INNOVATIVE PROFESSIONAL QUALITY AND SUSTAINABLE RESPONSIBILITY.

Since 1964, **UNGER** has been meeting the needs of cleaning professionals who expect maximum quality, efficiency and innovation from their glass and building cleaning products. With each passing year, we have expanded and improved our range; today we are at the forefront of our industry. What is the secret behind becoming number one? Our relentless pursuit of innovative cleaning methods, outstanding quality, trust and excellent customer service, and our partnership with you!

Looking to the future: UNGER's Green Label

On our 60th anniversary, not only are we looking back at all that has been achieved – we also want to look forward to the challenges of the future, especially when it comes to sustainability. We have a responsibility to act sustainably, and we want to play an active role in shaping the future. This is why we are continuing to develop environmentally friendly solutions. The Green Label range, which contains our first sustainably certified products, is just the beginning. The future is green – as uncompromisingly green as UNGER!

UNGER is proud to hold the **EcoVadis bronze sustainability certificate**. But we would much rather let our actions speak for themselves. They prove that sustainability, as well as social responsibility, belong to our core values. It goes without saying that we will continue to work towards the common good for the

next 60 years so we can create a future for all that is worth living.

UNGER:
60 Years of Global Excellence in Cleaning Innovation

WINDOW CLEANING PURE WATER SYSTEM

Cleaning with Pure Water

WHAT IS PURE WATER ?

It's water in its purest form, physically processed to remove the minerals that would otherwise lead to limescale spots and streaks.

Such impurities are referred to as **TDS** (total dissolved solids) and are measured in **ppm** (parts per million).

The water is considered 100 % demineralised (pure) when TDS is 0 ppm.

ADVANTAGES

**EASY:**

Easy to operate and simple resin change.

**FAST:**

Twice as fast as traditional glass cleaning - just one process.

**COST-SAVING:**

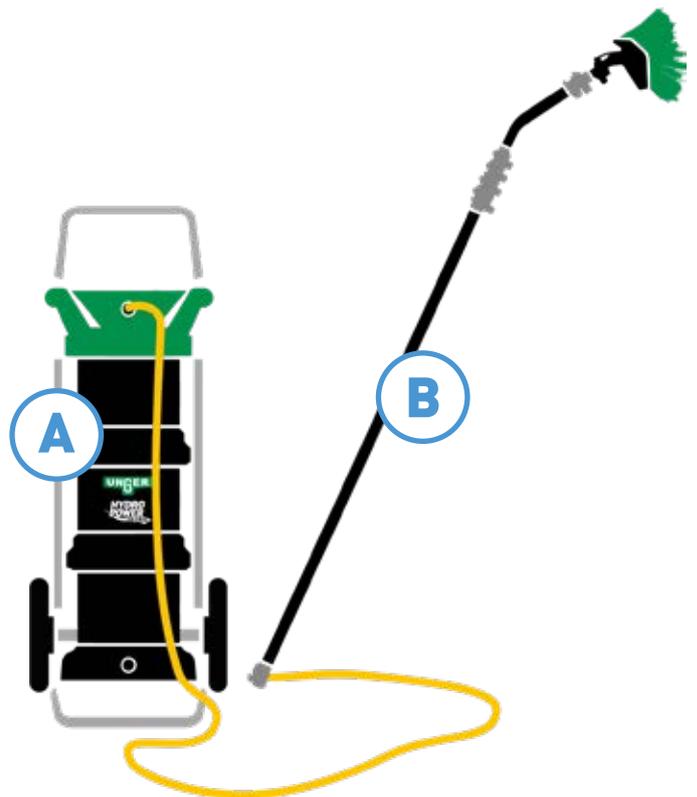

Half the labour costs.
No rental for cherry picker.

**ENVIRONMENTALLY FRIENDLY:**

Glass cleaning completely without chemical cleaning agents.

**SAFE:**

Safe working from the ground up to the 6th floor, with no cherry picker or ladder whatsoever.

WHY USE PURE WATER FOR CLEANING?

Pure water contains phenomenal cleaning power – without using any chemicals whatsoever. One-step cleaning with pure water means there is no need to wipe and polish the glass. The pane dries streak-free and without any deposits. It is twice as quick as with traditional glass cleaning and significantly improves the cost calculations*.

Applied with a water fed pole system, such as **UNGER nLITE®**, pure water is a fast, safe and effective method of cleaning, especially at height.

TYPICAL APPLICATIONS

**WINDOW AND FACADE CLEANING:**

- Fast and effective method – great results!
- Easy access to hard to reach areas

**PV- AND SOLAR PANEL CLEANING:**

- Regular cleaning prevents build up of dirt for greater energy output
- Solar yield can be increased significantly!
- Cleaning with 100 % pure water leaves no streaks or detergent residue

*Prof. Dr. rer.nat. Gerhard Winter, Albstadt-Sigmaringen University, seminar documents February/March 2011

The UNGER Pure Water System

A PURE WATER FILTERS

p. 6

**HYDRO
POWER**

DI filter

RO filter

There are 2 recognised methods of pure water production in the window cleaning industry – Reverse Osmosis and Deionisation.

The **UNGER** range includes filters utilising either of these methods - turn to page 21 for more information.

B WATER-FED POLES

p. 17

nLITE®

A technological milestone: The new **nLITE®** system is the best and most advanced telescopic pole system that has ever existed. Ultra-light materials make work considerably easier. The innovative pole shape ensures noticeably more precision. And thanks to the easy handling of the poles and many intelligent product details, pure water cleaning is done faster than ever before.

With the high-quality material classes used, the **nLITE®** system is suitable for every application and every budget and proves to be perfect equipment for every working height - of course with **UNGER** quality "Made in Germany".

PURE WATER SYSTEM

A PURE WATER FILTERS

Choosing Your Filter System

There are 2 recognised methods of pure water production in the window cleaning industry – **Reverse Osmosis** and **Deionisation**.

The **UNGER** range includes filters utilising either of these methods. This page will help you to decide which method suits your cleaning requirements best and will deliver the highest return on your investment.

HYDRO POWER® ULTRA DEIONISATION FILTER (DI)

p. 7

These filters utilise ion exchange resin which removes ionised salts and impurities from water, producing 100 % deionised pure water, with no waste water.

Though DI filters require a relatively low initial investment when compared to RO, frequent replacement of old resin with new is necessary for 100 % pure water production.

Mobile design and portability, with no need for power or pumps, our DI filters can be easily set up anywhere – all you need is a tap water supply.

RECOMMENDED FOR:

- Areas with soft or medium water hardness level
- Small size filters are ideal for cleaning small to moderate size areas, as well as an entry level solution for professional cleaning
- Large sizes – for frequent cleaning of large areas
- Use as final stage of water purification process, after RO membrane, to achieve 100 % pure water

HYDRO POWER® REVERSE OSMOSIS FILTER (RO)

p. 10

The **UNGER RO** utilizes 3 stage water purification system. First, the combi-pre-filter captures chlorine and sediments from the incoming water, then the water is directed towards 2 RO membranes which remove up to 98 % of dissolved minerals and contaminants.

At this point, the water flow is split into waste water (concentrate) that requires drainage facility and pure water which is directed to DI Polisher where any remaining impurities are filtered by ion exchange resin to produce 100 % pure water.

RECOMMENDED FOR:

- Areas with hard or very hard water level
- Constant, high volume pure water production

HYDRO POWER® ULTRA FILTER

THE HYDRO POWER® ULTRA SYSTEM

The Most Efficient DI Pure Water System Ever! Performance at the highest level:

The **UNGER HydroPower® Ultra** is setting a new standard in deionising filter technology for pure water cleaning. A definite value-add for every professional glass and building cleaner.

Over 30 %* More Pure Water Per Resin Filling

- Every Ultra resin pack contains a pre-portioned amount of **UNGER** premium ion-exchange resin with a **new formula, perfected for glass cleaning**
- The **FloWater technology 2.0** in every Ultra resin pack ensures an efficient flow of water through the whole tank which optimises the **resin saturation**
- Intuitive colour coded system + KeyLock function eliminates risk of operating errors

Ultra Resin Packs

Premium Ultra Resin
Perfected ion exchange resin, as required for cleaning glass

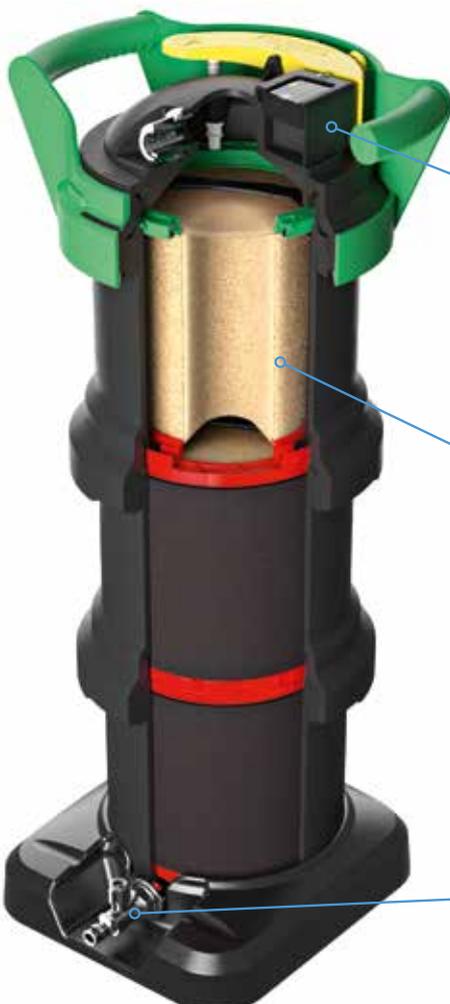

TDS-METER

ULTRA RESIN PACKS

WATER CONNECTIONS

*In comparison with standard DI systems (e.g. **UNGER HydroPower® DI** filters). Source: test results from the independent testing laboratory Miontec GmbH, 2019.

HYDRO POWER® ULTRA FILTER

SIMPLE AND EFFECTIVE HANDLING

TDS-Meter

- Integrated digital measuring device displays the water hardness of the pure water coming out in ppm
- At a TDS value >10ppm the Ultra Resin Packs have to be changed

Easily removable cover

- Quick and easy changeover
- Ultra resin packs can be changed as easily as a coffee pad in a coffee machine

FastLock quick-fit fastener

- Easy to open and close the tank
- Safe, self-locking mechanism with pressure-relief valve

High-quality metal connections

- Stable quick-fit metal hose connector
- Reliable quick release connectors, suitable for most hoselock type fittings commonly used on most water fed poles
- Practical shut-off valve prevents leakage during transport

Choose from 2 filter sizes depending on the volume of pure water required and frequency of use to maximise your return on investment. All 3 versions are supplied complete with **Ultra Resin Packs** and integrated **TDS meter** to monitor the outgoing water hardness.

DIUH1
HydroPower® Ultra S

DIUH2
HydroPower® Ultra L

DIUH3
HydroPower® Ultra LC

FILTER OUTPUT

In particular the water hardness and the hydrogen carbonate content of the input water have a strong influence on the amount of pure water. The following values correspond to the output of **UNGER HydroPower® Ultra** with *average tap water*:

HydroPower Ultra S (DIUH1)

Factor	Value
Resin fill	1 × 6 l
Pure water quantity per resin filling	710 l
Working hours*	approx. 6 h
Coverage in m ² **	approx. 600 m ²

HydroPower Ultra L (DIUH2)

Factor	Value
Resin fill	3 × 6 l
Pure water quantity per resin filling	2.450 l
Working hours*	approx. 20 h
Coverage in m ² **	approx. 2.000 m ²

HydroPower Ultra LC (DIUH3)

Factor	Value
Resin fill	3 × 6 l
Pure water quantity per resin filling	2.450 l
Working hours*	approx. 20 h
Coverage in m ² **	approx. 2.000 m ²

The pure water quantities (TDS < 10 ppm) were determined by an independent test laboratory at a water flow rate of 180 l/h and under the following conditions for the input water:
 TDS: 275 ppm
 Sum of cations and anions: 5,5 meq/l
 Hydrogen carbonate content of anions: 60%.

With *soft water* (<100 ppm) the pure water output can increase **more than 3 times**. With very hard water (>400 ppm), depending on the hydrogen carbonate content and ion concentration, the output can **decrease by more than half**.

* at a water flow rate of 120 l/h
 ** with an area output of 100 m²/h

HydroPower® Ultra FILTER

Part No.	Base	Height	Resin Packs	Cart
DIUH1	30 × 31 cm	35 cm	1 (6 l)	-
DIUH2	30 × 31 cm	77 cm	3 (18 l)	-
DIUH3	30 × 31 cm	107 cm	3 (18 l)	✓

Ultra RESIN PACKS FOR HYDRO POWER® ULTRA FILTER

Over 30 %* more pure water per resin filling

Ultra RESIN PACKS

Part No.	Info	Pack
DIUB1	3 × Ultra Resin Packs (18 l) for DIUH1, DIUK1	1
DIUBS	1 × Ultra Resin Pack (6 l) for DIUH1, DIUK1	1
DIUB3	Kit with 3 Ultra Resin Packs (18 l) for DIUH2, DIUH3	1

Every Ultra resin pack contains a pre-portioned amount of **UNGER** premium ion-exchange resin with a **new formula, perfected for glass cleaning**

The **FloWater technology 2.0** in every Ultra resin pack ensures an efficient flow of water through the whole tank which optimises the **resin saturation**

QuickChange RESIN BAGS FOR HYDRO POWER® DI FILTER

High comfort

The **QuickChange** Resin Bags allow users to speed up the resin change process - simply remove the bag with expired resin and insert a new one.

