with price list

FOREWORD

The ARCORA® GROUP has been a professional supplier of products and solutions for the cleaning and hygiene industry for more than 27 years. Through continuous development of products and systems, ARCORA® has become a leading supplier of complete solutions out of one single source. Decades of cooperation with users out of all areas in cleaning and hygiene services is reflected in the quality and efficiency of the products. Economy and environmental awareness are in line with the high-quality standard.

ARCORA® developments are based on extensive expertise that has accumulated over many years through intensive collaboration with national and international clients. Due to regular exchanges they have repetitively tested the ability of ARCORA® to master new challenges. The result: Continuous development of amazing innovations, environmentally friendly products with high efficiency and quality at fair prices. Customers as well as the environment benefit at the same time. ARCORA® always ensures, that customized products are available for every application in professional cleaning.

The ARCORA® company philosophy is to meet new requirements and quality standards in the market as early and dynamically as possible. More and more customers and future-oriented companies are therefore using ARCORA® products. Especially in Europe, we are able to reflect on many years of successful business relationships with a lot of satisfied customers. From cleaning and care products, through cleaning textiles, accessories, pads, trolleys to machines, ARCORA® offers an extensive and efficient product portfolio for all cleaning and hygiene challenges.

„Always looking ahead, developing good intuition for the requirements of our customers and business partners and promptly providing the market with innovative products, solutions and processes are our strategy. Efficiency, Quality and environmental friendliness are the underlying parameters in order to be successful in the market.“

For a clean future,

Sami Memili
CEO / President
ARCORA® GROUP

SUSTAINABILITY AND ENVIRONMENT

For a clean environment and a secure future

The ARCORA® GROUP is convinced that economic goals can be achieved today with ecological means. This has been an integral part of the company philosophy for many years.

As well as quality assurance, profitability and safety of the products, operational environmental protection is one of the stated corporate goals of the ARCORA® GROUP.

And as with any of our goals, continuous improvement is our top priority.

Self-declared goal is also the responsibility towards our employees as well as the careful use of natural resources.

Quality management, environmental management, integrated management system are important keywords for future market success. Therefore, we arranged a management system that includes both environmental and quality management. Those who want to come through in long-term on the European market as well as worldwide must orient themselves to new international standards.

The three-pillar model of sustainable development is what ARCORA® is geared to.

Thinking about tomorrow today and assuming responsibility for people, the environment and society is a matter of course for our company.

Sustainability at ARCORA®

ecology

- conservation of resources
- selection of environmentally friendly materials
- reduction of waste
- recycling of residual material
- environmentally friendly dosage
- protection of the environment in context of production, consumption and the distribution of our products

economy

- expansion through innovation, quality and service
- efficient and economical use of resources
- achieving long-term and sustainable economic success
- focus and concentration on fewer products

social

- safety and healthy working environment for employees and customers
- personal and professional development of employees
- cooperation with universities
- stable and long-term personnel planning

CLEANING AND CARE PRODUCTS

DEEP CLEANERS

RAISON®

pH 13,2-13,5

ODOR-FREE, EXTRA-POWERFUL DEEP CLEANER

Highly effective cleaner for removing multi-layer polymers and waxes on alkali and water-resistant hard floor coverings.

- high-alkaline problem solver with very-high-film-removal power
- fast network ability with pleasant scent
- low risk of slipping

containers	article-no.	units	container price
1 l bottle	01199	12x1 l	4,94 €
10 l canister	01036	1x10 l	43,32 €

PROLINO

pH 11

DEEP CLEANER FOR ALKALINE-SENSITIVE FLOORS

Perfect for the removal of protective coatings and heavy soiling on alkali-sensitive, water-resistant floors.

- intensive film dissolving ability, good wetting
- gentle on materials, free of ammonia

containers	article-no.	units	container price
1 l bottle	01200	12x1 l	4,44 €
10 l canister	01046	1x10 l	38,22 €

TIGER

pH 10-10,5

HIGH-PERFORMANCE UNIVERSAL DEEP CLEANER

Dissolves all water-soluble coatings, encrustations, care product residues and soiling on almost all water-resistant and alkali-sensitive floor coverings.

