

CLEANTECH SOLUTIONS

DISINFECTANT CLEANER

DD 445

High level disinfectant and cleaner whose formula combines broad-spectrum microbicidal (bactericidal, fungicidal and virucidal) active ingredients, giving it excellent disinfecting power while being safe to use. HA approved for the food industry, registry no. XX-20/40-03822 and XX-20/40-03822 HA.

APPLICATIONS

- Disinfection in the food industry (HACCP programs) at all types of establishments that handle, process, or store food: meat, dairy, beverage, canning, cold storage industries, restaurants, etc.
- Cleaning and disinfection of pallets, containers, tanks, machinery, utensils, tables, working clothes and surfaces in contact with food.
- General use cleaning and disinfecting of surfaces in public areas and apartment buildings: schools, residences, hotels, etc.

HOW TO USE

Food industry use: Apply the product where there is no food. Dilute the product (see dosage) by spraying, washing, foaming, re-circulating, or immersing the surfaces and/or utensils. Contact time: 5 minutes minimum. Then rinse with tap water. Environmental Cleaning: Applying the product to floors and walls for environmental cleaning. Does not require rinsing.

DOSAGE

Dose depending on the problem or how dirty it is 1 - 2 % and in dirty conditions (UNE-EN 13697): 3%.

*Excellent
disinfectant, not
hazardous*

BENEFITS

- ✓ **Cleaner and disinfectant** in just one product