The **QuickChange** Resin Bags offer fast and easy resin replacement on the spot with minimal mess - anytime and anywhere!

QuickChange RESIN BAGS 6 L

Part No.	Info	Pack
DIB64	4 bags (24 l) in air tight bucket	1
DIB84	4 bags (24 l) in air tight bag	1

PREMIUM GRADE VIRGIN MIXED BED RESIN

High capacity virgin mixed bed ion exchange resin for total de-ionisation and purification of water. Immediately produces 100 % pure water for streak free glass cleaning.

Consisting of a mixture of a gel, type I strong basic anion exchanger, and a gel, strong acid-cation resin, for the direct demineralization of water. 40 % cation, 60 % anion, pH range 0-14.

Suitable for use in:

- Refillable DI cartridges
- DI pressure vessels
- Filters for Pure Water Window Cleaning

PREMIUM GRADE VIRGIN MIXED BED RESIN

Part No.	Product	Pack
DIP25	Bucket 25 l	1
DIB25	Bag 25 l	1

i RESIN CHANGE

The conductivity measurement is used to monitor water quality. If a conductivity measurement (integrated TDS-metre) indicates a value of > 10 ppm, the resin must be replaced.

*In comparison with standard DI systems (e.g. **UNGER HydroPower®** DI filters). Source: test results from the independent testing laboratory Miontec GmbH, 2019.

A PURE WATER FILTERS

HYDRO POWER® RO S

**HYDRO
POWER®** RO
SYSTEM **S**

POWERFUL QUALITY PUMP

- Centrifugal pump made of stainless steel for constant and high water flow
- Trouble-free operation even after a long time

QUICK MAINTENANCE.

- The pre-filter and DI filter are easy to replace and can be visually inspected during work
- Removable back cover for easy access to all electrical components

REVERSE OSMOSIS FILTER (RO)

HydroPower® RO S

Pure water for everyone!

With the entry-level model **HydroPower RO S**, cleaning can be carried out with pure water with minimum operating costs - especially in areas with hard water. Due to its compact and robust design, the new **HydroPower RO S** system is easy to transport.

The proven RO technology from **UNGER** is based on a 3-stage filtering process for 100 % pure water, whereby the required water pressure is generated with a high-quality stainless steel pump.

BOOST FUNCTION

- Pure water mode: pure water for streak-free cleaning of windows and facades
- Boost mode: tap water at 8-10 bar for pre-rinsing heavily soiled surfaces

SIMPLE AND SAFE OPERATION

- TDS measuring device shows the quality of the source water at the push of a button
- Manual flushing of the RO membrane for an extended service life
- Automatic shutdown function to protect the pump if the water supply fails

COMPACT AND ROBUST DESIGN

- High-quality materials ensure a long service life
- Durable stainless steel quick connectors prevent dripping
- Heavy-duty stainless steel frame with maintenance-free solid rubber wheels

HydroPower® RO S

Part No.	Pack
RO20C	1

HYDRO POWER® RO M

Quality Tools for Smart Cleaning

REVERSE OSMOSIS FILTER (RO)

HydroPower® RO M

The pure power of pure water

MODERN DESIGN AND HIGH PERFORMANCE

When it comes to developing new solutions for safe and efficient cleaning, **UNGER** always impresses with innovative product ideas. Discover the pure power of pure water with the **HydroPower® RO M**.

The compact and mobile filter system impresses with its outstanding performance features and ease of use – a real added value for professional window cleaners.

100% PURE WATER

The **HydroPower® RO M** demineralises water in a 3-stage process. The combination pre-filter removes fine particles and chlorine. The high-performance double membrane filters out up to 98 % of the minerals. In the third stage, the remaining minerals are bound by an ion exchange resin.

TDS METER

- shows the performance level of the membrane and resin filter

DOUBLE MEMBRANE

- very high water production, approx. 350 l/hour*

COMBINATION PRE-FILTER FINE PARTICLES/CHLORINE

DOWNSTREAM RESIN FILTER

2 METAL WATER OUTLETS

- for 2 users at the same time

HIGH PERFORMANCE PUMP

- constant and high water flow

HydroPower® RO M

Part No.	Pack
RO35C	1

*At 18 °C water temperature, 4 bar water pressure and connected outlet hose with 1/2" inner diameter without counterpressure at the water outlet.

3 REASONS FOR HYDRO POWER® RO M

- 1 HIGH PERFORMANCE
- 2 COMPACT, ROBUST DESIGN
- 3 SIMPLE OPERATION & MAINTENANCE

HIFLO RO GLASS FACADES

REVERSE OSMOSIS FILTER (RO)

HiFlo RO Glass facades

The high performance RO-filter for real professionals

- Perfect for cleaning **large glass facades** - more water for cleaning and rinsing on the surface
- Downstream resin filter – 100 % pure water production
- Suitable for two workers without loss of capacity, or for one worker with increased water output
- Ideal for tank filling
- Automatic pump control with dry run protection
- Incl. TDS meter for checking the water and resin quality

DOUBLE MEMBRANE

- extended water output, approx. 700 l/hour*

RESIN FILTER FOR POLISHING (4,5l)

- 100 % pure water production

COMBI PRE-FILTER SEDIMENT & CHLORINE

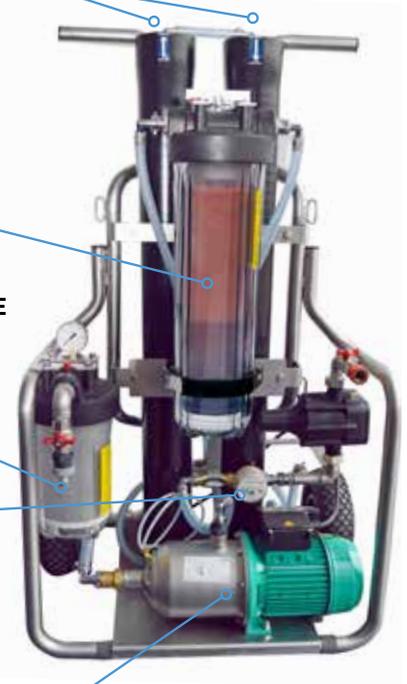

- to protect both membranes

PURE WATER FLOW METRE

- Displays the produced amount of pure water

EXTRA HIGH POWER PUMP

- supports the high water flow

CE certified

HiFlo RO GLASS FACADES

Part No.	Pack
RO60C	1

*At 18 °C water temperature, 4 bar water pressure and connected outlet hose with 1/2" inner diameter without counterpressure at the water outlet.

REVERSE OSMOSIS FILTER (RO)

HiFlo RO Solar

Reverse osmosis filter with high pure water production for large areas

- Perfect for cleaning of **solar panels** – more water on the panel, better rinsing and cleaning
- Ideal for two workers with no loss of water capacity or one worker with increased performance
- Ideal for tank filling
- Carbon filter lasts app. 200.000 l at 2 ppm chlorine
- Built in TDS meter monitors water quality
- Automatic pump control with dry run protection for added safety
- High quality, corrosion-resistant stainless steel frame

DOUBLE MEMBRANE

- extended water output, approx. 750l/hour

LARGE CARBON PRE-FILTER

- to save membranes from chlorine

LARGE SEDIMENT PRE-FILTER

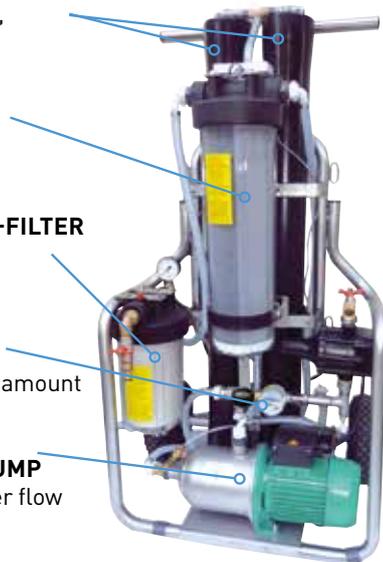

- to protect both membranes

PURE WATER FLOW METRE

- Displays the produced amount of pure water

EXTRA HIGH POWER PUMP

- supports the high water flow

HiFlo RO SOLAR

Part No.	Pack
RO60S	1

*At 18 °C water temperature, 4 bar water pressure and connected outlet hose with 1/2" inner diameter without counterpressure at the water outlet.

HYDRO POWER® RO XXL

THE HYDRO POWER® RO XXL SYSTEM

- Fully integrated trailer system with reverse osmosis filter and 650 l water tank
- Total flexibility for producing and transporting 100 % pure water for water fed pole cleaning!
- The ONLY real alternative to commercial van mounted systems

MOBILITY:

Suitable for vehicles with towing capacity of at least 500 kg. High capacity baffled tank integrated into lightweight chassis for easy towing. DOT road specification, single axle, integrated lights and indicators with brake assist. Supplied with European standard coupling, jockey wheel and manual parking brake. Conforms to EU regulations.

SAFETY:

The multi-chamber tank design with low centre of gravity is designed to maximise stability during transportation. Also includes Auto Shut Off features, activated during water production mode when the tank becomes full and during use when the TDS of the outgoing water measures 5 ppm (can be changed to lower or higher number).

FLEXIBILITY:

The flow rates for Wash and Rinse modes can be adjusted anytime at the digital control panel. This allows the operator(s) to choose more or less powerful flow rates to suit the cleaning job, saving and conserving water when less intense water flow is needed. You can also switch between Wash and Rinse modes at the touch of a button using the wireless remote control.

PROTECTION:

Optional protection cover for the hose reels. Robust truck tarpaulin that can be fixed on the new fixing point at the trailer frame.

- Maximum tank capacity: 650 l pure water
- 1 or 2 man operation via 2 stainless steel hose reels and 2 x 12 V (10 bar, 150 psi) pumps
- 2 high quality 100 m hoses for optimal reach
- Pure water output – up to 125 l per hour per person
- Digital controller monitors water flow, pressure and battery power
- Control water flow manually or by wireless remote control (max. reach 100 m in open area)
- High capacity 12 Volt AGM battery offers 'all day' operation before requiring recharge
- Maintenance free 210 amp hour AGM battery with mains charger supplied
- 3 stage water purification production with dedicated 12 V (10 bar, 150 psi) pump. (Carbon Pre-filter, RO Membrane and **HydroPower® DI Filter Polisher**)

AUTOMATIC FLUSH FUNCTION

- Extended lifespan of the membrane: An automatic 5 minute rinse at the start of the water filtration process flushes out impurities and helps to keep the membrane clean which significantly extends its service life.
- Reduced DI resin consumption: Optimised membrane performance results in higher purity of the water passing through the DI filter and therefore extends resin lifetime.
- Simplified membrane care: The conservation liquid is rinsed out from the membrane automatically, saving time and effort it would take you to do this manually.

*At 18 °C water temperature, 4 bar water pressure and connected outlet hose with 1/2" inner diameter without counterpressure at the water outlet.

i The amount of produced pure water per hour depends on several factors:

1. Water Temperature - the warmer the water, as more pure water can be produced.
2. Hose diameter - the bigger the hose diameter, the higher the waterflow is.
3. Hose length - the longer the hose, the less the waterflow is.

ACCESSORIES

TDS-METER

Handheld Total Dissolved Solids (TDS) meter for measuring water hardness.
 - Measures water hardness instantly in ppm (parts per million).
 - Battery powered
 - Includes protective leather pouch

B WATER FED POLE SYSTEM

**A milestone for pure water cleaning:
The nLITE® waterfed pole system**

TOP PERFORMANCE THROUGH PROGRESS

Innovation, high quality, and customer-oriented development have always been **UNGER**'s guiding principles. This applies once again to the current generation of the **nLITE®** telescopic pole system:

- German engineering in a timelessly stylish design
- Intelligent solution for faster, more flexible system setup
- Pioneering technologies for more effective cleaning results
- High Quality – Made in Germany

MORE STABLE, HIGHER, MORE PRECISE, WOW!

