Cleenol is recognised as one of the UK's leading innovators, manufacturers and suppliers of quality cleaning and hygiene products.

We have an extensive manufactured chemical product portfolio, making Cleenol a single source for even the most demanding of cleaning requirements.

Each product in Cleenol's general or bespoke range of cleaning solutions is formulated to provide the highest standards in domestic, commercial and industrial hygiene technology.

Cleenol employs its own technical team to give service support where applicable.

In addition to chemical products under the Cleenol brand name, we offer a contract manufacturing service to qualifying customers that allow us to customise our extensive range of high-quality cleaning products with your company branding.

Our expert lab technicians are able to formulate bespoke products designed to suit specific requirements, providing you with a customised cleaning solution.

Cleenol's Evolution Dispensing Systems allow for concentrated chemicals to be diluted at point of use. Unlike conventional systems, Evolution requires no water connections, plumbing or electrical supply.

Simple and Accurate Dispensing

The easy to use dispenser has a push/pull lever system which consistently delivers the correct amount of chemical concentrate directly into water in a trigger bottle, sink or bucket.

SAFE Systems

The product filled dispenser will only dispense concentrate when the spray bottle is locked into position. Both the sink and bucket operations have to be enabled before dispensing can take place. An automatic delay mechanism locks out the system for a time preventing overdosing. The units are lockable for safety reasons. Non-return valves and drip trays remove the risk of splashing surfaces or the operator.

Environmental Advantages

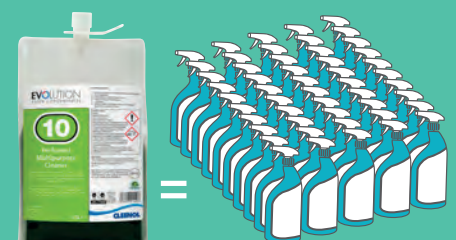

Accurate dispensing prevents overdosing and chemical wastage. Concentrated products reduce packaging, storage and transport.

Cost-effective

Controlled dispensing and consistent dilutions every time, give demonstrable savings in cost in use.

1x1.5L pouch
can make the
equivalent of
up to:

- 75 to 150 Buckets or Sinks*
- 75 to 300 Refill Flasks*

* Depending on dilution rate on a per-product basis.

Evolution Super Concentrates

Did you know our Evolution range is also available as part of our X2 Portable Concentrate Sytem?

Turn to page 8 to find out more.

Flask Dispenser

The Evolution Spray Flask Dispenser has a purpose-built shelf for holding the trigger bottle in place whilst it dispenses the correct measure of concentrate product into the water-filled flask. A range of heavy-duty 750ml bottles and trigger sprays with chemical resistant labels are available for the selected products through this system. The dispenser will not operate unless the trigger bottle is locked in place.

Sink Dispenser

The Evolution sink dispenser is sited to ensure the delivery spout dispenses directly into the sink or bowl of water.

Bucket Dispenser

The Evolution bucket dispenser has an extension pipe which is installed at the right height above the selected bucket, allowing the product to flow directly into the water.

3x1L EV11/1000
6x750ml HDR EVF11

The Evolution 1000 system is a portable and convenient cleaning solution that helps provides a safer working environment when cleaning. Partnered with the Twin Bottle Holder you can store your open bottles off the ground and within easy reach so there is less chance of spillages and unnecessary strains often found with lifting heavy and clumsier cleaning solutions.

Evolution Twin Bottle Holders are custom made to fit two 1L Evolution 1000 bottles. The holder is easy to attach to any suitable vertical surface and makes any area a cleaning station. The compact design provides an off the floor system that keeps the area clean and hygienic.

Each 1-litre bottle has 5 dose rates available, simply squeeze the 1-litre bottle gently after removing the cap so the liquid fills the chamber to the desired dose rate. Then pour into your 750ml refill flask containing clean cold water.

1x1L bottle can make a minimum of 50 ready-to-use refill flasks (based on a 20ml dosage).

Packed 3 x 1L to a case, provides up to 150 ready-to-use flasks – equivalent to 25 cases of normal ready to use product.

Reduces plastic packaging waste.

Reduces the need for frequent deliveries.

Reduces money tied up in stock.

Evolution 1000

- Neutralises natural body odours and stale tobacco.
- Refreshing potpourri fragrance.

