Tork Microfiber Surface Cleaning Cloths

Infection prevention starts with a clean and safe care environment, making you and your team the first line of defense and the guardians of safety for patients and staff alike. But without the right training and efficient tools, the work can be even more challenging. That's why we have developed a surface cleaning solution that provides what you need to support clean, caring and safe healthcare environments.

Tork Training and Education Tools

Our free training tools help you conduct more engaging, effective and longer lasting training, linked to the real areas in a hospital. The result is more consistent procedures and outcomes as well as more motivated staff.

Tork Interactive Clean Hospital Training

A visual and engaging way to make staff understand how important their work is for patient safety – based on a “real world” scenario, but in a safe virtual world.

Tork Train-the-trainer Presentation for Hospital Cleaning Operatives

A “how to” train your cleaning team tool that includes cleaning strategies, processes, a mini microbiology school and more. Plus instructions on how to train your team using the Tork Interactive Clean Hospital Training.

Tork Microfiber Surface Cleaning Cloths

Helps to promote a safe and clean healthcare facility without spending more. The new cloths provide quality results the first time, allowing staff to move on to the next task or infection prevention need. Color-coding helps avoid cross-contamination.