- removes all water-soluble, metal crosslinked and metal salt free coatings
- quick effectiveness and residue-free removal

containers	article-no.	units	container price
10 l canister	01203	1x10 l	77,24 €

FLOOR COATINGS

PRO PRIMER

pH 9-10

SEALANT FOR POROUS SURFACES

Long lasting sealant for water-resistant, rough and aged floor coverings against water stains, dirt and provides for a lasting hold of coatings.

- ideal preparation of old coverings before a coating

containers	article-no.	units	container price
5 l canister	01063-05	2x5 l	41,91 €

PRO SATIN FINISH

pH 7,7-8,7

LONG-LASTING FLOOR COATING WITH SATIN EFFECT

Durable and dirt-resistant floor coating. Ideally suited, if despite low care expenditure, a damage-free surface is desired.

- creates a long-lasting satin-matte finish (satin effect)
- resistant to abrasion traces

containers	article-no.	units	container price
5 l canister	01077-05	2x5 l	46,39 €

CLEANING AND CARE PRODUCTS

FLOOR COATINGS

REVOLUTION-X

pH 7,5

REVOLUTIONARY FLOOR COATING WITH PATENTED FORMULA

The coating convinces by the high durability, the gloss structure and the resistance to re-soiling, because of the thorough and denser networking of the surface, free of ammonia.

- resistant to abrasion marks
- significantly longer service life to the next deep cleaning

containers	article-no.	units	container price
5 l canister	RL-X05	2x5 l	61,47 €

GREEN FINISH-X

pH 7,5

ENVIRONMENTALLY FRIENDLY HIGH PERFORMANCE FLOOR COATING

Durable floor coating with an environmentally-friendly formula. Deeper, longer-lasting high gloss despite zinc-free formula and free from APEO and ammonia.

- low maintenance and easy removal of coating damage
- no yellowing
- low emissions values

containers	article-no.	units	container price
5 l canister	GF-X05	2x5 l	44,59 €

TOP
SELLER

ELITE 29 und ELITE 29 MATT

pH 8,5

DISINFECTANT- AND ALCOHOL-RESISTANT FLOOR COATING

Perfect to protect flooring in areas where surface and hand disinfectants are in frequent use.

- produces a long-lasting, easy to restore result
- easy to recoat; no need to perform an additional deep cleaning

containers	article-no.	units	container price
ELITE 29			
5 l canister	01152-05	2x5 l	55,89 €
ELITE 29 MATT			
5 l canister	01156-05	2x5 l	57,00 €

PROTECT

pH 8,5

URETHANE-STRENGTHENED UHS SPORTS FLOOR COATING

This high-quality, fast-drying floor finish is made with urethane/acrylic polymers. Creates an adurable, easy to restore finish.

- easy to recoat; no need to perform an additional deep cleaning.
- meets the requirements of **DIN 18032** and is thus very well suited for sports flooring.

containers	article-no.	units	container price
5 l canister	01052-05	2x5 l	49,62 €

EVENTS

pH 8-9

ECONOMICALLY FLOOR COATING

Durable floor coating that is ideal for floors that are cleaned only occasionally.

- high-performance acrylic polymers produce a long-lasting shine
- resistant to abrasion
- immediately responds to all care procedures

containers	article-no.	units	container price
5 l canister	01013-05	2x5 l	33,43 €

CLEANING AND CARE PRODUCTS

FLOOR COATINGS

EXTEND METALLIC

pH 8,5

LONG-LASTING FLOOR COATING

High-quality, long-lasting basic dispersion for all types of water-resistant floorings, with high public traffic and/or extreme contamination.

- slip-resistant, extremely stable as high solids content
- high gloss and long life

containers	article-no.	units	container price
1 l bottle	01201	12x1 l	8,36 €
10 l canister	01190	1x10 l	76,12 €

STONE MAGIC

pH 8,65

2-COMPONENT COATING FOR TERRAZZO FLOORS

High performance coating for terrazzo floors based on IPN technology. Suitable for highly frequented interiors.