3x1L EV7/1000
6x750ml HDR EVF7

EV8 Window Cleaner

- Effectively cuts through atmospheric grime and nicotine sootings.
- Suitable for cleaning and polishing stainless steel.

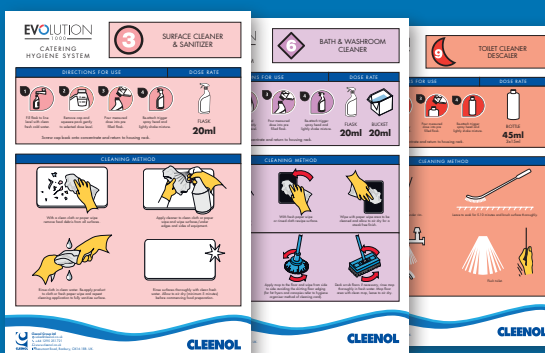

3x1L EV8/1000
6x750ml HDR EVF8

Wall Mounted Bottle Holder

Dedicated Evolution storage solutions provide trouble-free storage for open bottles and refill flasks within easy reach.

Simple to attach to most vertical surfaces, they make any area the ideal cleaning station with a compact, off the ground, design that keeps the area organised.

Product User Guides

A range of product user guides are available for catering and housekeeping areas.

These offer instructions on how best to use each product with illustrations and dilution rates depending on use.

Intuitive Dosing System Built Into Every Bottle

An easy 4 step guide to ensuring accurate product dosing

1 Fill your empty flask or bucket with fresh clean water.

2 Remove the cap from the bottle and gently squeeze to fill to the required level.

3 Pour the measured dose into your flask or bucket of fresh clean water.

4 Carefully agitate the solution to mix and you are ready to use.

Product Identification

Product Symbols

Each product has a unique product shape reference, giving additional support to assist with colour blindness, literacy or language difficulties.

Colour Coding

A selection of bright, visual colour codes have been developed for the chemical products, product packaging of the 1L bottle and flask.

Numeric References

Each product within the range has a unique number reference for quick operator referral.

X2 Portable Concentrate System

The X2 Spray System is an easy to use, lightweight system which instantly mixes water and a concentrate without the need to measure.

There is no need to revisit a box on the wall - simply add water when needed. It is particularly suitable for use in locations where a high level of hygiene is required, e.g. catering establishments and medical facilities.

The X2 Spray System uses patented technology to ensure the dilution of concentrated product remains accurate. Specially designed seals built into every cartridge prevent contact with the concentrate. As an added security measure, the X2 Spray System will only operate when both cartridges are locked into the system.

Simple To Use

- Insert the cartridge containing your chosen concentrated product into the rear position of the X2 Spray System. Turn the locking mechanism to securely hold the cartridge in place.
- Fill the water cartridge with cold water from the tap. Remember to keep this cartridge so you can reuse it every time.
- Insert the full water cartridge into the front of the X2 Spray System ensuring that the cartridge locks into place securely against the concentrated product cartridge.
- The X2 Spray System is now ready to be used. It can either be applied on a cloth, or directly onto the surface. Always follow the directions for use specific to the product you are using.
- When changing to another product, ensure that you discharge any remaining product in the trigger system before inserting and using the new product.

X2 EV2 Heavy Duty Cleaner

- Highly effective cleaner and degreaser.
- Ideal for kitchens.
- Suitable for equipment, surfaces, floors and walls.

4x325ml EV2/X2

X2 EV3 Surface Cleaner & Sanitizer

- Effective sanitizer for all hard surfaces.
- Tested to BS EN 1276, kills 99.9% bacteria in 30 seconds.
- Conforms to BS EN 5929 (1984) Triangle Taint Test.

4x325ml EV3/X2

X2 EV6 Bath & Washroom Cleaner

- Antibacterial and descaling.
- Conforms to BS EN 1276.
- Refreshing citrus fragrance.

4x325ml EV6/X2

X2 EV8 Window Cleaner

- Effectively cuts through atmospheric grime and nicotine sootings.
- Suitable for cleaning and polishing stainless steel.

4x325ml EV8/X2

X2 EV10 Perfumed Multipurpose Cleaner

- Versatile general purpose cleaner.
- Ideal for the cleaning of all hard surfaces and floors.
- Not suitable for polished floors.

4x325ml EV10/X2

X2 EV11 Bactericidal Perfumed Multipurpose Cleaner

- An effective 4 in 1 product which deodorizes, descales, cleans and sanitizes.
- Suitable for most hard surfaces where there will be no contact with food.
- Conforms to BS EN 1276.

