.
Quick-drying. Pleasant wood scent.

ACID DETERGENTS floors

5 Kg; 12 Kg;
20 Kg

4 pcs jerrycans
1 pc jerrycans 12 - 20

pH 13,5+/-0,5

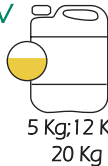

1 - 3 gr/l

Liquid Detergent with sequestering agents for industrial dishwashing machines. For hard water.

Super-concentrated liquid detergent with high level of free alkalinity. Particularly suitable for removing grease from: dishes, pans, glasses and cutlery in general. Contains sequestering agents active against the highest water hardness.

Does not contain: surfactants, EDTA and NTA and their salts, Phosphor (P).

ARCOMATIC CLOR

12 Kg
20 Kg

1 pc jerrycans 12 - 20

pH 13,5+/-0,5

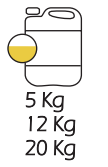

1 - 3 gr/l

Chlorine-active Concentrated Non-foaming Liquid Detergent

Degreases and removes coffee, tea and lipstick stains while performing an hygienizing action.

ARCOMATIC PLUS

5 Kg
12 Kg
20 Kg

4 pcs jerrycans
1 pc jerrycans 12 - 20

pH 13,5+/-0,5

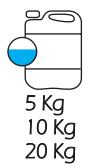

1 - 3 gr/l

High-alkalinity Liquid Detergent

Non-foaming liquid detergent for dishwasher with high level of free alkalinity. Particularly suitable for removing grease from dishes, pans, glasses and cutlery in general.

Contains sequestering agents active against the highest water hardness.

ARCOMATIC BRILL

5 Kg
10 Kg
20 Kg

4 pcs jerrycans
1 pc jerrycans 10 - 20

pH 4,7+/-0,5

0,2 - 0,4 gr/l

Concentrated Liquid Rinse Aid

Allows dishes to dry quickly, thus leaving them shiny and without halos or streaks.

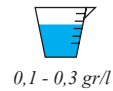

ARCOMATIC BRILL EXTRA

4 pcs jerrycans
1 pc jerrycans 10 - 20

pH 2,6+/-0,5

Concentrated Liquid Rinse Aid

Allows dishes to dry quickly, thus leaving them shiny and without halos or streaks. Suitable with all types of water hardness.

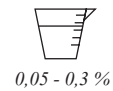

ARCOMATIC ACID

4 pcs

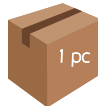

pH 0,5+/-0,5

Acid-based Scale-remover

Removes all calcareous residues formed during dishwashing cycles into the dishwashing machine. Contains anticorrosive and metal protectors.

ARCOMATIC PASTIGLIE

1 pc

pH 11,5+/-0,5

Tablets

Specific for dishwashers, ideal for washing: dishes, glasses, pots, silver ware, cutlery, and glassworks of chemical and biological laboratories.

ARCOMATIC ALLUMINIO

4 pcs

pH 13+/-0,5

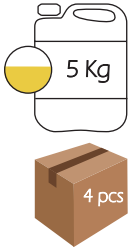

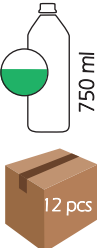

Liquid Detergent compatible with aluminium

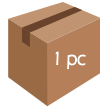

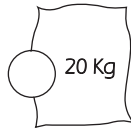

Medium-alkalinity detergent studied for aluminium cookware. Suitable with all types of water hardness. Chlorine-free.

LAUNDRY WASH

PRODUCT	USE	DILUTION	DESCRIPTION
<p>CANDOR</p>   		<p>pH 11+/-0,5</p>  <p>4 - 10 gr/Kg</p>	<p>Atomized Concentrated Detergent Contains perborate. Suitable for linen pre-washing and washing. High stain-removing power.</p>
<p>LINDOR</p>   		<p>pH 11+/-0,5</p>  <p>4 - 10 gr/Kg</p>	<p>Atomized Detergent Contains perborate. Suitable for linen pre-washing and washing. High stain-removing power. Suitable for low washing temperature.</p>

BLUMATIC

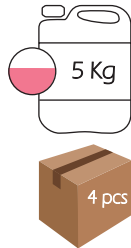

pH 8,5+/-0,5

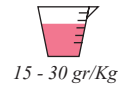

Liquid Detergent (H.D.L)

Suitable for hand and machine wash. Blumatic is particularly suitable for washing all kind of fabrics. It cleans deep-down, whitens white and bright colours. Suitable for low and medium washing temperatures.

WOOL

pH 8,5+/-0,5

Mild Liquid Detergent

Suitable for hand and machine wash of delicate fabrics such as: wool, silk and cotton.

SOFT

pH 4,5+/-0,5

Liquid Softener

Suitable for hand and machine wash.