- resistant to scratches, wear, tear and dirt
- excellent chemical resistance
- high gloss without polishing
- UL certified slip-resistant

containers	article-no.	units	container price
3,8 l canister	01078	3x3,8 l	227,73 €

WOOD FLOOR COATING SYSTEMS

WOOD PRIMER

pH 7,7-8,7

WATER BASED QUICK DRY WOOD FLOOR SEALANT

Sealing of real wood coverings with an acrylic emulsion and provides optimal protection without changing the original structure of the wood. Protect the floor against water, stains, and dirt and ensures that the coating is long lasting.

- fast-drying
- no risk of individual wood elements gluing together

containers	article-no.	units	container price
5 l canister	01079-05	2x5 l	112,65 €

WOOD SATIN FINISH

pH 7,5-8,5

WATER-BASED URETHANE- WOOD COATING WITH SATIN-EFFECT

This water-based urethane/acrylic wood floor finish provides long lasting beauty and protection for all wood floors. Specially for coating sealed and oiled solid wood floors.

- no added catalyst required
- quick drying and satin-matte transparent film
- very high abrasion resistance, very durable
- dirt resistant and UL certified slip-resistant

containers	article-no.	units	container price
5 l canister	01081-05	2x5 l	125,23 €

WOOD FINISH

pH 7,5-8,5

WATER-BASED URETHANE WOOD COATING

This water-based urethane/acrylic wood floor finish provides long lasting beauty and protection for all wood floors. Specially for coating sealed and oiled solid wood floors.

- no added catalyst required
- quick drying and high-gloss transparent film
- very high abrasion resistance, very durable
- dirt resistant and UL certified slip-resistant

containers	article-no.	units	container price
5 l canister	01080-05	2x5 l	125,23 €

CLEANING AND CARE PRODUCTS

ROUTINE CARE FOR WOOD FLOORS

WOOD SAFE

pH 8

MOPPING SOLUTION FOR MAINTENANCE CLEANING AND CARE OF OIL- OR OIL/WAX-PRIMED WOOD AND PARQUET FLOORING

Water soluble, high-wetting cleaning and care product for water-repellent flooring as well as for oiled parquet.

- good cleaning properties and care qualities
- meets **DIN 18032/2** standards for the sliding coefficient of friction

containers	article-no.	units	container price
1 l bottle	01204	12x1 l	7,49 €
5 l canister	01210	2x5 l	33,43 €

WOOD SHINE

pH 8

MOPPING SOLUTION FOR MAINTENANCE CLEANING OF SEALED WOOD, PARQUET AND LAMINATE FLOORS

Water soluble, high-wetting cleaning and care product with natural substances made of biodegradable, sustainable raw materials.

- slip-resistant and water-repellant
- protects edges and joints
- polishable or treatable with a high-speed machine

containers	article-no.	units	container price
1 l bottle	01212	12x1 l	6,48 €
5 l canister	01213	2x5 l	28,72 €

RESTORER AND PERIODIC CLEANERS

CITRUS 2IN1

pH 11-12,5

CLEANING AND POLISH RESTORER

Floor cleaner and polish restorer that cleans and conditions in one step. Suitable for all ARCORA coatings.

- contains a refresher, that prevent powdering of the coating and gives the floor a bright shine
- increases the slip-resistance on the surface of the finish

containers	article-no.	units	container price
5 l canister	01067-05	2x5 l	32,19 €

SURF

pH 11,5-12,5

PERIODIC FLOOR CLEANER FOR RECOATING

Ideal preparation for applying a new coating layer on existing coatings.

- suitable for daily cleaning of heavily soiled areas
- faster, simpler cleaning with less effort, no neutralization necessary
- extends the stripping cycle so that fewer deep cleanings are necessary

containers	article-no.	units	container price
5 l canister	01076-05	2x5 l	22,30 €

CLEANING AND CARE PRODUCTS

HEAVY-DUTY FLOOR CLEANERS

HAMMER®

pH 13

DIRT-BUSTER / HEAVY-DUTY DEEP CLEANER

Alkaline, high-powered cleaner for all alkali- and water-resistant flooring types.