4x325ml EV11/X2

X2 Sprayhead & Refillable Water Bottle

- Innovative concentrate system.
- Lightweight and portable.
- Just add water.

x1 EV/X2START

Ergonomic Trigger

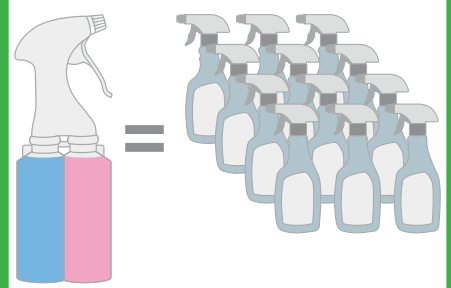

Designed to provide comfort and reduce the risk of repetitive strain when in use. The trigger is made from a high quality, durable plastic and has been extensively tested to ensure the spray head lasts significantly longer than a standard spray trigger.

Easy Lock System

Locking system and self-sealing bottle prevents any exposure to concentrates.

Each 325ml cartridge produces the equivalent of 12 standard 750ml ready to use trigger sprays

Mixxit Concentrates

The Mixxit System allows for concentrated chemicals to be diluted at point of use. Unlike conventional systems, Mixxit requires no water connections, plumbing or electrical supply.

The diverse range of Mixxit products make it a complete cleaning solution that is cost-effective and so easy to use. The simple dispensing method means you'll have a consistent cleaning solution every time.

Set Dosages

Product is dispensed one shot at a time to prevent over-use.

Easy To Use

Just add water and a measured shot.

Safety In Use

The system is available with a fully lockable cabinet mounted on the wall for safety.

Understanding Food Safe Surface Cleaners

Our food safe products do not contain fragrances so that there is no risk of tainting food or surfaces.

Never use a perfumed product where food is stored or prepared to ensure no risk of tainting.

Always read the directions for use before using a product to get the best possible result.

Machine Dishwashing Detergents

Gold Label Washaid

- A highly alkaline auto-dishwashing detergent.
- Suitable for both soft and hard water conditions.
- Helps prevent scaling of dishwashing machines even in hard water conditions.
- Effectively removes tea and coffee stains.

2x5L 020792X5
20L 20799

Red Label Washaid

- Designed for use through commercial and industrial machine dishwashers.
- Powerful formulation removes the heaviest of soiling.
- Used through Cleenol Automatic Dosing System (ADS).

2x5L 020803/5LRS
10L 020809RS

Yellow Label Washaid

- Low caustic suitable for use in septic tanks and reed beds.
- Safe for use on aluminium.
- Used through Cleenol Automatic Dosing System (ADS).

2x5L 020784/2X5RS
20L 020284RS

Blue Label Washaid

- It is suitable for the washing of crockery and cutlery in both hard water and soft water areas.
- The non-foaming liquid is designed for use only in machine dishwashers.
- Used through Cleenol Automatic Dosing System (ADS).

2x5L 020778/5RS
10L 020778/10RS
20L 020278RS

Universal Dishwash & Glasswash

- A non-foaming liquid designed for use in machine dishwashers and glasswashers.
- Specially designed for the washing of crockery, cutlery and glassware in both hard water and soft water areas.
- Used through Cleenol Automatic Dosing System (ADS).

10L 020473
20L 020469

Soft Water Washaid

- Effectively removes stains from ceramics, porcelain, china and crockery.
- Designed for use in soft water areas.
- Low foaming and suitable for use in all types of dishwashing machines.
- Not suitable for hard water unless a water softener is installed.

2x5L 020697/2X5
10L 020697
20L 020297RS

Dispenser Installation

Cleenol provides automatic chemical dosing equipment on a free loan basis for the duration of your contract for Pass-Through / Hood type machines and above (minimum of 12 months' supply is mandatory). This equipment will be calibrated for the selected product and for the water condition provided.

Where customers machines are installed and the availability of an integral dosing unit is available, we will connect this to the Cleenol product drum and calibrate to the water and wash conditions on-site. A Cleenol Guide to Effective Dishwashing will be installed.

All dishwashing operators and kitchen users will be informed of the new products being installed and on the use of personal protective equipment when replacing chemicals to the feed pipes of the dosing unit.