INDUSTRIAL LAUNDRY WASH

PRODUCT	USE	DILUTION	DESCRIPTION
<p>PLUMATIC 1</p>   <p>20 Kg</p>  <p>1 pc</p>		<p>pH 9,6+/-0,5</p>  <p>Dose: 4 - 10 gr/Kg dry fabric.</p>	<p>Surface-active Concentrated Detergent suitable for laundry machine wash</p> <p>Liquid detergent highly surface-active on dirt, it removes every trace either localized or widespread.</p>

PLUMATIC 1 COLOR

pH 9,6+/-0,5

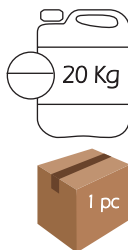

Dose:
4 - 10 gr/Kg dry fabric.

Surface-active Concentrated Detergent suitable for laundry machine wash

Liquid detergent highly surface-active on dirt, it removes every trace either localized or widespread. Its high sequestering power makes Plumatic 1 Color suitable even for very hard waters.

PLUMATIC 2

pH 1+/-0,5

Dose:
5 - 10 gr/Kg dry fabric.

Hydrogen Peroxide-Based Bleach

Highly concentrated sanitizing liquid whitener. Effective on all kinds of stain even at low temperatures. Stabilized by specific sequestering agents, stable and effective even with very hard waters.

PLUMATIC 2 EXTRA

pH 2,7+/-0,5

Dose:
4 - 12 gr/Kg dry fabric.

Bleaching Sanitizing Product

Buffered hydrogen peroxide and peracetic acid-based liquid bleaching product with high whitening and sanitizing power. Suitable to all kinds of washable and bleachable fabrics.

PLUMATIC 3

pH 13+/-0,5

Dose:
5 - 10 gr/Kg dry fabric.

Chlorine-Based Bleach

Bleaching product. Chlorine-active liquid whitener with sanitizing effect. Suitable for industrial automatic washing machines.

PLUMATIC 4 PLUMATIC 4 PLUS

pH 4,5+/-0,5

Dose:
4 - 10 gr/Kg dry fabric.

Liquid Softener

Liquid softener flower scent. Totally foam-free. Its formulation allows maintaining fabric fibres thus avoiding static cling. Colour booster. Leaves fabrics freshly clean.

PLUMATIC 4 BICOMPONENTE

pH 1,1+/-0,5

Dose:
4 - 8 gr/Kg dry fabric.

Neutralizing Softener

Anti-static cling softener studied to neutralize the iron present in water, by conditioning laundry at the right pH it makes it soft at touch and pleasantly scented. It prevents fabric yellowing and other unpleasant factors caused by water and eases ironing.

PLUMATIC 5

pH 1,2+/-0,5

Dose:
3 - 10 gr/Kg dry fabric.

Scented Liquid Neutralizer

Its acid reaction neutralizes alkalinity in fabrics.
To be used in the penultimate rinse. By eliminating alkaline residues it prevents yellowing during ironing. It also performs a sanitizing action.

PLUMATIC 6

pH 13,5+/-0,5

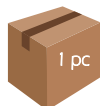

Dose:
water (0-25 °F):
10g/Kg pre wash / 5g/Kg wash;
water (30 °F):
15g/Kg pre wash / 10g/Kg wash.

Concentrated Liquid Detergent for machine wash

Concentrated liquid detergent suitable for machine wash of: tablecloths, pillowcases, sheets and towels. Suitable for low and medium temperature wash. Excellent fibres protection and whitening and cleaning result.

PLUMATIC AD

pH 13,5+/-0,5

gr/Kg : water 15-25 °F : 8-12
water 25 °F : 10-14

Detergent Specific for Machine Wash

Liquid detergent for machine wash of laundry in cotton, synthetic and mixed fabrics. Does not contain surfactants. Phosphor content (P) < 1%

PLUMATIC EXTRA

pH 7,2+/-0,5

5 - 10 gr/Kg dry fabric
15 gr / Kg dry fabric(very dirty laundry)

Surfactants Concentrate suitable for industrial machine wash

Surfactants concentrate suitable for every kind of dirt and suggested to strengthen the wash cycle.

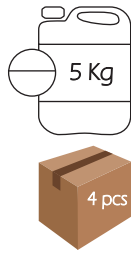

PERSONAL HYGIENE

Contains special emollients that leave skin pleasantly soft.</p>

CREAM OFF

pH 7,5+/-0,5

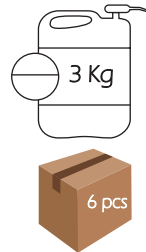

Ready to use

Hand soap for Workshops

Hand soap- specifically dedicated to workshops/ garages etc... concentrated product containing glycerine. Its eco-friendly solvents grant a complete and effective cleaning from every kind of dirt.

