PRODUCT INFORMATION

WHY HYGIENIC TOILET SEAT BECOMES NECESSARY IN PUBLIC TOILETS?

★ Main problems people may face when they use public toilets

- Cross infection caused by pollutants and bacteria on toilet seats.
- Accidentally injured when squatting on the toilet and then falling down
- Toilet clog due to random toilet paper cover disposal.

In a middle or high-end commercial place, it is extremely important to keep its public toilet hygienic !

If you are a consumer, which toilet do you prefer to use?

NAVISANI toilet seat can fit more than 95% toilet bowls in the market

NAVISANI toilet seat is automatically controlled by a build-in microcomputer. The sanitary film will stop after turns exactly one round. And the used film gets destroyed by a cutter to ensure one time use.

Sanitary Film:

It is made of food package grade HDPE and it has been certified by authoritative organization.

Power Supply:

Adapter and rechargeable battery For models with heating function: Adapter

Main Functions :

Soft Close Cover	Restarting Interval
Overload Protection	Low Battery Warning
Automatic Film Replacement	Counter Fault Warning

PRODUCT ADVANTAGES

1. NAVISANI toilet seat provides a new toilet seat every time when it is used. The visible clean system can effectively prevent cross-infection.
2. The lifespan of toilet bowls can be largely extended when people don't squat on the toilet and the accidental injury which may cause dissensions will be reduced as well.
3. People do not have to put toilet papers on toilet seats, which can greatly reduce the maintenance cost, cleaner's workload and make sure the toilet seats are clean and hygienic.

**Prevent
Cross-
Infection**

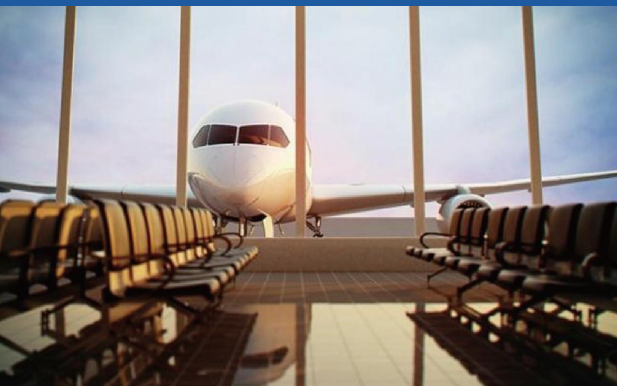

**Reduce
Usage
Cost**

**Eliminate

Hazards**

**Improve
Service
Quality**

APPLICABLE PLACES

NAVISANI Hygienic Toilet Seat is ideal for all commercial shared toilet facilities: hotels, restaurants, recreation places, clubs, stations, airports, casinos, offices, malls, hospitals, beauty salons, etc.

MARKET OPPORTUNITIES

- ★ Public health awareness becomes stronger due to COVID-19 and in the coming 3-5 years it will rise up to peak.
- ★ At present, most intelligent toilet seats in the market are focusing on cleaning and drying function which are more suitable for home use.
- ★ The number of people getting infected with disease from the toilet is rising every year, and the accidental injuries from squatting on toilet is countless as well.
- ★ It is a general trend for the social civilization. Preventing people from cross infection is the necessary trend for the development of social health. And NAVISANI hygienic one time use toilet seat perfectly fits this trend.

BENEFITS

1. A must need high-frequency business opportunity

Market opportunity
New product, leading brand.

2. Continuous accumulated benefits