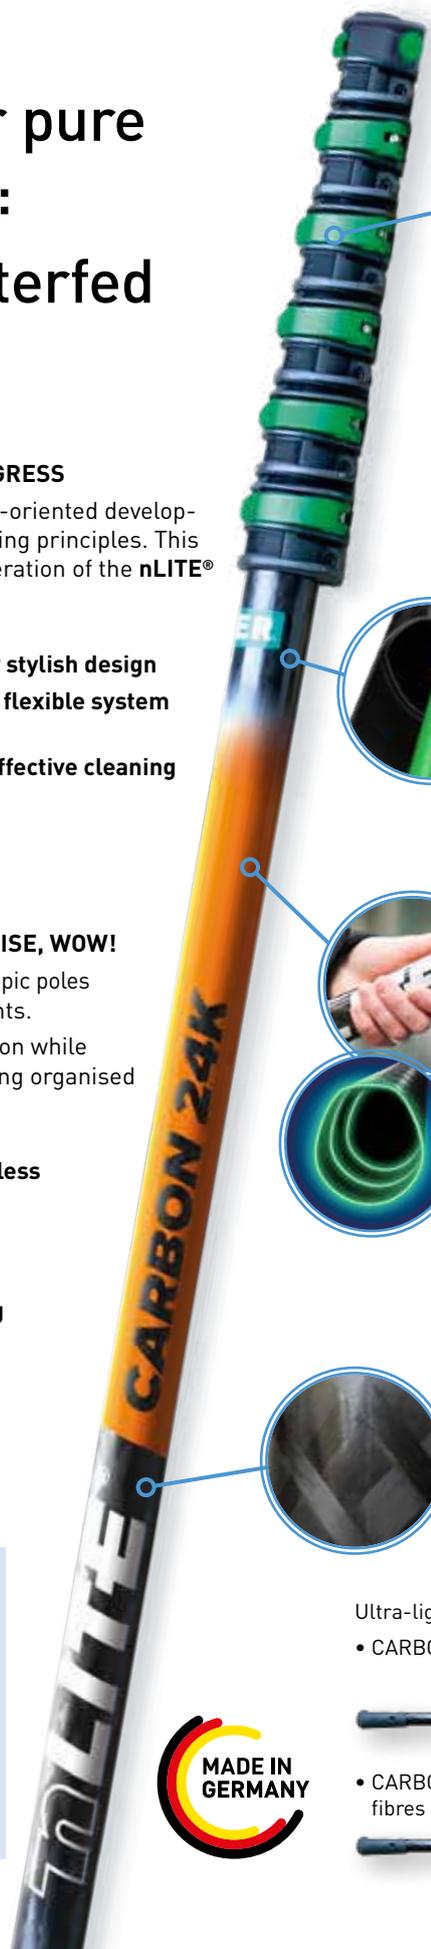

UNGER has developed its **nLITE®** telescopic poles to take your performance to new heights. Maximising refined details and precision while minimising time and effort spent getting organised for your work.

- No twisting: trouble-free work and less wear and tear
- Optimal stability-to-weight ratio
- Greater pole rigidity
- More precise control of the cleaning movement

Discover the best and most advanced telescopic waterfed pole system today:

LIGHTER, MORE PRECISE, FASTER

SMARTLOCK CLAMPS

- Easy and quick to close with just one finger
- Robust 2C material
- Clamp mechanism that protects the carbon material and ensures a long service life for the pole
- Extension stop prevents pulling out pole elements too far

INTEGRATED HOSE MANAGEMENT

- Internal routing of the highly flexible Duro-Flex hose in the telescopic pole for trouble-free work on windows and facades
- Complete flexibility: external routing possible thanks to optional **nLITE®** clips

PRECISIONGRIP POLE FORM

- Innovative, unique pole shape, with contact surfaces optimally adapted to the shape of your hand.
- For ergonomic working and making best use of your strength
- More precise control of the cleaning movement and high force transmission
- Uninterrupted work due to non-twisting pole

HIGH-END CARBON MATERIALS

Ultra-lightweight. Extremely durable.

- **CARBON COMPOSITE:** High quality mix of carbon and glass fibres

- **CARBON 24K:** Premium carbon fibres in a unique weave of 24,000 fibres per bundle

B WATER FED POLE SYSTEM

Extendable carbon 24K poles:

The pole lengths offered by the nLITE® system have been created and optimised for your everyday work.

You can easily think of how many floors' you can clean. The telescopic main pole now measures 8,60 m, so it extends to the 2nd floor. Each extension pole offers exactly the additional length to take you up another storey (3,05 m).

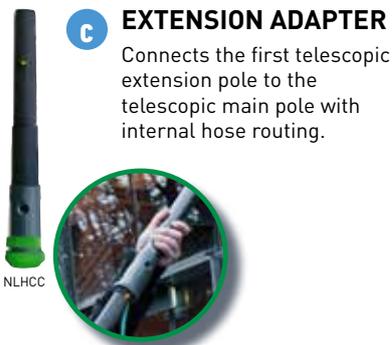

For use in less high buildings or with a boom lift, we have the right solution for you with telescopic poles ranging from 1,60 m to 6,00 m in length.

UNGER guarantees the best possible premium quality in each of the material classes used and thus the perfect solution for every working height.

a POWER BRUSH AND ANGLE ADAPTER
Innovative modular system that makes a difference because it offers almost limitless application options.

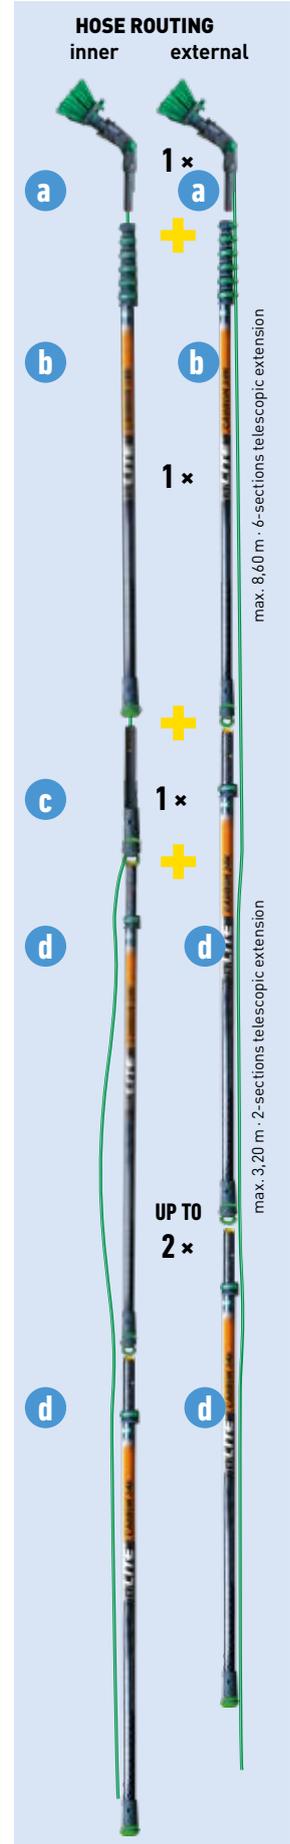

b TELESCOPIC MAIN POLE
6-sections main telescopic pole. Carbon 24K can be extended with up to 2 extension poles.

c EXTENSION ADAPTER
Connects the first telescopic extension pole to the telescopic main pole with internal hose routing.

d TELESCOPIC EXTENSION POLE
2-sections telescopic extension pole. With Carbon 24K, up to 2 extension poles can be used.

B WATER FED POLE SYSTEM

CARBON 24k

nLITE® CARBON 24K TELESCOPIC POLE

Telescopic pole for medium heights.

- Recommended for working heights of up to **16 m** (approx. 4 floors)
- CF60T: Telescopic pole, **not extendable**
- CF86G: Telescopic main pole 2x extendable with telescopic extension pole CF33G
- Resilience: **210 GPa***

Part No.	Info	Extended	Collapsed	Sections	Weight	Extendable	Pack
CF60T	Telescopic pole	6,00 m	1,70 m	4	1,16 kg	--	1
CF86G	Telescopic main pole	8,60 m	1,70 m	6	1,84 kg	2x CF33G	1
CF33G	Telescopic extension pole	3,20 m	1,80 m	2	0,82 kg	1x CF33G	1

nLITE® CARBON 24K COMPLETE POLE

Content:

- CF86G Telescopic main pole, 6 sections, 8,60 m
- CF33G Telescopic extension pole, 2 sections, 3,20 m
- NLHCC Extension adapter
- NGS30 Angle adapter kit M, 42 cm
- NFK28 Power brush complete, 28 cm
- DLS25 DuroFlex hose 25m Ø 5/8mm

Part No.	Length	Pack
CF12H	11,90 m	1

CARBON COMPOSITE

nLITE® CARBON COMPOSITE TELESCOPIC POLE

Telescopic pole for small to medium heights.

- Recommended for working heights of up to **10 m** (approx. 2 floors)
- Telescopic poles, **not extendable**
- Resilience: **100 GPa***

Part No.	Info	Extended	Collapsed	Sections	Weight	Extendable	Pack
CC16T	Telescopic pole	1,60 m	0,90 m	2	0,46 kg	--	1
CC32T	Telescopic pole	3,20 m	1,70 m	2	0,70 kg	--	1
CC60T	Telescopic pole	6,00 m	1,70 m	4	1,41 kg	--	1
CC85T	Telescopic pole	8,60 m	1,70 m	6	2,20 kg	--	1

nLITE® CARBON COMPOSITE COMPLETE POLE

Content:

- CC85T Telescopic pole, 6 sections, 8,60 m (**not extendable**)
- NGS15 Angle adapter kit S, 15 cm
- NFF28 Power brush simple, 28 cm
- DLS25 DuroFlex hose 25m Ø 5/8mm

Part No.	Length	Pack
CC85H	8,60 m	1

*GPa (Gigapascal) is a unit of measure of material strength.

PURE WATER SYSTEM

Quality Tools for Smart Cleaning

B WATER FED POLE SYSTEM

FULL FLEXIBILITY

Modular construction allows you to add on or remove Extension Poles to create telescopic poles in different lengths for cleaning at various heights.

35 MM DIAMETER

Diameter of the nLite® Connect pole you are holding will never exceed 35 mm, irrespective of the number of Extension Poles.

YELLOW VISUAL WARNING AREA

The top of the Extension Pole helps to avoid unintentional separation.

DURABLE PLASTIC ENDCAP

Prevents accidental damage to the end of the pole and features a side aperture for the hose exit when used inside the pole.

Ultra HiMod CARBON

nLite® Connect ULTRA HIMOD CARBON TELESCOPIC POLE

Telescopic Master Pole. The ultimate in rigidity, superlight pole.
Incl. Thread Adapter and Endcap. Ultimate material strength: 760 GPa*

Part No.	Info	Extended	Collapsed	Sections	Weight	Pack
UH67G	Telescopic main pole	6,63 m	1,87 m	4	1,5 kg	1
UH35G	Telescopic extension pole	3,41m	1,91 m	2	0,7 kg	1

HiMod CARBON

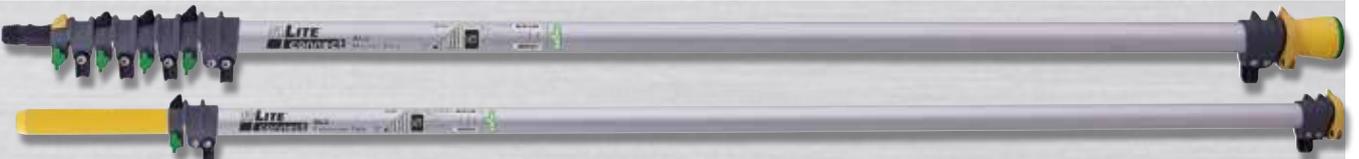

nLite® Connect HIMOD CARBON TELESCOPIC POLE

Telescopic Master Pole. The best in rigidity, superlight pole.
Incl. Thread Adapter and Endcap. Ultimate material strength: 360 GPa*

Part No.	Info	Extended	Collapsed	Sections	Weight	Pack
UC67G	Telescopic main pole	6,63 m	1,87 m	4	1,5 kg	1
UC35G	Telescopic extension pole	3,41m	1,91 m	2	0,7 kg	1

Aluminum

nLite® Connect ALUMINIUM TELESCOPIC POLE

Telescopic Master Pole. Excellent rigidity thanks to modern construction technology.
Incl. Thread Adapter and Endcap. Ultimate material strength: 30 GPa*

Part No.	Info	Extended	Collapsed	Sections	Weight	Pack
AN60G	Telescopic main pole	6,00 m	1,71 m	4	2,0 kg	1
AN45G	Telescopic main pole	4,50 m	1,34 m	4	1,6 kg	1
AN30G	Telescopic extension pole	3,00 m	1,69 m	2	1,1 kg	1

*GPa (Gigapascal) is a unit of measure of material strength.

ANGLE ADAPTER

nLITE®

Modular angle adapter system: Clean hard-to-reach places

Another clever feature of the nLITE® pole system is the modular angle system, in which you can combine four individual elements in any number of variants in order to easily reach places that are difficult to access. Whether conservatories or overhanging façade elements, this system gives you the perfect angle for every application.