MICROCREAM

pH 7,5+/-0,5

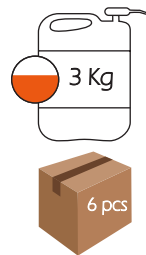

Ready to use

Hand soap

Concentrated product containing glycerine. Its micro-spheres grant a complete and effective cleaning from greases and oils of mineral and organic origin, from paints and inks.

CREAM GEL

pH 7,5+/-0,5

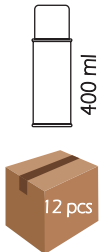

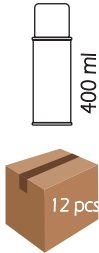

Ready to use

Gel soap (orange scent)

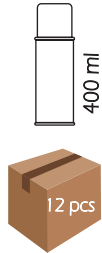

Suitable for hygenizing and cleaning from greases oils and organic origin, from paints and inks.

SPRAYS

PRODUCT	USE	DILUTION	DESCRIPTION
<p>BREZZA</p>  			<p>Glass Cleaner Self-drying foam cleaner, specific for: windows, mirrors and polished surfaces.</p>
<p>RUGIADA</p>  			<p>Dust Remover Easily attracts and holds dust and dirt in general.</p>

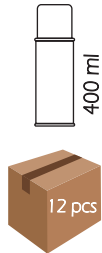

IRIS PINO e LAVANDA

Air-freshener

Air-freshener for highly populated places. Available with pine or lavender fragrance.

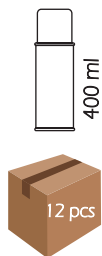

IRIS MIMOSA e MAGNOGLIA

Air-freshener

Air-freshener for highly populated places. Available with magnolia or mimosa fragrance.

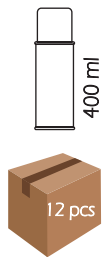

MAYA

Wax for Furniture

Carnauba wax and synthetic polymers-based product indicated for maintenance of furniture and furnishing accessories.

DRY CLEAN

Liquid detergent for Stainless-steel

Cleans and polishes worktops, counters, sinks and all stainless-steel surfaces in general.

FLOOR DAILY MAINTENANCE

MULTIPURPOSE PRODUCTS

GYNIUS 3 MULTIUSO ARREDI

Fast-acting multipurpose detergent for daily maintenance of hard surfaces such as: desks, windows, mirrors, glass, doors and all lacquered/laminated surfaces. It is ideal to remove: ink, pen and permanent marker and stamps. Rinse-free.

kg 10 - 20

ml 100

MODE OF USE:
For a ready-to-use solution, pour one 100ml unit-dose blister in its dedicated bottle and add 500 ml of water

GYNIUS 3 MULTIUSO SGRASSANTE

Concentrated fast-acting multipurpose degreaser excellent for removing: ink, pen, permanent marker, stamps, lipstick and greasy stains in general from hard surfaces. Rinse-free.

kg 10 - 20

ml 100

MODE OF USE:
For a ready-to-use solution, pour one 100ml unit-dose blister in its dedicated bottle and add 500 ml of water

GYNIUS 3 HOTEL MULTIUSO ARREDI

Fast-acting multipurpose detergent for daily maintenance of hard surfaces such as: desks, windows, mirrors, glass, doors and all lacquered/laminated surfaces. It is ideal to remove: ink, pen and permanent marker and stamps. Rinse-free.

kg 10 - 20

ml 100

MODE OF USE:
For a ready-to-use solution, pour one 100ml unit-dose blister in its dedicated bottle and add 500 ml of water

GYNIUS 3 ALCALINO BAGNI

Concentrated multipurpose alkaline detergent for sanitary fittings. Thanks to the presence of particular anti-deposit polymers leaves a protecting film resistant to water and dirt, thus preventing the formation of stains of soap and scale.

kg 10 - 20

MODE OF USE:
For a ready-to-use solution, pour one 100ml unit-dose blister in its dedicated bottle and add 500 ml of water

GYNIUS 3 HOTEL DEODORANTE

Odour-catcher containing zinc salt of ricinolic acid able to catch the volatile substances responsible for the bad smells coming from dirty surfaces, thus eliminating them. Suitable for use on fabrics, such as upholstery, carpets, curtains and moquettes. Leaves a long-lasting flower scent.

ml 100

MODE OF USE:
For a ready-to-use solution, pour one 100ml unit-dose blister in its dedicated bottle and add 500 ml of water

BATHROOM DETERGENTS - ACID

GYNIUS 4 CITRO MULTIUSO BAGNI profumazione pesca o floreale

Citric acid-based daily cleaning detergent for: washbasins, taps, sanitary fittings, showers and ceramic tiles. Ideal for eliminating soaps and scale residues. Quick-drying and gloss-enhancing.

