## SPECIAL FINISHES TO BETTER INTEGRATE THE WASHROOM

Custom Insets

Premium Range

The washroom plays an important role in portraying the image of an establishment. The Ellipse soap dispensers are available in a range of premium finishes which means that the washroom can be kitted out with an attractive set of matching units. The exclusive spray painted designer metallic grey is suitable for stylish washrooms, whereas the chrome plated finish is the perfect choice for luxury washroom environments.

## DIRECT FILL: OUR SOLUTION FOR YOUR SOAP

For customers in need of dispensers to be used with their own soap\*, Kennedy has developed bulk fill bottles. Simply open the cap and top up the soap.

*\*Soaps can vary in viscosity and this may impact the performance of the dispensing action.*

## ECOLABEL

The European Ecolabel is a voluntary system for promoting products and services that are recognised as being kinder to the environment and that are symbolised with the Ecolabel 'Flower' logo. The flower logo is synonymous with ecological quality and is recognised in the EU, Norway, Liechtenstein and Iceland. Ecolabel considers the total environmental impact of the product from the raw material extraction through to product disposal.

Our Ecolabel soaps respect a set of criteria established by the European Commission relating to aquatic ecosystems and biodegradability. They are as efficient as any non certified product, but do not contain any substances that would be harmful for humans or the environment. Packaging has also been optimised in order to reduce waste as much as possible.

## ALSO AVAILABLE: TOILET SEAT SANITIZING SOLUTION

Built on the Kennedy soap dispenser platform the SEATSAN ELLIPSE RANGE dispenses virucidal/bactericidal toilet seat sanitising foam. The ultra economical foam uses 30% less consumable than a comparable fluid sanitiser and kills 99.99% of bacteria found on toilet seats. The consumable also conforms to European bacterial and fungicidal standards.

- Bactericide foam kills staphylococcus aureus, pseudomonas aeruginosa and candida albicans
- Meets European standards EN1275 and EN 1040

The SEATSAN ELLIPSE range comprises a manual and an automatic No-Touch version

## DISCOVER THE FULL INTEGRATED ELLIPSE RANGE

In addition to this comprehensive soap solution, Kennedy offers a full range of integrated washroom dispensers for hand drying, toilet tissue and air freshening.

# Kennedy Around the World

Our history started back in 1961 when the launch of our first roller towel cabinet shaped industry standard.

Our company focus is to serve the service specialist.

Our customers worldwide prize our products for reliability, quality, cost control, ease of service and hygiene.

## Bespoke Design and Original Equipment Manufacturing

Our highly skilled in-house team of engineers and designers are here to serve your bespoke dispenser design needs. Our core in-house know how includes industrial design, mechanical

and electronics engineering, tool design and development, quick prototyping, consumable expertise and project management. Our OEM product clients include some

of the world's leading consumable manufacturers and washroom hygiene service providers. Ask us for more details.