- powerful, low foaming cleaner manufactured with special ingredients
- suitable for all types of cleaning machines
- removes machine oil and grease, soot, graphite and dirt from exhaust pollution

containers	article-no.	units	container price
10 l canister	01041	1x10 l	42,98 €

EXBETAN®

pH 1

WORKSHOP AND INDUSTRIAL CLEANER

Special cleaner for heavy soiling of alkali- and water-resistant materials in the automotive and commercial vehicle sector.

- cleans quickly and easily; gentle on materials
- removes thoroughly grease, oil, soot and stubborn encrusted dirt
- oil separator friendly according to **Ö-NORM B 5105**

CLEANING AND CARE PRODUCTS

FACADE AND SPECIAL CLEANERS

NEW

Available from February 2019!

DEEP CLEAN AL - ABRASIV

GRM-LISTED

pH 6,5

DEEP CLEANER FOR ALUMINUM COATED SURFACES

Removal of soiling, oil, grease, pigment dirt or chalky stains from coated facade elements.

containers	article-no.	units	container price
5 kg bucket	01272	1x5kg	71,50 €

DEEP CLEAN ME - ABRASIV

pH 6,8

DEEP CLEANER FOR ANODIZED ALUMINUM

Removes heavy soiling, iridescence (sour developments) oil, grease, pigment dirt and rain drainage, as well as rust on metallic surfaces.

containers	article-no.	units	container price
5 kg bucket	01273	1x5kg	79,00 €

CLEANER ME/PL - NEUTRAL

GRM-LISTED

pH 6

MAINTENANCE CLEANER FOR PAINTED, ANODIZED AND PLASTIC SURFACES

All-purpose cleaner for facades. Removes nicotine, oil, fat, pigment soiling and rain drainage.

- components with caring features
- shining effect by frequent usage

containers	article-no.	units	container price
5 l canister	01274	1x5 l	34,90 €

DEEP CLEANER & POLISH 2IN1

GRM-LISTED

pH 7

DEEP CLEANER AND PRESERVATOR FOR PAINTED, ANODIZED AND PLASTIC SURFACES

Removes light to strong soiling like oil, grease, pigment- dirt, rain drainage or chalky stains from coated facade elements.

- cleaning and preservation in one step

containers	article-no.	units	container price
5 l canister	01275	1x5 l	87,50 €

FAST PROTECT

GRM-LISTED

pH 7

PRESERVATOR FOR PAINTED, ANODIZED AND PLASTIC SURFACES

Protects surfaces from renewed soiling and has a preservative pearling effect.

- leaves a silky-mat protective layer
- easier cleaning of glass surfaces as the dirt doesn't get stuck

containers	article-no.	units	container price
5 l canister	01276	1x5 l	52,00 €

LOGLIFE PROTECT

GRM-LISTED

pH 7,3

PRESERVATOR FOR PAINTED, ANODIZED AND PLASTIC SURFACES

Protects surfaces from renewed soiling, setting of new dirt and chalking on coated facade surfaces.

- the color is intensified and gets a silky shine
- formation of a temporary weather / UV resistant protective film

containers	article-no.	units	container price
5 l canister	01277	1x5 l	79,00 €

CLEANING AND CARE PRODUCTS

FACADE AND SPECIAL CLEANERS

NEW

Available from February 2019!

STONE CLEAN PAS - ALKALI

pH 14

DEEP CLEANER FOR CALCAREOUS ROCK

For cleaning heavily soiled surfaces.
Dissolves inorganic and organic deposits.

- spreadable with dilution possible
- suited for application on heavy soiled surfaces

containers	article-no.	units	container price
5 kg bucket	01278	1x5 kg	49,50 €

STONE CLEAN EXTRA LIQ - ALKALI

pH 14

DEEP CLEANER FOR CALCAREOUS ROCK

Strong oil, grease and protein dirt even burnt dirt can be removed.
For maintenance-, intensive- and deep cleaning of all alkali- resistant surfaces.

