

BATHROOM ECO-CLEANER

DD 469

Powerful multi-action cleaner for removing caked on dirt, organic remains, lime and rust with sanitizing properties and a pleasant aroma. With European Eco-label.

APPLICATIONS

- Cleaner and sanitizer of all types of bathroom fixtures (showers, sinks, urinals, bidets, bathtubs, etc...), and in general glazed ceramic bathroom equipment.
- Recommended for administrative buildings, hotels, restaurants, factories, hospitals, public and educational centers, gas stations... -General use cleaner that meets sustainability requirements focused on Green Public Procurement.

HOW TO USE

Apply the product under the rim of the toilet, let it sit for a few minutes, then rinse by flushing. For stubborn stains, you may need to scrub a bit. For the seat, the outer walls of toilet, and other fixtures in the bathroom, pour a bit of the product on a damp cloth and wipe the surface that needs to be cleaned, then rinse and dry. Use regularly for optimal cleaning and sanitizing.

DOSAGE

Ready to use product. It can be diluted in water for cleaning ceramic, glass, and screens.