Dispenser Maintenance

Cleenol will offer a service supply maintenance agreement for the maintenance of the dosing equipment as part of the service package.

We will replace peristaltic pump heads and check wash results.

A trained Cleenol Service Support Technician will complete and provide a copy of the checklist to the Food & Beverage Manager, Head Chef or designated Head of Department, detailing the results and work carried out during the service visit.

Machine Dishwashing Rinseaids

Universal Rinseaid

- Suitable for use in machine dishwashers and glasswashers.
- Ensures the rapid drying of crockery to a streak-free, sparkling finish.
- Used through Cleenol Automatic Dosing System (ADS).

Manual Dishwashing

Dishwasher Tablets

- All-in-one solution.
- Combines detergent, rinse aid and salt in an individually wrapped tablet.
- Formulated for use in domestic dishwashers.

x100 022221/100

Granulite Salt

- For use in water softening units and for some dishwashing systems.

10kg 08318GRAN
 6x2kg 083193

Brickettes Salt

- For use in water softening units and for some dishwashing systems.

10kg 083180

Dishwasher Cleaner & Descaler

- Removes limescale, grease, fats and food.
- Also removes excess detergent build-up and grease from the machine pump and pipes.
- Helps increase efficiency and lifespan of the machine.

6x250g PLB1022

Cascade Dishwashing Powder

- Suitable for domestic and commercial dishwashing machines.
- Excellent food soiling removal properties.
- Manual dosing for controlled economy.
- Suitable for crockery, utensils and glassware.

12.5kg 031235

Descaler & Tarnish Remover

- Enables rapid penetration and removal of scale deposits.
- Effectively removes all forms of metal tarnish, hard water scale, rust from ferrous metals and even brightens aluminium and chrome surfaces.

2x5L 010392X5

Environmentally Friendly - Cleenzyme

Autofeed Drain Maintainer

- Contains a specially selected blend of concentrated non-toxic natural microbes.
- Effectively digest oils, fats, grease and other organic material blocking or impeding drainage systems or grease traps.

2x5L 083369UN

Non Rinse Floor Degreaser

- Natural enzymes effectively removes grease and fats from floors.
- Digests the grease to provide effective deep down cleaning of floors.
- Saves cleaning time - no rinsing required.

2x5L 083354

Enzyme Digester

- Removes stale odours from urine, vomit and food spills.
- For use on carpets, upholstery and fabrics.
- Concentrated formula.

2x5L 08284/2X5
6x1L 08284X/6

Enzyme Deodoriser

- Enzyme-based product which rapidly degrades organic material and odours.
- Suitable for soft furnishings and hard surfaces.
- Refreshing vanilla fragrance.

2x5L 083387
6x750ml 083407/750

Urinal Cleaner & Deodoriser

- Enzyme product which dispels urine odours from a variety of surfaces.
- Prevents the build-up of uric acid scale.
- Leaves a refreshing vanilla fragrance.

2x5L 083458
6x750ml 083399/750

Toilet Blocks

- An active biological urinal deodorizer and fresher.
- Enzymes break down the malodours often encountered in lavatories.
- Helps remove the solids that cause blockages and odours.

1.1kg 08290T

Helpful Bacteria

In the mid 19th century, a non hazardous "Gram-Positive" bacteria called *Bacillus Subtilis* was first discovered. The bacteria react to different nutrients (soiling/uric scale) by producing different enzymes, these enzymes break down organic soiling into harmless odour free by-products.

They are very stable in products and therefore have a long shelf life, all they require are the nutrients from soiling and moisture in order for them to get to work. For best results, use in a warm environment.

The Cleenzyme range has been specially developed to utilise this bacteria for a variety of cleaning applications, it is also environmentally friendly and safe for use in septic systems.

Bar & Cellar

Cabinet Glasswash - Universal

- Enhances the visual quality of cleaned glasses.
- For use in enclosed cabinet auto-glasswashing machines.
- Suitable for medium to hard water areas.

2x5L 021862X5

Purple Beer Line Cleaner

- A powerful blend of caustic alkalines and chlorine-based bleaching agent.
- Also contains a colour indicator to signify when the product is exhausted.

2x5L 0209PP

Clear Beer Line Cleaner

- A concentrated and highly effective cleaner for the maintenance of beer lines.
- Not for use in brass beer engines.
- Use only in diluted form and in cleaning containers supplied by the brewery.

