

newmop
productos para la limpieza

Hello!

Newmop is a company which is dedicated to manufacturing of mops and other cleaning tools. Since we were born in 2003, all our efforts have been focused on being pionners in innovation and treatment of microfibre, searching for standing out difference in market. We have a wide range of microfibre mops as well as synthetic and cotton mops. Achieving a great acceptance in Spanish market (we distribute to all peninsula and Canary Islands) and international markets, with presence in more than twenty countries. We manufacture our own brands (Ligerina, Agua and TrisTras) and other globally known brands are provided by us.

TrisTras

productos para la limpieza

We have Oeko-Tex Standard 100 international certificate, which qualify most of our items are free of toxic substances, it means a competitive advantage of our products as well as becoming a reason for the customer's purchase. Most of our items are certificated as Oeko-tex standard 100. Oeko-Tex Standard 100 rule is a system of tests and unified certification worldwide for textil products in all stages of the process. The analyzes of dangerous substances include dangerous substances for health as well as parameters of hygienic prevention. The products which are analysed successfully can be awarded with Oeko-Tex brand by producers.

Now, besides offering you the best qualities, we also think in health and ecology, offering products which answer to your needs.

The background of the image is a photograph of a textile factory. It shows rows of large spools of white thread mounted on a metal frame. The threads are being processed, with some visible as thin lines. The lighting is industrial, and the overall scene is a busy manufacturing environment. A large white circle is superimposed over the center of the image, containing the text.

Our facilities

We have more than 10,000 m² where you can find different production and storing areas.