FAST LOCK

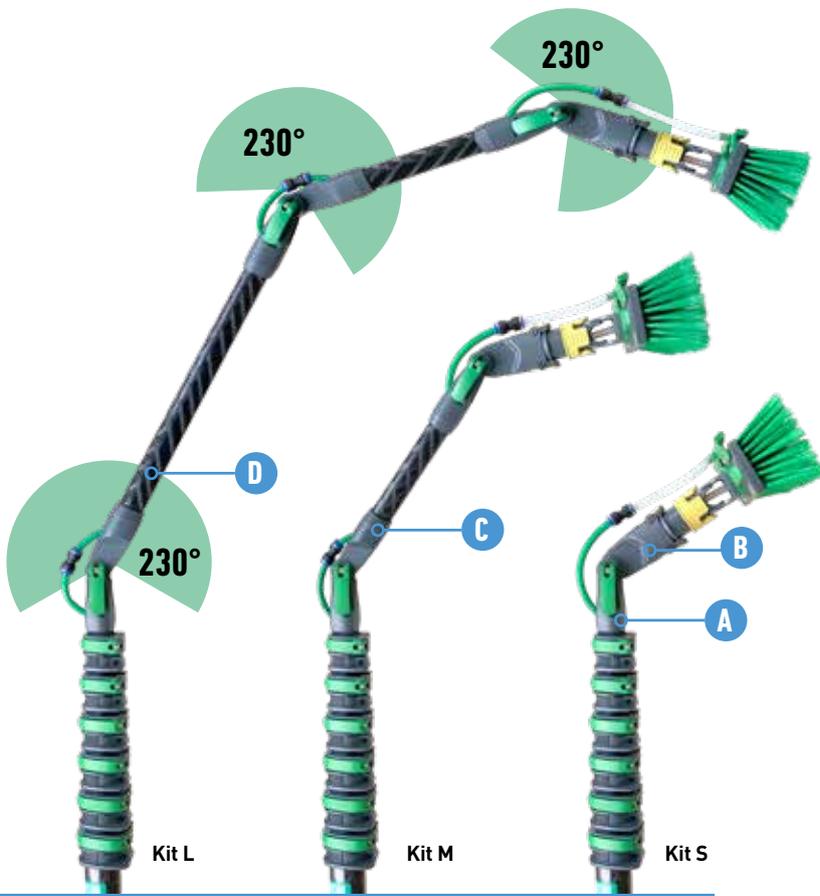

With a single click: simple, fast, and stable connection for every work situation:

- Change brushes in seconds
- Adjust brush angle in 45° stages
- No twisting when cleaning!

WATER FED POLE SYSTEM ANGLE ADAPTER KITS

Quality Tools for Smart Cleaning

Simply adapt the modular angle adapter individually to your application

- A** Pole adapter
- B** Brush adapter
- C** Angle element short
- D** Angle element long

nLITE®

nLITE® ANGLE ADAPTER KITS

For nLITE® CarbonComposite and Carbon 24K telescopic poles.

Part No.	Info	Length	Pack
NGS15	Angle adapter kit S	15 cm	1
NGS30	Angle adapter kit M	42 cm	1
NGS45	Angle adapter kit L	82 cm	1

Not compatible with nLite® Connect poles.

NEW

ANGLE ADAPTER KITS FOR THE ROUND nLite® CONNECT POLES

Clean with the nLite® Connect HiMod, Ultra HiMod and Aluminium poles, always at the right angle.

This means you also benefit from the versatile nLITE® brushes (Power, Angle, Soft and Hybrid)

nLITE® connect

nLite Connect® ANGLE ADAPTER

For nLite® Connect poles (HiMod, Ultra HiMod, Alu).

Part No.	Info	Length	Pack
NGC15	Angle adapter kit S	15 cm	1
NGC30	Angle adapter kit M	42 cm	1
NGC45	Angle adapter kit L	82 cm	1

Not compatible with nLITE® Carbon 24K and Carbon Composite poles.

nLITE® POWER PAD

NEW

The new nLITE® PowerPad – for sensationally fast, effective and easy cleaning with pure water.

A new era is dawning for pure water cleaning. Once again, market leaders **UNGER** have come up with a groundbreaking innovation – the new **nLITE® PowerPad**, the ultimate alternative to brushes when **cleaning large ground floor glass surfaces**.

This outstanding cleaning tool is intuitive to use thanks to its intelligent and revolutionary design. It makes cleaning with pure water noticeably faster, easier and more effective.

The perfect tool for all experienced pure water professionals as well as those who are discovering **UNGER's** pure water technology for the first time!

PERFECT RESULTS IN AN INSTANT!

The **nLITE® PowerPad** is easy and intuitive to use. The sequence of movements is almost identical to that of classic window cleaning, meaning users achieve perfect cleaning results instantly without training time!

More advantages: The new **PowerPad** is fully compatible with all **nLITE®** and **OptiLoc** telescopic poles from **UNGER**, offering great on-site flexibility!

FULLY COMPATIBLE WITH nLITE® WATER FED TELESCOPIC POLES

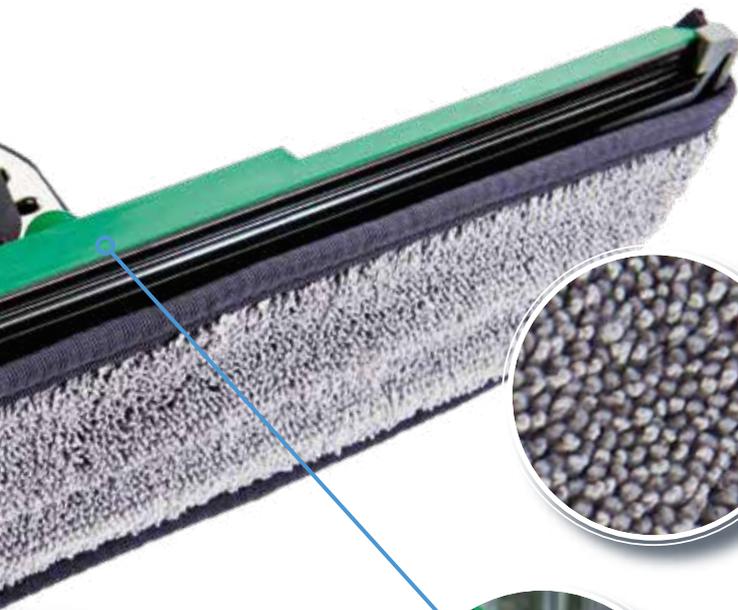

FULLY COMPATIBLE WITH ALL OptiLoc TELESCOPIC POLES

INNOVATIVE 360° SWIVEL

- **360° movement** up and down as well as left and right
- **Permanent contact** with the glass surface – even when working laterally
- **Easy and intuitive** manual tool – with S-shaped movements as with classic glass cleaning
- Can be locked in **7 working positions** for every type of use

360°

THE INNOVATIVE MICROFIBRE CLEANING PAD

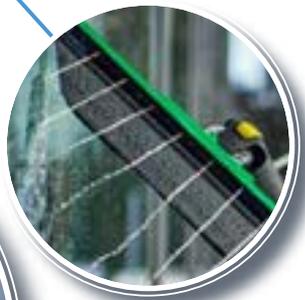

- **Faster dirt removal**, as the microfiber cleaning pad has a larger contact area with the surface of the glass than a conventional brush with bristles
- **Self-cleaning effect** thanks to permanent pure water rinsing via the integrated Rinse Bar
- **Highly effective microfiber technology** for streak-free cleaning
- **Glides easily** over glass surfaces

RINSE BAR

Special rinse bar for powerful, uniform rinsing of the pad and glass over the entire width.

USE AS A HAND TOOL

nLITE® POWER PAD

The ultimate alternative to brushes when cleaning large ground floor glass surfaces.

Part No.	Product	Size	Pack

DINKO	1

nLITE® BRUSHES

The nLITE® Power Brushes for the daily challenges in cleaning with pure water

POWER BRISTLE TECHNOLOGY

- a** Inner bristles with extremely high cleaning performance, comparable to natural hair bristles
- b** Longer outer bristles for easy gliding: no more annoying jumping of the brush

The nLITE® Hybrid Brush made of boar bristles for extremely powerful cleaning performance

The brush is highly recommended for maintenance cleaning and for the cleaning of PV/solar modules. Easier glide and less weight than full natural hair brushes

BOAR BRISTLES

- Outside boar bristles - high cleaning power of the folded bristles, no streaks
- Inside bristles with Power Bristle Technology - very high scrubbing power, easy glide, low water absorption

SOFT TOUCH BUMPER

RINSE BAR

SWIVEL LOCK

SWIVEL LOCK

You've never cleaned faster and more precisely down to the last corner: the swivel function is a completely new way of cleaning with pure water up to the first floor (6 m). Open the SwivelLock and experience the advantages:

- The brush socket, which can be swivelled freely through 180°, enables the surface to be cleaned with an S movement with the brush touching down over the entire surface
- Enlarges the work area, ideal for cleaning from boom lifts or gondolas

RINSE BAR

This special flushing nozzle bar is attached above the brush and delivers the right amount of pure water exactly where it is needed for powerful rinsing of the cleaned surface - more effective than ever before!

nLITE® ANGLE BRUSH

The nLITE® Angle Brushes for large surfaces, frames and corners

SPECIAL BRISTLE CUT

Allows even easier cleaning of corners with 90° angles. The short, stiff bristles inside the brush provide great scrubbing power.

HIGH BRISTLE DENSITY

Guarantees excellent cleaning with little bending as well as long durability.

The brush can also be used with hot water.

ALL-ROUND SHOCK AND EDGE PROTECTION

The all-round shock and edge protection protects the window frame from scratches and damage and reduces noise when in contact with parts of the building. Firmly attached, cannot come loose.

THREE WAYS OF WATER SUPPLY

High flexibility due to three ways of water supply and therefore extremely easy removal of dirt.

- 1 Powerful cleaning by means of a water jet from the centrally integrated nozzle block.
- 2 3 The RinseBar can be used in two different positions: This means that window sills and roller shutter boxes can also be cleaned optimally.

B WATER FED POLE SYSTEM

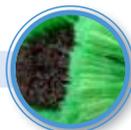

nLITE® BRUSHES

nLITE® POWER BRUSH, FLAGGED

Strong cleaning performance and perfect gliding performance. Recommended for maintenance cleaning

Part No.	Size	Version	Pack
NFK28	28 cm	with rinse bar + swivel loc	1
NFK41	41 cm	with rinse bar + swivel loc	1
NFF28	28 cm	simple	1
NFF41	41 cm	simple	1

nLITE® POWER BRUSH, UNFLAGGED

Very good cleaning performance. Optimal flushing of the bristles with almost no residue. Recommended for maintenance and solar cleaning.

Part No.	Size	Version	Pack
NUK28	28 cm	with rinse bar + swivel loc	1
NUK41	41 cm	with rinse bar + swivel loc	1

nLITE® ANGLE BRUSH, FLAGGED

Strong cleaning performance, large cleaning area. Recommended for maintenance cleaning

- Angled back for larger surfaces, frames and corners
- High bristle density, excellent cleaning with little bending of the bristles
- Special bristle cut - easy cleaning of corners with 90° angle
- All-round bumper and edge protection, firmly attached

Part No.	Size	Pack
NFR28	28 cm	1
NFR41	41 cm	1

nLITE® ANGLE BRUSH, UNFLAGGED

Very good cleaning performance, large cleaning area. Recommended for maintenance and solar cleaning.

- Angled back for larger surfaces, frames and corners
- High bristle density, excellent cleaning with little bending of the bristles
- Special bristle cut - easy cleaning of corners with 90° angle
- Including hoses with quick connectors

Part No.	Size	Pack
NUR28	28 cm	1
NUR41	41 cm	1

nLITE® HYBRID BRUSH

Extremely powerful cleaning performance. Easier glide and less weight than full natural hair brushes. Recommended for maintenance cleaning and solar cleaning.

- Outside boar bristles - high cleaning power of the folded bristles, no streaks
- Inside bristles with Power Bristle Technology - very high scrubbing power - easy glide - low water absorption

Part No.	Size	Bristles	Pack
NUH28	28 cm	Natural bristles+Power	1
NUH41	41 cm	Natural bristles+Power	1

nLITE® SOFT BRUSH

Gentle surface cleaning. Reduces risk of damage to sensitive surfaces.

- Thin bristles with high flexibility
- Short bristles in high density for stable fibre layout

Part No.	Size	Bristles	Pack
NFS28	28 cm	synthetic, 2,5cm	1
NFS41	41 cm	synthetic, 2,5cm	1

All nLITE® brushes are supplied including hoses with quick connector

ATTENTION: Some surfaces are easily scratched. Always test brushes prior to use.

NEW

Quality Tools for Smart Cleaning

Perfection and cleanliness down to the last detail

In combination with the nLITE® telescopic pole system, this tool is an important addition to the equipment of every glass and building cleaner. Bird droppings, stubborn insect residues and other heavy deposits can often prove difficult to remove. The nLITE® holder has been developed for use with the scrubbing pad to remove even stubborn dirt easily and effectively with pure water. The recommended working height is approx. 6 metres, i.e. up to the 1st floor.

nLITE® HOLDER FOR SCRUBBING PADS

For the rapid removal of stubborn dirt from glass surfaces.

CAUTION. Only fits nLITE Carbon 24K and Carbon Composite poles.