2x5L 0209682X5

Liquid Machine Glass Renovator

- High alkaline formulation to renovate glasses, removing protein and fatty films which cause clouding.
- Effective in both hard and soft water conditions, and at low temperatures.
- Helps prevent scaling of dishwashing machines even in hard water areas.

2x5L 0207GRL

Glass Renovating Powder

- Formulated for the refurbishment of drinking glasses, especially to remove rinse aid film.
- Ideal for pre-treatment of new drinking glasses to remove all traces of chemicals used in glass manufacture, especially the mould release agents.
- Improves head retention and lacing of beer.

10kg 029635

Did you know?

Beer line cleaners are specially designed to clean and maintain beer lines running from the barrel to the tap.

It is very important to follow the directions for use on the label or product use guide to ensure you properly use these products and to flush them properly so that no product residue remains before using pumps.

Detergents & Washing Up Liquid

Germicidal Detergent 20%

- A manual high active 20% pot washing detergent.
- Contains an effective bactericide to kill micro-organisms and prevent cross-infection.
- Incredible degreasing properties.
- Complies with BS EN 1276 with a 5 minute contact time.

2x5L 021722X5
20L 021721/20

Imperial Bactericidal Detergent

- A low foaming blend of biodegradable detergents and approved bactericide.
- For use in all catering establishments for the effective cleaning/sterilisation of utensils and work surfaces.
- Complies with BS EN 1276 with a 3 minute contact time.

2x5L FS2018/2

High Active Detergent 30%

- A high quality concentrated 30% active detergent to effectively break down food soils, leaving crockery and cutlery squeaky clean.

2x5L 021502X5

Concentrated Detergent

- Designed for commercial contract manual dishwashing.
- A high active 20% green detergent that out-performs standard detergents.
- Concentrated formula for increased economy.

2x5L 021432X5

White Spot Detergent

- A high quality, concentrated 20% active detergent for the hand dishwashing of cutlery and crockery.
- Ideal for large sink areas in catering and kitchen locations where economy in use is required.
- Invigorating lemon fragrance.

2x5L 021412X5

Chisel Washing Up Liquid

- Extra high strength with a long-lasting foaming action.
- Orange oil boosts grease-cutting powers.
- Free rinsing and fully biodegradable.

2x5L SPD1379

Washing Up Liquid 15%

- An effective 15% hand dishwashing detergent for washing up crockery and utensils.
- An effective 15% hand dishwashing detergent for washing up crockery and utensils.

2x5L 020822X5
12x1L 02082X

Liquid Detergent 10%

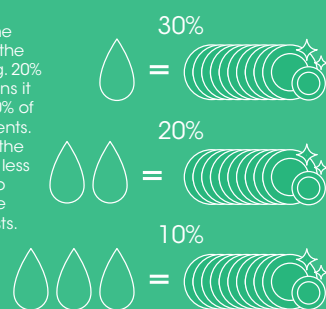

- A multipurpose highly effective 10% hand dishwashing detergent produced to complete the range.
- A low-cost powerful performance product.

2x5L 020852X5

WHAT DOES ACTIVITY MEAN?

Activity is the strength of the product e.g. 20% active means it contains 20% of the ingredients. The higher the activity, the less you need to use and the longer it lasts.

Descalers & Tarnish Remover

Descaler & Tarnish Remover

- Enables rapid penetration and removal of scale deposits.
- Effectively removes all forms of metal tarnish, hard water scale, rust from ferrous metals and even brightens aluminium and chrome surfaces.

2x5L

010392X5

Descaler PA

- A phosphoric acid based descaler and detergent.
- For cleaning and brightening stainless steel equipment.
- A general descaler for tanks, pipes, heat exchanges, etc.

2x5L

CB269/5

Concentrated Acid Descaler - Brick & Patio Cleaner

- An extremely effective acidic material designed to remove limescale, rust and concrete deposits.
- Ideal for cleaning building equipment.
- Ideal for cleaning building equipment.
- Contains a corrosion inhibitor to help protect most nonferrous metals, brass and bronze.

2x5L

083062X5

Tannin Remover

- A multi-component powder designed for the removal of tea and coffee stains.
- For use on china, plastic, melamine, stainless steel, chrome and most metals (except aluminium).

10L CRAQ10
20L CRAQ20

Crystalbrite Destain Premium 35%

- A concentrated solution of hydrogen peroxide.
- Colour safe and effective on proteins.
- Works at washing temperatures of 40°C+ at which point it releases an oxygen-based bleach to enhance white fabrics.

