Our closed loop recycling capabilities
Our closed loop recycling capabilities
The perfect partner for your closed loop recycling scheme
Closed loop recycling schemes enable you to make an important statement about your commitment to the environment.

bpi.recycled products is the perfect partner to help implement your scheme thanks to our considerable size, infrastructure and expertise.
Europe’s largest polythene recycler recycling 70,000 tonnes of waste per year.

ISO 9001, ISO 14001 and OHSAS 18001 accredited.

Continually investing into new technology and innovations.
Our closed loop recycling capabilities

• Part of BPI plc – a global business operating across many market sectors and supplying customers in more than 50 countries worldwide.

• Nationwide network of sites accredited by the Environment Agency and the Scottish Environment Protection Agency (SEPA).

• We turn a wide range of waste into a broad portfolio of ‘second life’ products.
Our closed loop recycling capabilities