- For cleaning glass surfaces with nLITE poles
- Highly versatile thanks to adjustable angle and differently shaped contact surfaces

Item no.	Dimensions	Product	Pack
NLSPH		Holder with scrubbing pad	1
OPS20	25 x 10 cm	Scrubbing pad	10

ATTENTION: Some surfaces are easily scratched. Always test scrubbing pad prior to use.

i nLITE® HOSE ROUTING:

Inner hose routing

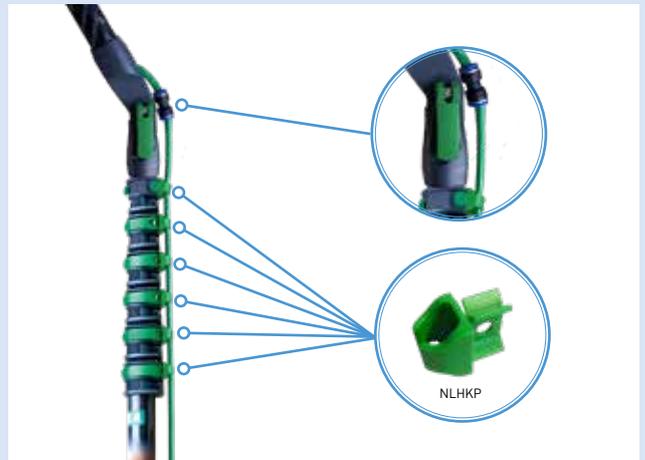

When extending the main pole

1. Insert extension adapter (NLHCC) at the end of the telescopic pole (CF86G only), hose is led out to the side.
2. Insert the extension pole (CF33G) into the NLHCC adapter. Protective cap is open for pole connection.

Insert the hose at the bottom of the pole, lead it out at the top, through the angle adapter and connect it there with the quick connector.

External hose routing

Fit hose clips NLHKP into the clips of the nLITE telescopic pole. Guide the hose through the clips on the outside of the pole and connect it to the angle adapter using the quick connector on the angle adapter.

Example Content is not included.

nLITE® TRANSPORTATION BAG

Solid nylon carrying bag* for nLITE® Carbon 24K and Carbon Composite water-fed poles and brushes.

- Comfortable and easy to transport with a handle or adjustable shoulder strap
- Offers space for up to 5 poles, 2 brushes, 1 hose, 1 angle adapter, 1 extension adapter + two easy-to-reach outer pockets for accessories

TRADITIONAL WINDOW CLEANING GREEN LABEL

NEW!

Follow our lead
and make your mark:
For a more sustainable
future.

Protecting our planet, using its resources responsibly and preserving it for the next generation: Acting sustainably is an essential task for mankind and the cornerstone of the **UNGER** philosophy.

- Only the best is good enough: We don't compromise on performance and quality when developing eco-friendly products.
- We are committed to choosing the right raw material suppliers and relevant certifications.
- We incorporate customer requests into our sustainability concept via numerous customer surveys conducted beforehand.

This has resulted in the first fully certified, sustainable range of glass cleaning tools.

This highlights our commitment and that of our customers and shows that we are a pioneer in the industry when it comes to sustainability.

- The **GREEN LABEL** range by **UNGER** encourages more environmentally friendly cleaning services.
- With **GREEN LABEL**, we help you and your customers achieve your sustainability goals.
- **GREEN LABEL** is characterised by the outstanding quality typical of **UNGER** – a long useful life is a key aspect of sustainability.
- Recognisable at first glance: the striking, green-blue design shows that you are taking on responsibility – for yourself and others.

UNCOMPROMISINGLY GREEN!

HEALTH
CERTIFICATE™
SILVER

C2C Certified Material Health Certificate™ Silver

In order to obtain the Material Health Certificate, all chemicals used in the value chain must be analysed and evaluated with regard to health and environmental hazards. Dangerous chemicals are avoided and replaced with safer substances – for sustainable production.

FSC™

FSC-certified natural rubber is used in our squeegee rubbers – for more sustainable forest management. FSC-certified forests and plantations are managed according to stricter environmental and social principles. FSC-certified materials can be traced throughout the supply chain at all times.

EU Ecolabel

The European Commission awards the EU Ecolabel to products that have a lower environmental impact than comparable products and are therefore healthier and more environmentally friendly. The criteria differ depending on the product group. In the case of textile and cleaning products, evaluation is based on the proportion of recycled materials, the limitation of toxic chemicals, the biodegradability as well as the cleaning performance and durability.

Professional tools for classic glass cleaning

All **UNGER** products are expertly designed to meet the high demands of the Professional Window Cleaning Industry.

Innovation and ergonomics are always at the forefront of our research and product development to enable professionals to work faster, more efficiently and above all safely.

Today our range includes wide selection of traditional handheld tools and accessories, built to last and withstand continuous use, day after day.

Most of our tools can be fitted to **UNGER** telescopic pole, allowing you to clean at heights of up to 10 m safely from the ground.

Look out for the **ErgoTec®** Locking Cone symbol, identifying products that can be locked securely on the pole with a quick-release button preventing falling off or spinning.

TRADITIONAL WINDOW CLEANING

Quality Tools for Smart Cleaning

NEW VISA VERSA PRO

Perfectly clean windows in an instant

The **VisaVersa® Pro** combines a washer and window squeegee in a single cleaning tool. The tool's significant improvements guarantee professional cleaning with top results.

Save time: Simply flip it over, so no need to waste time changing cleaning tools on your telescopic pole. Additional benefits:

The VisaVersa® Pro pad stores plenty of water, which means fewer trips to your bucket, and the removable window squeegee allows for quick, streak-free drying.

Work ergonomically: The **VisaVersa® Pro** weighs significantly less than other tools, meaning that it is easy on your joints and you can work without tiring. The non-slip handle ensures greater safety both in your hand and when attached to a telescopic pole

Wash... turn over... squeegee... **DONE!**

QUICK & SAFE:
Ideal for use with telescopic poles

2in1 WINDOW SQUEEGEE

VisaVersa® PRO PAD

- Premium microfibre for ultimate cleaning power
- High water absorption for large coverage
- Super lightweight
- Easy and quick to change
- Machine washable & suitable for tumble drying

CURVED T-BAR

- Effective: ensures greatest contact with glass surface
- Hook & Loops holder for VisaVersa® Pro Pad

ErgoTec® XL HANDLE

- Ergonomic: handle designed for fatigue-free working
- Safe: keep a firm grip with wet hands thanks to 2K surface
- Won't twist and fall off telescopic poles thanks to ErgoTec® safety cone

S-CHANNEL WITH PRO SQUEEGEE SOFT RUBBER

- Superior quality: robust stainless steel
- Practical: variable position, easy-to-change rubber
- Effective: thorough drying thanks to sharp edges
- Fast: glides easily and quickly

QUICK RELEASE THANKS TO COMFORTABLE S-SPRING

- Quick: easy-to-change rubber and channel

LOCKING CLIP

- Open: for squeegee removal
- Closed: choose between two squeegee positions

Order information on p. 36

THE VisaVersa® Pro OPENS UP BRAND NEW OPTIONS

The **VisaVersa® Pro** washer and squeegee can be detached from each other and used separately.

Experienced users can use the **VisaVersa® Pro** to wash windows and squeegee them in one simultaneous movement.

ENH15	15 cm	5

Switch the angle of the scraper head from 0 to 30° at the touch of a button!

Practical Holster & Scraper Combo

UNGER PREMIUM GLASS SCRAPER BLADES STAINLESS STEEL

- Durable dual-sided replacement scraper blades are made from rust resistant 440A grade stainless steel which provides excellent edge retention and break resistance, ensuring that blades stay sharp for a long time.
- Each blade undergoes a precise angle honing process, creating a razor sharp and consistent cutting angle, enhancing the speed and effectiveness of every scraper pass.
- Perfect for removing paint, decals, tape, heavy soil and debris from glass surfaces, as well as construction clean up.
- Compatible with most flat or angled 10 cm (4") or 15 cm (6") scrapers.

ErgoTec® NINJA HOLSTER

Made of durable solid plastic, the Holster is built to withstand frequent contact with sharp blades thanks to its integrated stainless steel strike plate.

- Fits to most standard tool belts
- Fits the scraper with or without protective cap

Part No.	Compatible	Pack
HT150	Fits 10 cm and 15 cm scraper	5

PREMIUM GLASS SCRAPER BLADES STAINLESS STEEL

Part No.	Blade	Info	Pack
ENB10	10 cm	1 case = 25 blades	10 cases
ENB15	15 cm	1 case = 25 blades	10 cases

Also fits ErgoTec®, ProTrim and Trim scrapers

4 CM, SINGLE SHARP EDGE BLADE

ErgoTec® SAFETY SCRAPER

Ergonomic scraper with safety mechanism.

Spare blades: SRB10, SRB20, SRBDB.

- Single sharp edge blade
- Made of metal with rubber grip, sturdy and durable
- Retractable blade for safety

Part No.	Size	Info	Pack
SR03K	4 cm	20 in a box	20
SR04K	4 cm	50 in a display box	50

SAFETY SCRAPER

**

Convenient scraper with safety mechanism.

Spare blades: SRB10, SRB20, SRBDB.

- Single sharp edge blade
- Made of metal, sturdy and durable
- Retractable blade for safety

Part No.	Size	Info	Pack
SR20K	4 cm	20 in a box	20
SR50K	4 cm	50 in a display box	50

MINI SCRAPER CARBON BLADE

*

Handy plastic scraper with special locking mechanism.

- Extremely handy - fits anywhere!
- Single edge blade for safety

STMIN	4 cm	In a plastic bucket	100

MINI SCRAPER PLASTIC BLADE

*

Gentle dirt removal on sensitive surfaces.

Part No.	Size	Info	Pack
22233	4 cm	In a plastic bucket	100

CARBON STEEL BLADES FOR GLASS SCRAPERS 4 cm

For SR03K, SR04K, SR20K, SR50K, STMIN, 22233.

- Single edge razor blade with aluminium holder
- Easy to replace
- SRBDB includes dispenser with tray for old blades

Part No.	Size	Info	Pack
SRB10	4 cm	100 loose blades	1 box
SRB20	4 cm	250 blades (50x5)	1 box
SRBDB	4 cm	480 blades (48x10 in dispenser)	48 disp.

10/15 CM, REVERSIBLE SHARP BLADE

ErgoTec® GLASS SCRAPER

Large surface blade with ergonomic bi-component handle.

Spare blades: TR100 (10 cm), TR150 (15 cm).

- Reversible sharp blade
- Simple slide blade change, with protective cap for safety
- Fits securely to pole with Locking Cone

Part No.	Size	Info	Pack
EG100	10 cm	Packed in a display box	10
EG150	15 cm	Packed in a display box	10

PROTRIM 10

The convenient lightweight scraper for every day.

Spare blades: TR100, KL100.

- Convenient and compact
- Retractable blade for safety
- Blade replacement and cleaning at push of a button

Part No.	Size	Info	Pack
TX100	10 cm	Packed in display box	10

TRIM 10+1

**

stainless steel glass scraper. In practical plastic box, with 10 blades.

Spare blades: TR100, KL100.

- Strong stainless steel
- Fits in UNGER squeegee handles
- Folding mechanism for safety

Part No.	Size	Info	Pack

STAINLESS STEEL BLADES FOR SURFACES

Reversible sharp/blunt edge stainless steel blade. For SH000, SH250

- Sharp edge for scraping off paint, stickers, etc.
- Blunt side for removing cement and stucco
- Compact dispenser stores new and used blades
- Blades easily slide in and out of dispenser

Part No.	Size	Info	Pack
RB100	10 cm	1 dispenser = 10 blades	10 disp

i → EXPERT TIPS

- Check if glass is scratch-resistant and suitable for scraper use. Unsuitable for use on Plexiglas, crown glass, solar glass, safety glass (ESG). Follow the manufacturer's care instructions
- Perform a scrape test in advance on an inconspicuous section
- Before starting work, check the glass for damage and report it, if necessary
- Check the blade for damage and change it, if necessary, or reverse it
- The surface to be scraped should always be wet
- It is best to use a release agent, e.g. "UNGER's Liquid"
- Always scrape in one direction! Never pull the scraper back – scratch risk!
- After scraping, check if adhesive or stucco residues are stuck to blade. If necessary, change or reverse blade

ATTENTION! UNGER blades are razor-sharp.
Always handle with greatest care.

TRADITIONAL WINDOW CLEANING

TELESCOPIC POLE SYSTEM

TELESCOPIC POLE SYSTEM

Safety at the highest level.

UNGER telescopic poles have always been the ideal tool for the job when it comes to making professional glass cleaning from the ground easier – and in addition save time and money.

OptiLoc

For even more ease of use and handling, **UNGER** has now further optimised its **OptiLoc** telescopic poles. Thanks to the new 2-component twist lock, this new generation of **OptiLoc** telescopic poles offers many advantages.