- for all natural and artificial stones as well as corrosion resistant metals
- **NOT** for saponificate lacquers, paints and sensitive plastics

containers	article-no.	units	container price
5 l canister	01279	1x5 l	51,50 €

STONE CLEAN PAS - ACID

pH <1

DEEP CLEANER FOR ROCKS WITH LOW LIMESCALE

Strong acidic cleaning paste for effective removal of mineral deposits on porous rock types. The pasty form ensures that even stubborn encrustations can be removed by exposure time.

containers	article-no.	units	container price
5 kg bucket	01280	1x5 kg	65,00 €

STONE CLEAN LIQ - ACID

pH <1

DEEP CLEANER FOR ROCKS WITH LOW LIMESCALE

For the removal of mineral deposits on porous and smooth rock types and building materials. Even stubborn soiling and encrustations can be removed by exposure time.

- suitable for weathering of industrial glass

containers	article-no.	units	container price
5 l canister	01281	1x5 l	56,00 €

STONE PROTECT SOLVENT

pH -

IMPREGNATION FOR ALL STONE SURFACES

Builds a hydrophobic, dirt resistance layer, penetrates deeply and has a high alkali resistance.

- tack free drying
- seaweed and moss protection
- no functional impairment of the breathability of the masonry

containers	article-no.	units	container price
5 l canister	01282	1x5 l	80,00 €

STONE PROTECT SOLVENT FREE

pH 6,5

IMPREGNATION FOR ALL STONE SURFACES

One-component impregnation on a water basis with excellent hydrophobing of porous and mineral surfaces.

- builds dirt-resistant layer
- high alkali resistance

containers	article-no.	units	container price
5 l canister	01283	1x5 l	59,00 €

CLEANING AND CARE PRODUCTS

FACADE AND SPECIAL CLEANERS

NEW

Available from February 2019!

GRAFFITI REMOVER PAS

pH 7

GRAFFITI REMOVER

Especially suitable for application on strong absorbent and smooth substrates.

- removes paint smear, graffiti, sealing residues, tar, resins, synthetic resin paints, adhesives, sealings, etc.

containers	article-no.	units	container price
5 kg bucket	01285	1x5 kg	75,50 €

GRAFFITI REMOVER LIQ

pH 1

GRAFFITI REMOVER

Suitable for open-pore surfaces or smooth surfaces such as e.g. Clinker, concrete and sandstone.

- removes paint smear, graffiti, sealing residues, tar, resins, synthetic resin paints, nitro paints, etc.

containers	article-no.	units	container price
1 l bottle	01284	12x1 l	17,00 €

GRAFFITI PROTECT - LIQ

pH 8,5

PROTECTION AGAINST GRAFFITI

Protection against graffiti from spray cans and felt-tip marker. Based on the build of a protective layer the discoloration of the ground surface will be prevented.

- NOT suitable for floor areas and on coated wall surfaces

containers	article-no.	units	container price
5 l canister	01286	1x5 l	93,50 €

GLASS CLEAN POWDER

pH 5-8

SPECIAL CLEANER FOR REMOVING LIME RESIDUES

Very well suited for removing lime residues, water stains and all dirt deposits on coated glass, stainless steel or ceramic without destroying the rubber or silicone seals.

- cleans clear, streak-free and spotless
- easy to process
- no risk of acid burns especially on glass surfaces and adjacent materials

containers	article-no.	units	container price
1 kg can	01287	4x1 kg	24,80 €

MOSS-EX LIQ

pH 13

FOR REMOVING ORGANIC CONTAMINATION ON STONES

For removing organic dirt and deposits on mineral building materials, such as natural stone, sand-lime, plaster, brick, concrete, fiber cement and for the renovation of facade surfaces as well as mold-infested interior wall surfaces.

- highly effective algae and moss remover
- cleans deeply and thoroughly
- protect against re-infestation for long-term

containers	article-no.	units	container price
1 l bottle	01288	12x1 l	9,50 €
5 l canister	01289	1x5 l	32,50 €

Factory 2 in Bursa / Turkey

The advantages of ARCORA® flat mops

Everything out of one single source:

All production steps to manufacture mop covers are performed at ARCORA® owned production facility: From producing the needed yarn through the weaving and punching process all the way to the order packaging. The manufacturing processes for microfiber and precious cotton products are controlled and monitored by specialists.

