

# Supershine Gold Finishing Pad

**Coor & Kleever Supershine Gold finishing pad** can be used for all calcareous floors, marble, terrazzo, polished concrete and other types of flooring. It gives the floor a spectacular brightness, leaving it as a mirror. You only need water, a rotating machine, and that's it!

Premium Floor Care Products Since 1962 - Coor & Kleever, S. A. Brusi, 102 - Barcelona 08006 Telf - 00 34 93 209 08 00 - www.coorkleever.com - Facebook: Coor Kleever

# How does it work?

### Supershine Gold finishing pad.

It can be used after polishing, crystallization or other procedures, always as a final step. Place the **Supershine Gold finishing pad** in your buffing machine, pour water and buff the surface until a deep sheen appears. *All calcareous floors.* 

### Advantages:

No chemicals, just water Last at least 2,5 times longer Thicker and stronger 20 mm pads Open weave provides self cleaning Consistent finish in all surfaces Proven long lasting results No need to close large areas when working Not labour intensive / reduces cleaning times No specialist contractors or manpower needed No need for new machinery

Works with: Scrubber driers UHS Burnishers over 50kgs Propane burnishers Single Head Machines over 40kgs Oscillating machines

# Every floor! Every machine!

## SUPERSHINE DIAMOND PADS New engineered versatility.

The biggest and most abused floors are no barrier for Supershine Diamond Pads! There is no need to alter your program. Works with all the machines in the market! Just fit the appropriate pad onto your scrubber or burnisher and go!

Suitable for Airports, Superstores, Hospitals, Hotels, Schools or High tech production plants. If the surface is right, Supershine Diamond Pads from Coor & Kleever will mantain and polish it.