- 2 or 3 section telescopic pole
- Available in 9 different lengths
- Reach in excess of 9 m (30 ft)
(max. pole length 9 m (30 ft) + body height)
- Weight and rigidity perfectly balanced
- **ErgoTec®** Locking Cone included

TelePlus System

- Extendable modular telescopic pole
- 2 section basic poles
- Extensions 1,25 m (4 ft) or 2,00 m (6,5 ft) – simply attach
- Reach in excess of 10 m (32 ft)
(max. pole length 10 m (32 ft) + body height)
- **ErgoTec®** Locking Cone included

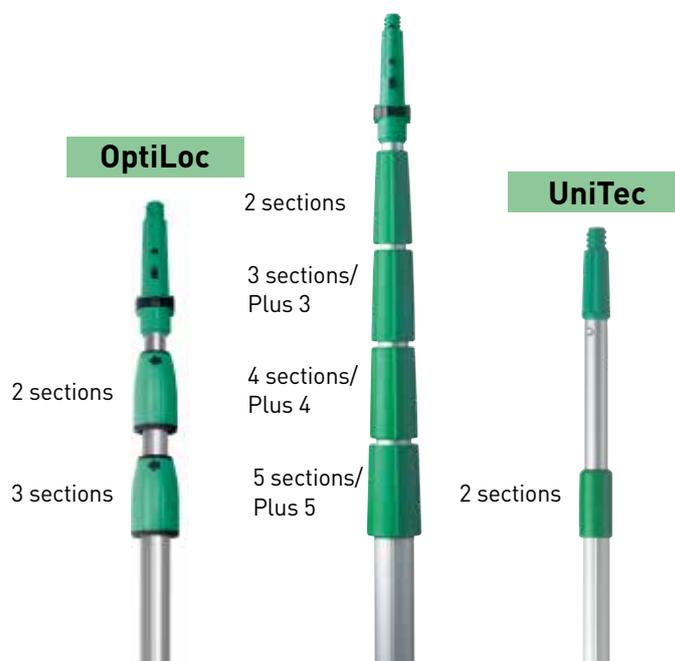

UniTec

- 2 section telescopic pole
- Available in 3 different lengths
- Interior lock, twist right or left for locking
- Reach in excess of 4 m (13 ft)
(max. pole length 4 m (13 ft) + body height)

i AVOID WORKING ON LADDERS

- **UNGER** telescopic poles allow you to work safely reaching up to 10 m height, while standing on the ground
- The **UNGER ErgoTec®** Locking Cone ensures safer operation, since the tools lock in place and cannot drop
- Most accidents with ladders are caused by wrong handling, and not their damage
- Always check whether cleaning from the ground is a safe option. If not, discuss safe alternatives and corresponding costs with your client
- Always insist on safe working conditions. Do not risk your life just because the client does not accept certain services!
- Always choose the safest way. Ladders should not automatically be first choice simply due to convenience
- Ladders become extremely unsafe under certain conditions: Rain makes the ground slippery; uneven ground or contaminations can result in tilting, or even falling

TelePlus

TRADITIONAL WINDOW CLEANING

OPTI LOC

UNGER

Quality Tools for Smart Cleaning

ERGO TEC® LOCKING CONE

- Compatible with all UNGER tools.
- Prevents tools from falling down
- Fast and easy tool change

2-COMPONENT-TWIST LOCK

- Easier to open and close
- Better grip even with wet hands

ERGONOMIC HANDLE DESIGN

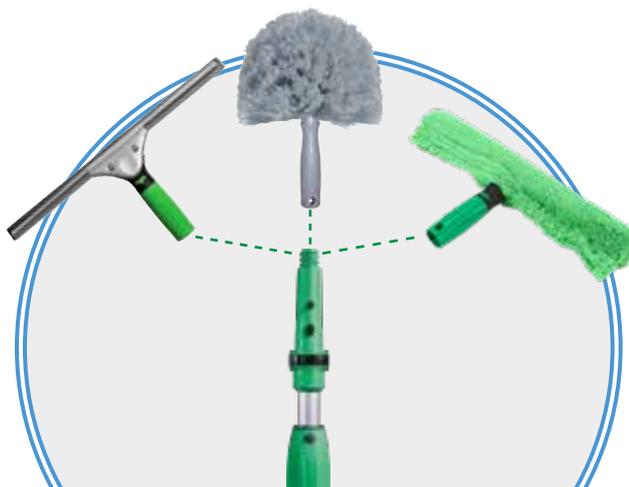

- 2c surface for a comfortable grip
- Ergonomic and secure grip even in wet conditions

ANTI-SLIP END CAP

- Safe stand when you set the OptiLoc telescopic pole down
- Protects from damage

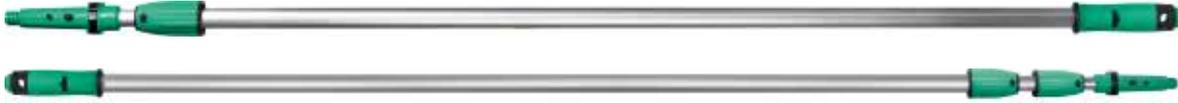

VERSATILE COMPATIBILITY

TRADITIONAL WINDOW CLEANING TELESCOPIC POLE SYSTEM

Pack Unit 10: All poles can be ordered with the pack unit 10 pieces.
"Pick & Pack": Make up 10 pieces or a multiple of 10 from these poles.

TRADITIONAL WINDOW CLEANING ADAPTERS & MAINTENANCE

ANGLE JOINTS

Freely adjustable angle allows access to hard-to-reach places.
 – Available in sturdy zinc version or lightweight plastic version
 – Fits to telescopic pole

Part No.	Version	Pack
CJA00	Zinc	5
CJN00	Plastic	5

THREAD ADAPTER 1/2"

With 1/2" thread. Fits conventional brooms.
 – Adapter is inserted into pole and locks in place via stand spring

Part No.	Pack
BE000	5

ErgoTec® LOCKING CONE

Securely locks tools on the telescopic pole. Incl. ACME thread
 – Compatible with all UNGER systems
 – Quick and easy tool change via release button

Part No.	Pack
NCAN0	5

CONE

For attaching or screwing on tools. Incl. ACME thread
 – Cone is inserted into pole and locks in place via stand spring

Part No.	Pack
NCA00	5

THREAD ADAPTER FOR ALU-POLES

Anodized aluminium adapter for fitting the Pad Holder to aluminium poles.
 – Fits into any UNGER aluminium pole with 21mm diameter – just click in
 – Enables connection between aluminium poles and MultiLink Goosenecks, Extensions and Brushes

Part No.	Pack
AFAET	5

TOOL HOLDER

Ideal for paint rollers, scrapers and other tools with up to Ø 3cm handle.
 – Enables safe operation from the ground with secure tool handle lock
 – Adjustable angle that locks securely via bolt with nut
 – Fits to telescopic pole

Part No.	Pack
PBR00	5

BULB CHANGER

For changing round light bulbs in high access areas without ladders. Rubber coated spring steel fingers.
 – Enables safer and faster bulb change from the ground
 – Fits to telescopic pole

Part No.	Pack
BS010	5

FIXI-SYSTEM

Innovative cleaning system, ideal for cleaning large and high surfaces such as boats and vehicles.
 – Firmly retains a sponge or cloth by tightening the locking collar
 – Fits on telescopic pole
 – Stiff bristle brush effectively removes stubborn dirt

Part No.	Version	Pack
FIXI0	Clamp	5
HBR00	Brush	5
SP010	Sponge	10

Ergo HANDLE EXTENSION

Additional 20 cm reach for cleaning glass.
 – Offers additional reach for safer cleaning without ladders
 – Fits to all cone tools

Part No.	Size	Pack
HH000	26 cm	10

TRADITIONAL WINDOW CLEANING GLASS CLOTHS

Quality Tools for Smart Cleaning

WINDOW MICROFIBRE CLOTH SYSTEM

CLEANING WITH MICROFIBRE

Microfibre is highly efficient in removing dirt, oils, embedded soils and bacteria from surfaces without chemicals due to its slightly abrasive fibre texture. When used dry the statically charged fibre attracts and holds dust in place, unlike cotton or paper cloths.

Highly absorbent microfibre requires less water and chemicals for effective cleaning, allowing a reduction in water and harsh chemical consumption.

Microfibre is hard wearing and reusable generating less waste for landfill disposal than cotton or paper disposable cloths.

ErgoTec® NINJA MICROWIPE

Best in Class premium lint free microfibre cloth.

- Fabric weight: 400 g/m²
- Double sided – coarse for cleaning and smooth for polishing
- With 4 scrubbing corners for removing stubborn dirt
- Pocket corners for hanging the cloth on the pole for detailing at height
- Reinforced overlock stitch along the edges ensures shape retention
- Machine washable up to 500 times

Part No.	Size	Material	Pack
MN40H	40 × 40 cm	Microfibre*	5
MN55H	55 × 55 cm	Microfibre*	5
MN60H	80 × 60 cm	Microfibre*	5

MICROWIPE LITE

Lint free microfibre cloth.

- Fabric weight: 300 g/m²
- Super soft, easy to use low friction material
- Overlock stitch along the edges ensures shape retention
- Machine washable up to 200 times

Part No.	Size	Material	Pack
MF40E	40 × 40 cm	Microfibre*	10
MF60E	60 × 80 cm	Microfibre*	10

MICROWIPE

The "Original" lint free microfibre cloth.

- Fabric weight: 350 g/m²
- Double sided – coarse for cleaning and smooth for polishing
- Overlock stitch along the edges ensures shape retention
- Machine washable up to 500 times

Part No.	Size	Material	Pack
MF40L	40 × 40 cm	Microfibre*	10
MF60L	60 × 80 cm	Microfibre*	10

CHAMOIS

Professional quality sheepskin chamois.

- Excellent for glass cleaning
- Quality checked by hand

Part No.	Size	Material	Pack
FS450	ca. 0,4 m ²	Sheepskin	5
FS550	ca. 0,5 m ²	Sheepskin	5

SCRIM

For polishing and spot cleaning of glass surfaces.

- Robust and durable
- Generous size for large surface. Washed scrim cloth size may vary slightly due to shrinking.
- Versatile best seller

Part No.	Size	Material	Pack
SCRM1	92 × 92 cm	100 % Linen	10

* 80 % polyester, 20 % polyamide

POLE GLOVES

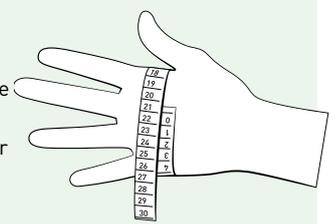

Premium quality gloves, extra robust for pole work.
 – Ergonomic design for full hand movement and pole control
 – Non-slip textured reinforcement panels on palm and fingers
 – Teflon coated fabric for superior water resistance, with triple seams
 – Adjustable hooks & loops wrist strap with hook and loop for secure fitting
 – Webbing loop for added ease while putting glove on

Part No.	Size	Hand circumference	Material	Pack
GLOC1	S (8)	19 – 21 cm	Blended fabric*	5
GLOC4	XXL (11)	24 – 26 cm	Blended fabric*	5

i IDENTIFY YOUR GLOVE SIZE:

Measure the circumference of your hand at the widest point, right under the knuckles, excluding thumb.
 Check our size guide charts on the right to identify your glove size.

ATTENTION: Neoprene gloves run up to one size smaller. Our recommendation: Order one size larger than you usually wear.
 The tables provide guidelines for your glove size.
 We always recommend trying them on before buying!

* Palm: 50 % polyester, 50 % polyethylene; Back of the hand: 50 % nylon, 50 % polyethylene

TRADITIONAL WINDOW CLEANING WINDOW CLEANING KITS

The new glass cleaning kits -
top equipment for every need

STINGRAY

The most efficient indoor cleaning tool ever!

Recent research indicates that when cleaning indoor windows, cleaning professionals face 2 key challenges – efficiency and safety. Current tools lead to time consuming issues, like re-arranging of furniture and reaching high or unusually positioned windows*. Current solutions to these issues lead to more wasted time and the risks associated with the use of ladders. Moreover, for the least experienced need for intensive staff training create additional problems. The revolutionary **UNGER Stingray**: the most efficient indoor cleaning tool ever. It cleans windows up to 25 % faster and uses up to 39 % less chemical than traditional methods.**

The **UNGER Stingray** system stands for excellent results even without professional window cleaning experience. Its highly intuitive design requires minimal operator training and it is suitable for most washable surfaces!

Increased productivity, greater cost efficiency and sustainability because:

- ▶ 25% faster than traditional methods**
- ▶ 39 % less liquid consumption**
- ▶ Numerous ergonomic benefits improve workers' comfort and safety – less downtime and health risks!
- ▶ Perfect for daytime cleaning: no drips and no runs = no mess and health risks!

*Source: Market Research – Professional Window Cleaners. Germany/UK, 2015, SR Strategy Routes

**compared to traditional spray and cloth cleaning [Source: "Interior Glass Cleaning", 16.07.15, Sabine R. Mück, Hygiene Consult Mück]

INDOOR WINDOW CLEANING

INDOOR WINDOW CLEANING STINGRAY SYSTEM

► **FASTER**

25 % faster than traditional methods**

- **One step** “Apply and Clean” Technology
- Microfibre **TriPad** for simultaneous cleaning of windows & frames
- Enclosed spray nozzle design prevents over-spraying, eliminating drips, streaks and the rework associated with wet window sills
- 15 % larger pad size saves time via reduced frequency of pad change (compared to traditional pads e.g. **UNGER PHL20**)

► **TOTAL FLEXIBILITY**

Mastering every challenge with a single tool

- Unique triangular **TriPad** shape makes it easy to clean corners and other hard to reach areas
- **Easy-Click-Pole technology** – simply add on another pole extension to reach heights of up to 5 m!