This together provides ARCORA's innovative products, flexible design options for mop covers as well as top price-performance ratio. On request, flat-mops in larger quantities can be delivered directly from the factory to into customer projects.

Your advantages:

- use of high-quality raw materials
- maximum water absorption
- durable, tear-resistant pockets
- strict quality controls
- guaranteed long life
- individual embroidery of labels
- excellent cleaning performance
- individual design or selection of textile, thickness, colour coding

CLEANING AND POLISHING PADS

MELAMINE - SYSTEMS

MELAMINE ROUNDPAD

For removing dirt and old coverings on rubber floors, porcelain tiles, safety tiles and linoleum floors.

- the extremely sharp-edged special resin particles break dirt and absorb the dirt through frictional movement
- area performance up to 500 - 750 square meters
- melamine foam is 300 times finer than microfiber
- made of 100 % original melamine resin foam
- moisten pad before use. Application with low RPM. Do not clean painted surfaces.

TERMS AND CONDITIONS

I. Scope and Offer

All business transactions between the seller and the buyer are exclusively subject to the following terms and conditions. These terms and conditions also apply to all future deliveries of the seller, even if they are not expressly agreed to again. Conflicting or differing business terms or agreements of the buyer apply only with the written consent of the seller.

Latest upon receipt of the goods or services from the seller, these terms and conditions shall be deemed accepted. Verbal collateral agreements and contract amendments shall only be valid in writing. The same applies for the guaranteed quality of the delivered goods. The seller's offers are subject to change without notice.

II. Delivery

In the absence of specific instructions from the buyer on the choice of shipping route, the seller selects the shipping method after due consideration. Is pickup is agreed on, the buyer must pick up the delivery within 3 days following notification that the order is ready. Otherwise, the seller will select a shipment method without further input from the buyer, and the buyer bears the costs of the shipment.

Deliveries will generally be made from the warehouse in Aschheim near Munich. Delivery in the Federal Republic of Germany is free to resellers (dealers) starting with a minimum net order value of 750 €.

Should the buyer wish for a method of shipment that is not the most economic option, the buyer bears the additional costs.

III. Delivery weight

The delivery weight determined by the supplying plant during shipment is decisive for determining the delivery weight.

IV. Shipping and Term of Acceptance

The agreed-on delivery period begins with the order confirmation, but not before the arrival of the documents, permits, and approvals that must be presented by the buyer.

Should the seller exceed the agreed delivery date by more than 4 weeks, the buyer may grant a grace period for the fulfillment of 1 month. If delivery is not made even after the expiry of the grace period, the buyer is entitled to withdraw from the contract.

The withdrawal should be made immediately in writing, but at the latest within 2 weeks after the expiry of the grace period.

The buyer is not entitled to withdraw from the contract if the seller cannot meet the deadline through no fault of his own. In this case, the buyer can withdraw from the contract three months after exceeding the original delivery date.

If events occur that prevent or impede delivery or transport for which the seller is not responsible, the seller has the right to withdraw from the contract or to postpone delivery until the obstacle is removed. The seller shall communicate these circumstances to the buyer immediately. Partial deliveries that have already been completed are regarded as a separate transaction. The settlement of partial deliveries may not be refused on the grounds of the remaining undelivered quantities. If the delivery is postponed for the mentioned reasons, the buyer has no right to a grace period or to withdrawal from the contract. If the late delivery/partial-delivery or non-delivery/partial non-delivery is due to the gross negligence of the buyer, the claim for compensation is limited to the foreseeable damage. Otherwise, claims for compensation are excluded.

V. Transfer of risk

Unless otherwise agreed, risk is transferred to buyer at the point when the shipment is dispatched from the warehouse. The buyer bears the risk for all deliveries taken during return transport, as well as for packing during the round trip transportation, unless the shipper is legally liable.

