

CLEANTECH SOLUTIONS

EMERGENCY HYDROGEL

OD 472

Multi-action enzymatic absorbent with excellent retention and solidification of aqueous liquids.

APPLICATIONS

- Specially designed for the cleaning up aqueous fluids of all kinds: bodily fluids, vomit, spilled beverages, etc.
- For daycares, nursing homes, playgrounds, transportation companies, ambulances, hospitals, hotels, restaurants, etc.
- Effective tool for cleaning services for sports pavilions, marquees, fairs, etc.

HOW TO USE

Cover the liquid with the product, let it sit for a few seconds, then sweep up the dry gel beads with a broom and dustpan.

DOSAGE

The absorption power depends on the polarity and viscosity of the liquid you want to clean up. Here is an approximation of the yield per liter of spill: water 30 g, coca cola 50 g, wine 100 g, urine 70 g.

Triple action

BENEFITS

- ✓ **Easy to use and highly absorbent** (on average 1 kg product absorbs about 30 liters of watery residue)
- ✓ **Multi-action:** Instant absorption, drying, and air freshening.
- ✓ **Biological action:** highly active due to its enzymes
- ✓ **Safe to use:** no hazard handling requirements
- ✓ **Environmental improvement:** eco-design product, minimizes its environmental impact, due to its biological action, it preliminarily breaks down organic matter
- ✓ **Other benefits:** its absorbing and drying action allows for immediate cleanup of spills, by simply sweeping them up, avoiding the risk of falls
