

iClean® FLO₃

tersano's iClean FLO₃ device is easily installed in-line, providing a sanitizing* solution to your faucets, ice machines, laundry machines, beverage lines, and more. Ordinary tap water enters the device and exits as a powerful, chemical-free cleaner, sanitizer, and deodorizer that eliminates dirt, germs, odors, biofilms, and pseudomonas while being harmless to people and the planet.

- ▶ **Faucets:** extend the shelf life of produce by reducing bacteria and pesticides
- ▶ **Ice Machines:** reduce microbes and increase cleanliness of lines and holding bins
- ▶ **Beverage Lines:** prevent pseudomonas and biofilm formation with non-toxic, chemical-free solution
- ▶ **Laundry Machines:** optimized for cold water usage saving energy; provides sanitization and reduces detergent use

LaundryPODs

For maximum results, pair iClean® FLO₃ Laundry with tersano's revolutionary LaundryPODs. Specially formulated for tersano's technologies, LaundryPODs dissolve in any temperature and complement ozone laundry systems.

Perfect for:

- Laundromats
- Campuses
- Residential
- Hospitals
- Commercial Kitchens
- Hotels