VI. Seller's right of withdrawal

If the buyer does not accept the delivery, the seller is entitled to withdraw from the contract or to demand compensation for non-performance after setting a grace period of two weeks.

VII. Prices and payment

All ex stock prices are in €, including packaging costs, unless these are charged separately or otherwise agreed upon. The valid price on the date of delivery plus the taxes listed separately in the invoice constitutes the agreed-upon price.

The conditions of the seller that appear on the invoices govern the payment of the invoice amounts. Invoices must be paid within 10 days with 2% discount, or within 20 days net, unless other payment arrangements are agreed in writing.

The term of the payment period indicated on the invoice begins with the invoice date. This applies particularly to the calculation of the time limit for the 2% discount.

Payments are made according to the conditions selected by the seller.

Checks are only accepted on account of performance after deduction of the incurred costs and fees, without a reduction of the purchase price.

VIII. Shortcomings

Obvious defects are to be communicated to the seller immediately, at the latest within 3 consecutive working days after receipt of the delivery at the destination location. Within this period, the buyer must send samples of the contested delivery to the seller.

If there is a defect, the buyer may only demand a new shipment of the contested delivery. If the subsequent delivery does not remedy the defect, the buyer is only entitled to a price reduction or cancellation. The agreed-upon warranty also applies to all goods delivered in the course of remedying the defect.

Claims regarding the absence of guaranteed properties or warranties can only be honored if the seller confirms them in writing. In this case, the buyer has the right to cancellation, reduction or compensation. For consequential damages, however, the seller is liable only if there is a separate agreement in this respect. Further claims for direct or indirect damages are excluded, unless liability is mandatory in cases of intent or gross negligence.

All products of the seller and their respective pictures, brochures, advertising leaflets, etc., and the information contained therein regarding chemical composition, weight, and effectiveness are only approximate unless expressly designated as binding. The seller is liable for verbal or written technical advice only in the case of intent or gross negligence; this also applies to any possible rights of third parties. The buyer is not exempt from the requirement to test the products for their suitability. This applies even if the delivered product is generally recommended for a particular purpose.

For any possible liability of the seller, the agreed-upon clauses regarding liability for defects apply accordingly.

IX. Retention of title

The delivery remains the property of the seller until full payment of all outstanding claims resulting from the joint business relationship, including interests and costs. The buyer is revocably entitled to resell the products within the ordinary course of business. Any other exercise of rights, in particular a pledge, assignment, or transfer by way of exchange, is not permitted. A seizure made by a third party, or any other impairment of the rights to the goods owned by the seller, is to be reported to the seller immediately. The buyer assigns to the seller all claims and ancillary rights deriving from resale or from the business relationship with customers in connection with the resale. In the event that the goods are sold by the buyer together with other goods not belonging to the seller, the assignment of purchase price claims apply only to the value of the seller's goods.

If the buyer is late in fulfilling his payment duties to the seller, or violates the claims of the agreed-upon retention of title, or if a legal action or bankruptcy proceedings are started against his assets, then all accounts receivable owed to the seller by the buyer are immediately due for payment, including those due for payment according to these terms and conditions.

If the entire balance is not paid immediately, the seller is entitled to demand the immediate surrender of the goods excluding any rights to retention of goods. All costs incurred in the repossession of the goods, in particular transport and examination costs, are borne by the buyer. The seller is in this case entitled to sell the repossessed goods of sale on the open market at the best possible rate, including accessories, after previous notice and without prejudice to the payment obligation of the buyer. After deducting any costs, the proceeds will be credited to the buyer's total obligations.

X. Other

If individual provisions of these terms and conditions or of the delivery transaction are or become invalid, the validity of the remaining provisions shall not be affected. The contractual partners are required to agree on a new provision that most closely meets the purpose of the invalid provision.

The legal relationship between the seller and buyer are governed exclusively by the laws of the Federal Republic of Germany.

Place of fulfillment for all obligations from the delivery and jurisdiction for all resulting disputes is exclusively Munich.

Our General Terms and Conditions apply.

With the publication of this catalogue with prices all other prices, offers and price lists become invalid.