10L CRDESTAIN35/10
20L CRDESTAIN35

Crystalbrite Care Fabric Conditioner

- Leaves clothes fresh and soft.
- Contains a built-in antistatic agent.
- New longer-lasting fragrance.

2x5L CRLD3/5
10L CRLD3/10
20L CRLD3/20

Crystalbrite Alkaline Boost

- A liquid laundry alkaline detergent booster.
- Use in conjunction with laundry liquid to effectively boost cleaning performance.
- Eliminates the need for separate pre-soaking.

10L CRLDP/10
20L CRLDP/20

Energy Saving Systems

Our specially designed system for water, energy and time savings.

Water Saving

Incredible cleaning power means you could reduce your water usage by up to 25% per wash.

Time Saving

Cycle times are reduced as the water used during the wash is not heated.

Energy Saving

By washing at 30°C rather than 60°C, a saving of around 65% (cold fill) or 70% (hot fill) is achieved in energy costs.

Laundry Liquids

Crystalbrite Active Laundry Liquid

- A synthetic non-biological liquid detergent with effective stain removal properties.
- Leaves clothes clean, soft and fresh.

10L

CRLD1/10

Crystalbrite Supreme Fabric Conditioner

- Concentrated formulation that leaves clothes feeling both fresh and soft.
- Persistent Fragrance Technology slowly releases fragrance long after washing and drying.
- Contains a built-in antistatic agent.

- Contains a built-in antistatic agent.
- Long-lasting jasmine fragrance.

10L

CRLDX/10

20L

CRLDX/20/13404

Crystalbrite Low Temperature Destain

- Oxygen-based low temperature liquid destainer.
- Removes stains at temperatures as low as 20°C.
- Saves energy and reduces wash times.
- Suitable for both white and coloured fabrics.
- Complies with BS EN 1276 and BS EN 1650.

10L

CRLTD/10

Crystalbrite Laundry Oil Emulsifier 30%

- Added to the main wash to break down oils and fats.

20L

085778/13404

Crystalbrite Laundry Sour

- Designed for use in commercial laundries and suitable for any fabric.
- Used in final rinse to neutralise alkali present in rinse-water and on fabric.
- Helps prevent yellowing and fabric damage.

20L

CRSOUR/20/13404

Automatic Dosing System (ADS) For Crystalbrite Laundry Liquids

The Cleenol ADS is an automatic dosing system that feeds liquid laundry chemicals from the drums via a wall mounted pump feeding directly into the laundry machine at the correct point of the wash/rinse cycle. It ensures the correct dosage for any chemical to be dispensed for any given stage within the wash process.

Cleenol Service Support Team

Cleenol provides a National Service Support Team of Engineers to install, commission and calibrate auto dosing equipment. Our engineers also provide regular service check-ups and service reports.

Did you know?

Bleach is a powerful cleaner and disinfectant. It is highly effective in killing off infectious bacteria and viruses, but you need to use it properly:

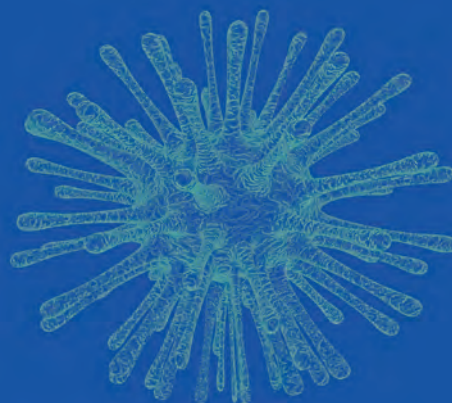

Read and follow the instructions provided in the label, Safety Data Sheet and Product Use Guide supplied by us

Follow the recommended dosage

Using too much of a bleach can damage the surface or fabric you are cleaning

Do not mix hypochlorite bleach with other cleaning products

The reaction between several products can release toxic fumes.

Sanitizing Tablets & Wipes

Sanitizing Tablets

- For surface sanitizing and washing of salads.
- Provides a consistent level of chlorine in bacteria killing operations.

6x180 062534/6

Hi-Power Sanitizing tablets

- Chlorine-based disinfectant tablets.
- More convenient and safer to use than traditional liquid hypochlorite bleach.
- Dissolves easily with an effervescent action.