MODE OF USE:
For a ready-to-use solution, pour one 100ml unit-dose blister in its dedicated bottle and add 500 ml of water

GYNIUS 4 CLOREXIDINA MULTIUSO BAGNI citrico + clorexidina

Citric acid-based daily cleaning detergent for: washbasins, taps, sanitary fittings, showers and ceramic tiles. Ideal for eliminating soaps and scale residues. Quick-drying and gloss-enhancing.

kg 10 - 20

ml 100

MODE OF USE:
For a ready-to-use solution, pour one 100ml unit-dose blister in its dedicated bottle and add 500 ml of water

DEEP CLEANING

GYNIUS 5 SUPERSGRASSANTE ALCALINO SOLVENTATO PROFUMATO

Solvent-based super-degreaser, suitable for removing every kind of greasy dirt of organic, mineral and vegetable origin from all types of surfaces. Thanks to its low-foaming characteristic is recommended for use with scrubber-driers or single-brush machines. Citrus scent.

kg 10 - 20

ml 100

MODE OF USE:
For a 2% solution, dilute 80ml in 40L water.

KITCHEN HYGIENE

GYNIUS STOVI

Neutral highly-foaming degreaser suitable for hand wash of kitchenware. It removes greases and food residues, even dried. It contains special soothing substances for protecting hands. It is also suitable for cleaning hard surfaces such as: work tops, equipments, windows and tiles. Lemon-scented.

ml 40

MODE OF USE:
For a ready-to-use solution, pour one 40ml unit-dose into the soaking sink filled with warm water.

GYNIUS 1 FOOD SGRASSANTE ALCALINO INODORE

Solvent-based super-degreaser, suitable for removing every kind of greasy dirt of organic, mineral and vegetable origin from all types of surfaces. Thanks to its low-foaming characteristic is recommended for use with scrubber-driers or single-brush machines. Citrus scent.

kg 10 - 25

ml 15-30

MODE OF USE:
For a 3% solution,
dilute 50ml in
40L water.

MODE OF USE:
For a 3% solution,
dilute 50ml in
40L water.

GYNIUS 2 SANIFICANTE INODORE PER SETTORE ALIMENTARE

Solvent-based super-degreaser, suitable for removing every kind of greasy dirt of organic, mineral and vegetable origin from all types of surfaces. Thanks to its low-foaming characteristic is recommended for use with scrubber-driers or single-brush machines. Citrus scent.

kg 10 - 25

MODE OF USE:
For a 3% solution,
dilute 50ml in 40L
water.

GYNIUS 2 FOOD IGIENIZZANTE MULTIUSO INODORE

Hydro-alcoholic sanitizer. It helps reducing microbial concentration thanks to the synergy between quaternary ammonium salts and polyaminopropyl-biguanide. It grants a broad-spectrum action on a variety of surfaces. Suitable for: food-processing industries, catering, hospitals and public places. Good performance in removing light oils, greases, ink and fingerprints. Quick-drying.

kg 10 - 25

ml 15-30

MODE OF USE:
For a ready-to-use
solution, pour one
100ml unit-dose bli-
ster in its dedicated
bottle and add 500
ml of water

GYNIUS 5 FOOD SGRASSANTE INODORE

Solvent-based low-foaming super-degreaser, suitable for removing stubborn greasy dirt of organic and mineral origin. It is recommended for use with scrubber-driers and pressure-washer. Suitable for use in slaughterhouses, dairy factories and food-farming industries in general. NOT SUITABLE FOR USE ON ALLUMINIUM.

kg 10 - 25

MODE OF USE:
For a ready-to-use
solution, dilute
from 1% to 3% in
water.

LAUNDRY - MACHINE AND HAND WASH

GYNIUS CANDOR

Atomized water-soluble powder detergent. Suitable for machine wash. Suitable for any type of laundry and any degree of water hardness. It does not produce calcareous residue on laundry or on the machine, thus helping to maintain the fabric soft.

kg 10 - 25

MODE OF USE:
Put the sachet into
the washing drum.
1 sachet for 4kg of
dry laundry.

GYNIUS BLUMATIC

Liquid detergent suitable for all types of fabrics. It cleans thoroughly, makes bright white and leave colours anew. Suitable for washing at medium and low temperatures and for small and medium plants. Pre-wash not necessary. It is ideal for hand wash since it rapidly dissolves even in cold water.

ml 15-30

MODE OF USE:
Pour the unit-dose into the
washing compartment.
1 unit-dose for 5-7kg of dry
laundry.

GYNIUS BLUMATIC

Liquid detergent suitable for all types of fabrics. It cleans thoroughly, makes bright white and leave colours anew. Suitable for washing at medium and low temperatures and for small and medium plants. Pre-wash not necessary. It is ideal for hand wash since it rapidly dissolves even in cold water.

ml 15-30

MODE OF USE:
Pour the unit-dose into the
washing compartment or, for hand
wash, directly into the water.
Max. water temperature (for hand
or machine wash): 40°C
