

Innovative sanitising solutions from Kennedy Hygiene Products

Even seemingly clean surfaces can harbour vast numbers of harmful bacteria. The sanitising products family from Kennedy offer a range of state-of-the-art sanitising dispensers for ultimate urinal and toilet hygiene. Whether you need a solution to prevent bad smells, prolong the life of washroom ceramics and piping, or to take care of end user hygiene, Kennedy has an effective dispenser for the job.

All our sanitising dispensers have been designed with ease of service and end-user satisfaction in mind, and are complemented by high performance consumables.

INTEGRATED HYGIENE SOLUTIONS

TOILET SEAT SANITISERS

Auto Seatsan Ellipse

Touch-free and ultra-economical toilet seat sanitizing foam dispenser that kills 99.99% of bacteria found on toilet seats.

Seatsan Ellipse

Toilet seat sanitising foam dispenser with error-proof refill loading system makes for easy service, while flash-drying and smooth dispensing aids the end user.

Scintilla Toilet Seat Wipes Dispenser

Simple and effective dispenser for surface disinfection. The toilet seat wipes are dispensed via a single-wipe dispensing aperture to minimize waste.

URINAL SANITISER

Activa

Fully programmable urinal and WC sanitiser created for service providers, with Bio-active™, an advanced and highly effective 3-in-1 sanitising fluid based on natural ingredients.

SURFACE SANITISER

Scintilla Surface Sanitiser

Virucidal/bactericidal toilet seat wet wipes that kill 99.99% of bacteria found on surfaces.

Finishes

Consumables