► **ERGONOMIC AND SAFE**

Comfortable and safe working up to 5 m

- Enclosed spray nozzle prevents inhalation of cleaning liquid
- Triangular pole shape facilitates enhanced grip for perfect control
- Stingray’s weight distribution is towards the cleaning surface, so it is easy to use and minimizes back strain
- Battery powered sprayer helps to reduce operator fatigue

► **INCREDIBLE EASE-OF-USE**

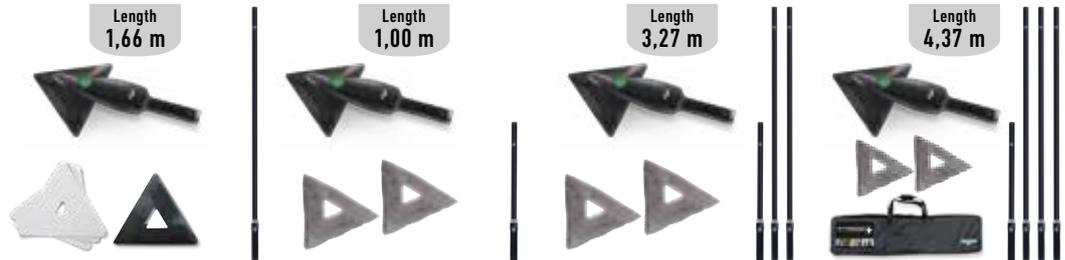

Professional results with minimal training

- **Stingray**: Ready-to-use, easily replaceable pouches, pre-filled with professional glass cleaner
- **Stingray OS**: Removable tank. Can be quickly and flexibly filled with all alcohol-based glass and surface cleaners and with pure water
- Spray activation button on each **Easy-Click-Pole** as well as on the handheld unit – press & play!
- **QuikPad** Fast change + prevents cross-contamination

NiftyNabber® – Grabber and Bagger System

Perfect for eco-friendly waste removal, indoor and outdoors, in industrial or domestic environment.

Durable, ergonomic and reliable **UNGER** grabbers are also perfect for easy reach and bend-free pick up of many daily objects.

UNGER.

LITTER PICKING & REACHING AIDS

NiftyNabber® TRIGGER GRIP

Durable litter picker with a strong internal metal bar

360° fully rotating head:

- Access narrow areas
- Locks securely every 90°.
- Robust metal bar inside, lightweight, designed to decrease fatigue

Trigger Grip Handle:

- Made with glass-reinforced plastic for increased durability

Rubber Claws with Magnetic Tip:

- Reliable grip. Opens up to 10 cm wide and holds items up to 2 kg.
- Hold items with the claw's magnetic tip – like coins and cans.

Part No.	Size	Pack
NT060	63 cm	5
NT080	83 cm	5
NT090	93 cm	5
NT100	102 cm	5

NiftyNabber® PRO

A heavy duty litter picker

Steel Claws:

- Molded rubber overlay for an extra-secure grip.
- Powerful hold of small or oddly shaped objects – broken glass, cigarettes or coins.
- Opens up to 15 cm wide.

Ergonomic handle:

- Comfortable pressure handle – creates high pressure to hold dirt without tiring your hand.

Rugged Design

- Strong enough for heavy-duty work, light enough to protect from back and arm strain.
- Holds items up to 4,5 kg

Part No.	Size	Pack
NN400	52 cm	5
NN900	97 cm	10
NN140	130 cm	5
NN960	238 cm	6

PAPER PICKER

A lightweight tool with a strong metal pin for removing debris such as paper and cans.

Ergonomic Design:

- No bending or back strain.
- Handle design positions arm and hand in the optimal position.

Lightweight Shaft:

- Rust resistant.

Strong Metal Pin:

- Long enough for picking up several pieces of debris at once.
- Will punch through and hold even thick, aluminium cans.

Part No.	Size	Pack
PPPP0	100 cm	10
PINP0	Replacement pins for Paper Picker	10

NiftyNabber® BAGGER

A durable and weatherproof waste carrier for 180 l bags that is a great multi-tasking alternative to plastic bags.

Ergonomic:

- Allows to avoid unnecessary bending or lifting heavy bags.
- Always open for easy and safe access without touching litter.
- Made of robust material for reduced injury risk from sharp waste.

Robust:

- Can be pulled across the floor, asphalt or ground due to solid plastic bottom and carry loops.

- Carries up to 29.5 kg.

Practical:

- Folds flat and can be fixed with buttons for space-saving storage and transport..

Part No.	Size	Ø	Height	Colour	Pack
NB300	151 l	55 cm	68 cm	●	1

FLOOR CLEANING erGO! clean

erGO! clean

Feel the intuitive motion

Discover the intuitive S-shape motion with minimal effort: the ultrafast floor cleaning system

Dirt and contamination can quickly be caused by minor mishaps in day-to-day business life. A drink spill on the floor does not create a good impression and, in the worst-case scenario, if someone stands in it, it may well be spread elsewhere. Precious time passes before the cleaning staff can get their cleaning tools together and be on-site. But the **UNGER erGO! clean** – being fast, ergonomic and professional – will put an end to this.

READY-TO-GO AT ANY TIME AND ANYWHERE

- Ready-to-use immediately
- No lengthy preparation, such as filling buckets, required
- Cleaning chemicals can be replaced in a matter of seconds.

INCREASED PRODUCTIVITY WITH FATIGUE-FREE WORK

- Reduces the extreme strain placed upon employees and prevents work-related musculoskeletal diseases
- No lifting and carrying of heavy buckets
- Significantly less effort required for use

A TOP-QUALITY PROFESSIONAL TOOL

- First-class materials guaranteeing a long service life
- Robust tool for long-term use
- Sophisticated product design for intuitive handling

Tested by:

FLOOR CLEANING & FLOOR FINISHING

erGO! clean & erGO!wax

UNGER

Quality Tools for Smart Cleaning

erGO! clean

The intuitive S-motion now in series!

Performance without limits!

After the great success of the erGO! clean with integrated trigger and detachable tank, our back and joint friendly innovation is now compatible with all UNGER floor cleaning systems: The S-Telescopic pole.

erGO! wax

More efficient than ever before!

Ultra-fast & ergonomic with just one person

Professionally coat resilient floor coverings such as linoleum and PVC. Work with the UNGER erGO! wax floor coating system continuously and without any interruption thanks to the backpack with 5-liter capacity. Achieve perfect working results with an even application of the cleaning agent by the blockage-free pulse spray system – which also guarantees precise dosing.

The telescopic handle of the UNGER erGO! wax floor coating system can be precisely adjusted to the height of the operator which protects his/her back during cleaning work. The rotateable grip ensures an easy and stress reducing working movement. Available in S-curved and straight version.

Backpack, incl. Replacement Pouch, Hose and Pulse-Jet-Unit

INCREASED PRODUCTIVITY THANKS TO CONTINUOUS WORK WITHOUT INTERRUPTION

- Finishing work with just one person
- No lifting or carrying heavy buckets
- Protects employees against high levels of strain and job-related diseases of the musculoskeletal system

A PROFESSIONAL TOOL GUARANTEEING TOP WORKING RESULTS

- Lint free and non-soaking sleeve for easy and perfect distribution of the finishing fluid

*Support material: 100 % polyester; Fibres: 100 % polyester

BENEFITS OF USING UNGER'S 100 % MICROFIBRE MOPS

- Clean with less water, less chemicals and less streaking
- Reduces bacterial contamination up to 96 % compared to traditional mop heads
- Long lasting and durable, withstands up to 500 wash cycles

White stocks last

SmartColor DAMP MOP PAD

Microfibre pad with high density looped pile for streak free results.

- Machine washable up to 500 times
- Uses less water and solution so floors dry quicker
- Attaches to Pad Holder with hooks & loops backing
- Use with SV40G DampMop Pad Holder or any standard 40 cm Pad Holder + erGO! Pad Mop Holder FAVMH
- Swivel head Pad Holder - glides easily across floors

Part No.	Size	Colour	Material	Pack

FLOOR CLEANING

FLOOR SQUEEGEES

Quality Tools for Smart Cleaning

SANITARY COMBI BRUSH

2 tools in one: Brush with polypropylene bristles and squeegee with double blade foam rubber blade, black. ACME thread.

- Scrubber to remove dirt
- Foam rubber blade for drying floors and joints
- Very sturdy, but lightweight

Part No.	Size	Pack
PB45A	45 cm	10
PB55A	55 cm	10

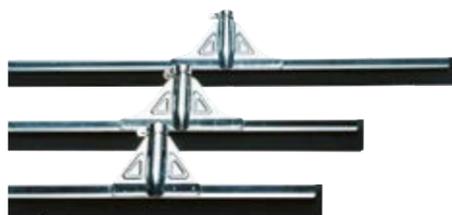

WaterWand STANDARD

For lighter jobs with double blade black foam rubber.

- Great for cleaning joints
- Sturdy zinc plated steel body
- For streak free floor drying

Part No.	Size	Pack
MW450	45 cm	10

WaterWand HEAVY DUTY

Reinforced version for heavier jobs with double blade black rubber.

- Great for cleaning joints
- Sturdy zinc plated steel body
- For streak free floor drying

Part No.	Size	Pack
HM450	45 cm	10
HM550	55 cm	10
HM750	75 cm	10

WaterWand HEAVY DUTY RED

Reinforced version for heavy duty jobs with double blade red foam rubber, oil and acid resistant.

- Great for cleaning joints
- Sturdy, zinc plated steel body
- For streak free floor drying

Part No.	Size	Pack
HW550	55 cm	10
HW750	75 cm	10

WaterWand ACME THREAD INSERT

For all WaterWand squeegees.

Part No.	Pack
FWAI0	10

AquaDozer®

For heavy duty jobs, black EPDM rubber. Ideal for industrial environment.

- Sturdy construction
- Solid handle socket

Part No.	Size	Version	Pack
FP600	60 cm	Straight	6
FP900	90 cm	Straight	6
FP90C	90 cm	Curved	6

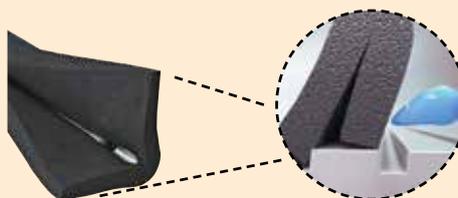

AquaDozer® ACME THREAD INSERT

For all AquaDozer®.

Part No.	Pack
FAAI0	10

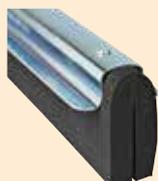

i DOUBLE BLADE

The double blade ensures effective removal of liquid on all types of flat surfaces, even with grooves, tile joints or textured finish.

BLACK RUBBER

- All-purpose foam rubber
- Perfect for cleaning in most areas

RED RUBBER

- Excellent resistance to oils, acids, greases and solvents
- Ideal for cleaning in factories, garages and vehicle maintenance facilities

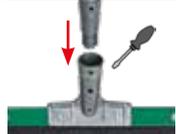

FLOOR CLEANING

FLOOR SQUEEGEES

FLOOR SQUEEGEES

Ideal for commercial cleaning, **UNGER** floor squeegees effectively remove excess water, oil and other liquids from large hard floor areas. Use our product guide below to

identify the right squeegee for specific premises or job requirements.

FLOOR SCRAPERS & MAINTENANCE TOOLS

FLOOR SCRAPER LIGHT DUTY

For light jobs, with 1,20 m ergonomic bi-component handle.

- Convenient operation while standing
- Reversible sharp/blunt edge blade

Part No.	Length	Blade	Pack
LH120	1,20 m	10 cm	10

Stainless Steel Floor Scraper Blades 10 cm. Reversible sharp/blunt edge blade.

RB100	1 Dispenser = 10 blades	10 Dispensers
-------	-------------------------	---------------

FLOOR SCRAPER HEAVY DUTY

For heavy duty jobs, with 1,50 m steel handle.

- Convenient operation while standing
- Reversible sharp/blunt edge blade

Part No.	Length	Blade	Pack
HDSS0	1,50 m	20 cm	1

Floor Scraper Blades 20 cm. Reversible sharp/blunt edge blade.

HDSB0	1 Dispenser = 10 blades	5 Dispensers
-------	-------------------------	--------------

HANG UP

All-purpose tool holder. Tools are inserted from front.

Available in 2 versions (3 or 6 holders).

- Tools snap into rubber rolls in front
- Practical and ideal for quick access
- Simply attach to wall, using dowels
- For diameter Ø 21 - 32 mm

Part No.	Size	Ø	Info	Pack
H0350	35 cm	21-32 mm	3 holders	5
H0700	70 cm	21-32 mm	6 holders	5

HOLD UP

Tools are inserted from the bottom and held in place by strong rubber grips.

- Simply attach to wall, using dowels
- Equipped with hooks on the front to hang up smaller tools

Part No.	Size	Pack
HU450	45 cm	5

ERGO DUST PAN

For quick and thorough waste removal.

- Ergonomic and convenient
- Dust pan opens when raised, and retains the waste
- Telescopic handle (EDTBG), can be adjusted to suit individual height

Part No.	Size	Type	Pack
EDTBG	83 x 30 cm	Telescopic	6
EDPBR	83 x 30 cm	Standard	6

WonderWaxer

Complete wax applicator with 1,40 m handle.

