Biolos R1 hand dryer stands out with its attractive design, ecologic functionality and many other advantages

Thanks to the high speed airflow from both sides of the dryer, the hands get fully dried in no longer than 10 seconds.

water collection reservoir

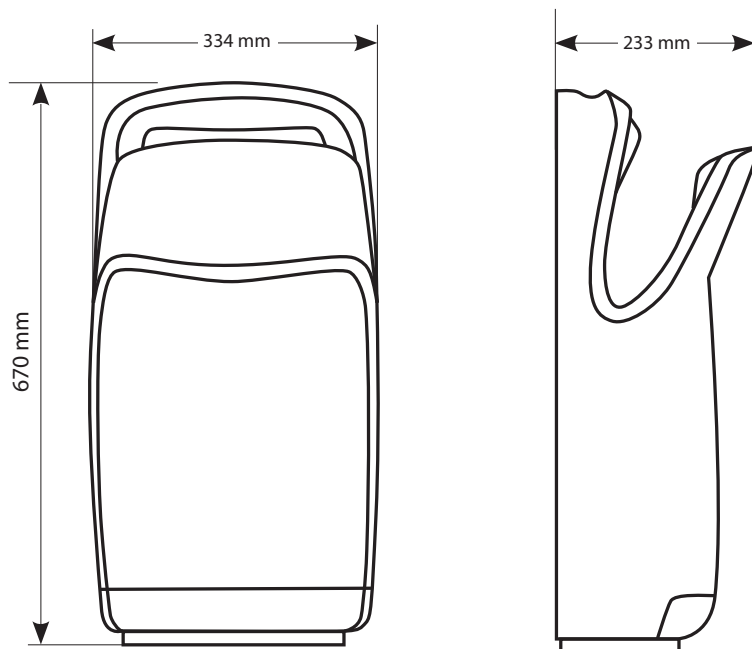

HEPA filter

The R1 dryer is contact free. The dryers shape is designed for water droplets not to drip on the user's clothes or on the floor, so the surroundings remain clean and dry.

Biolos R1 hand dryer

Dimensions

Specifications

dimensions (WxLxH)	334 x 233 x 670 mm
weight	± 9 kg
input voltage	220~240 V
automatic switch-off	after 20 seconds
thermal cut-off	≥ 80°C OFF
frequency	50/60 Hz
power voltage	1000/700 W
motor Speed controller	2 steps speed adjustable
rpm	30.000
air speed	617/547 km/h
noise level	less than 80 dB(A)
activation	contact-free
body	ABS Fire protection 94VO, PC, PMMA, surface UV spray, ION PURE® antibacterial coating
certificates	CE/GS, EMS, ETL, CCC
guarantee	5 years