- For applying finishing fluid to wooden floors
- Convenient operation while standing
- Swivel head, replaceable sleeve with snap fasteners

Part No.	Size	Material	Pack
QS140	40 cm	Blended fabric*	10

WonderWaxer REPLACEMENT SLEEVE

Part No.	Size	Material	Pack
QS010	40 cm	Blended fabric*	10

*65 % polypropylene, 35 % polyester

WONDER WAXER

The superlight WonderWaxer is ideal for applying wax to almost all types of floor. The head swivels to reach difficult areas. The low-lint fabric sleeve is replaceable and fits firmly on the T-bar with snap fasteners. The WonderWaxer is perfect for use on gym and commercial floors. Perfectly fits to 28 l bucket QB220 on page 54.

MICROFIBRE CLOTH SYSTEM

MICROFIBRE CLOTHS

Quality Tools for Smart Cleaning

MICROFIBRE CLOTH SYSTEM

AVOID BACTERIAL CONTAMINATION!

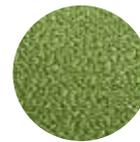

- Five-colour system for optical coding optimises cleaning by dividing tools and areas
- Matching coded tools assigned to specific cleaning areas prevent dangerous bacterial contamination
- Colour-coding facilitates the application of specific chemicals, thus protecting valuables like furniture and floor coverings

CLOTH SURFACE GUIDE

- Guidelines for choosing the right microfiber for the right task
- Optimization of your return on investment (ROI) by purchasing the best grade for your needs

**MICROWIPE
4000**

**MICROWIPE
2000**

**MICROWIPE
200**

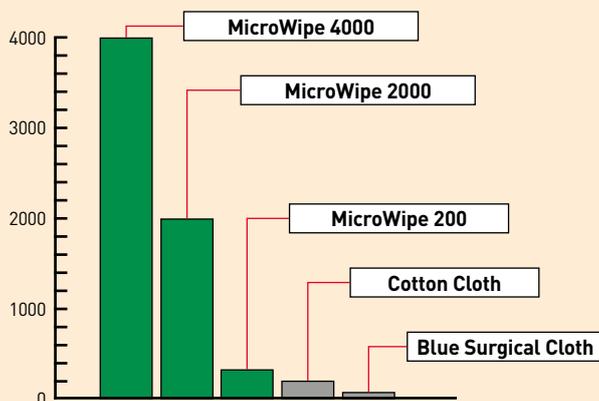

GRADING SYSTEM EXPLAINED

The range of cleaning products that microfiber may be used for is dictated by many qualities, including fibre thickness, length, finishing, abrasiveness, absorbency, cloth dimension, edging and quality manufacturing techniques. **UNGER** has established several

performance factors that have been tested, measured and validated by ASTM independent laboratories and other US standard industry tests. This criteria is designed to assist end users in the selection process when purchasing microfiber cloths.

DURABILITY

TEST DESCRIPTIONS

- **Durability (Wear Cycles)**** The higher the factor, the greater number of times the microfiber cloth can be moved across an abrasive surface before wearing through and degrading or developing holes
- **Scrub Factor (Abrabiveness)**** The higher the scrub factor, the better the performance of the cloth in removing dirt and bacteria from surfaces and microscopic crevices
- **Absorbency*** The higher the factor, the more liquid the cloth will absorb and hold
- **Wash Cycles** A higher number of wash cycles indicates the longevity of the cloth through machine wash and dry cycles before deteriorating

**ASTM Tests *Standard US Industry Tests

MICROFIBRE CLOTH SYSTEM

MICROFIBRE CLOTHS & SPRAYER

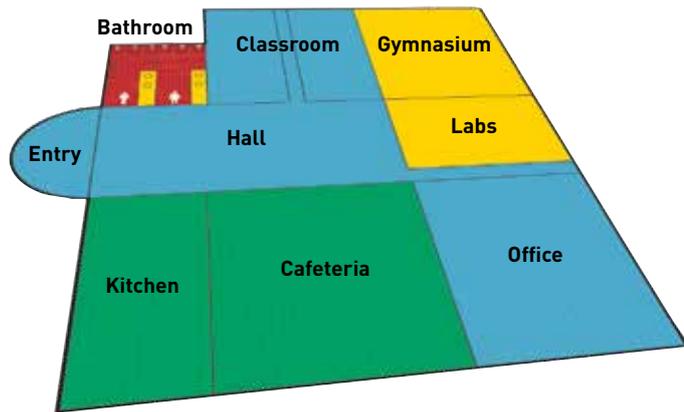

SmartColor MicroWipe

High quality microfibre cloth. Resistant against frequent commercial wash cycles. Use the table below to choose the right grade to maximise the return on your investment.

SOABG	1 l	5

DUSTING BRUSHES & DUSTERS

Quality Tools for Smart Cleaning

**StarDuster®
WALL BRUSH**

Oval shape ideal for cleaning fans, walls, etc.
 – Perfect for dusting rough surfaces and removing dust from flat objects
 – Fits on telescopic pole

Part No.	Pack
WALB0	5

**StarDuster®
COBWEB**

For dusting of walls, surfaces and corners.
 – Electrostatic energy attracts and holds dust
 – Split-tipped soft poly fibres for effective dusting
 – Locks on telescopic pole

Part No.	Size	Pack
COBW0	20 cm	6

**StarDuster®
PIPE BRUSH**

Round and bendable for cleaning pipes and curved surfaces.
 – Fits on telescopic pole

Part No.	Pack
PIPE0	5

RUBBER CLEANING SPONGE

Re-useable dry cleaning sponge, absorbs dust particles.
 – Made of natural vulcanised cellular rubber, the highly absorbent sponge effectively lifts away and holds dust, dirt and lint from any dry surface.
 – Suitable for cleaning of painted walls and ceilings, wallpaper, painted metal and wood surfaces, fabrics and a number of additional surfaces
 – Widely used in museum and antique restorations

Part No.	Pack
SP060	6

**StarDuster®
OSTRICH FEATHER**

Perfect for dusting delicate surfaces such as glass, cabinets and chandeliers.
 – Reaches into the smallest gaps and surface crevices
 – Fits on telescopic pole

Part No.	Pack
FEDU0	6

**StarDuster®
LAMBSWOOL**

Flexible lambswool duster will not damage even most delicate surfaces.
 – Natural oil in lambswool helps to remove dust with minimum effort
 – Features bendable metal core for access to hard-to-reach areas
 – Fits on telescopic pole

Part No.	Pack
LWDU0	6

**StarDuster®
PRO DUSTER**

Telescopic lambswool duster with bendable head.
 – Telescopic handle extends from 70 to 150 cm for dusting high objects
 – Statically charged disposable sleeve grabs and retains dust
 – Includes 1 disposable sleeve

Part No.	Size	Info	Pack
LWDUR	70 – 150 cm	Duster + 1 Disp. Sleeve*	10
DS10Y	46 × 18 cm	Disposable Sleeve*	1 Bag (10)
DS50Y	46 × 18 cm	Disposable Sleeve*	1 Bag (50)

*100 % polypropylene

**StarDuster®
PRO FLAT 75**

Bendable plastic duster with microfibre sleeve, ideal for narrow spaces. Includes 3 disposable sleeves
 – Made from strong and flexible plastic
 – Microfibre sleeve is removable and machine washable
 – Fits securely to pole with Locking Cone

Part No.	Size	Material	Pack
PFD7G	75 cm	Microfibre*	10

*100 % polyester

**StarDuster®
PRO FLEX 75**

Great for cleaning overhead, underneath furniture and around corners. Includes 3 disposable sleeves
 – Bends and retains shape to clean hard-to-reach areas
 – Microfibre sleeve is removable and machine washable
 – Fits securely to pole with Locking Cone

Part No.	Size	Material	Pack
PXD7G	75 cm	Microfibre*	10

*100 % polyester

**StarDuster®
PRO FLAT/FLEX SLEEVES**

Disposable or reusable replacement microfibre sleeves.
 – Effectively lift and hold the dirt
 – Microfibre sleeve is machine washable

Part No.	Info	Material	Pack
PS50W	Disposable Sleeve	**	1 Bag (50)
PM05W	Microfibre Sleeve	*	1 Bag (5)

WASHROOM CLEANING

TOILET & WASHROOM CLEANING

ERGO TOILET BRUSH COMPLETE

Complete kit for professional application.

- Features 66 cm handle with 360° cleaning radius
- Replaceable brush heads or swabs available
- Hygienic, ergonomic holder is lightweight and keeps bacteria isolated
- Holder can be hand-carried or hung on cart and features a detachable base for easy emptying

Part No.	Content	Pack
BBWHR	Brush, Holder, Replacement Head	5

ERGO TOILET BRUSH/SWAB

Ergonomic toilet brush for professional application.

- Features 66 cm handle with 360° cleaning radius
- Replaceable brush heads and swabs available

Part No.	Content	Pack
BBCOR	2 x Brush head + 1 x handle	5
BBHLR	Brush Holder	5
BBRHR	2 x Brush head	5

NiftyNabber® WASHROOM

The hygienic all-purpose grabber.

- Keeps refuse at a distance with a 53 cm long handle
- Solid design made of aluminium and metal
- Powerful rubber-coated claws for firm and precise grip of objects

Part No.	Size	Pack
NN40R	53 cm	5

ErgoTec® SQUEEGEE, RED, 35 cm

Ergonomic squeegee for mirrors and smooth surfaces.

- Ergonomic bi-component handle, designed for comfortable hold
- Stainless steel S-Channel with variable positioning options
- Professional quality Soft Rubber for optimal cleaning results

Part No.	Size	Pack
ES35R	35 cm	10
NE350	35 cm	10
RR350	35 cm	10

StripWasher® WASHER SLEEVE

Durable microfibre washer for cleaning mirrors and walls.

- Superior cleaning power
- High water retention - up to 6 times its own weight, ideal for cleaning larger areas
- Machine washable up to 500 times sleeve with side scrub pad

Part No.	Size	Material	Pack
NS45R	45 cm	Microfibre**	10

**Support material: 100 % polyamide; Fibres: 100 % polyethylene

ERGO WALL SQUEEGEE, 35 cm

- Light twin blade foam rubber - for drying tiles and grout lines
- Streak-free cleaning
- T-bar material made of acid proof polypropylene
- Ergonomic handle, detachable - squeegee also fits on pole

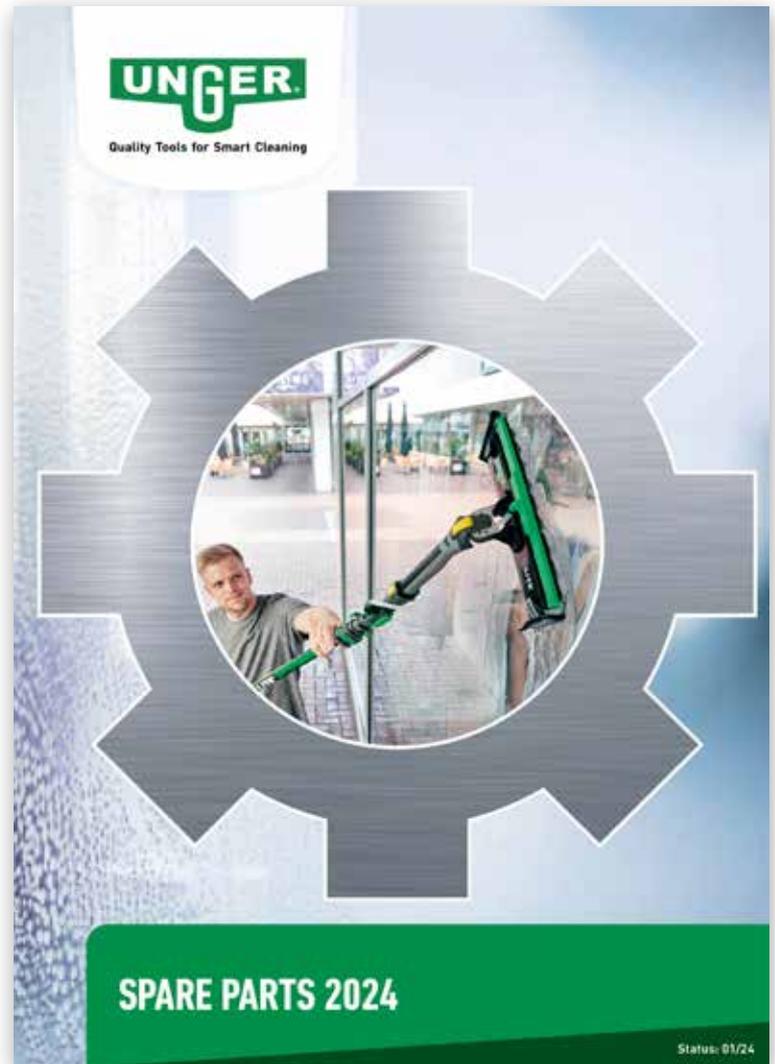

Part No.	Size	Colour	Pack
EW35G	35 cm	●	10
