WHO AND WHERE WE ARE

We observe how
nature cleans and
behaves in order to
produce our products

A&B Laboratorios de Biotecnología S.A.U. was established in 2001 as a company based on biotechnology whose activity consists in research, design, manufacture and commercialisation of innovative chemical and biological products to provide effective solutions to cleaning, disinfection, industrial maintenance and water treatment sectors.

Combining **Clean Technologies** and **Biotechnology** with our commitment to customer service makes us become a reference of the market providing innovative, efficient, effective and environmentally friendly products which enhance safety in use and favour compliance with regulations and legislative restrictions applicable to our clients.

A&B Laboratorios de Biotecnología is part of the **ABG-Biotech Holding**, in which **Guserbiot** is also a member and is dedicated to produce raw material of biological origin.

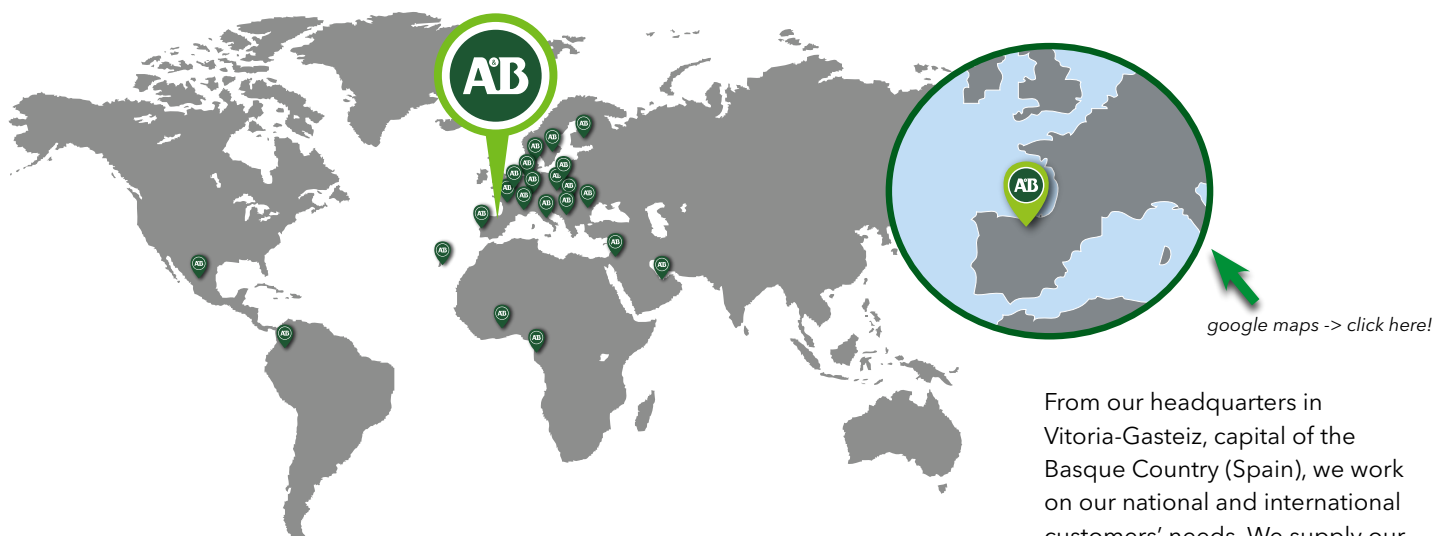

Since our founding in 2001, we have constantly grown and innovated thanks to our great team and outstanding facilities with three research laboratories (physicochemical, instrumental and biotechnological).

All this allows a continuous development of new products and a great technical and commercial assistance in the shortest time possible for all our clients.

ABGbiotech
A solid and strong group

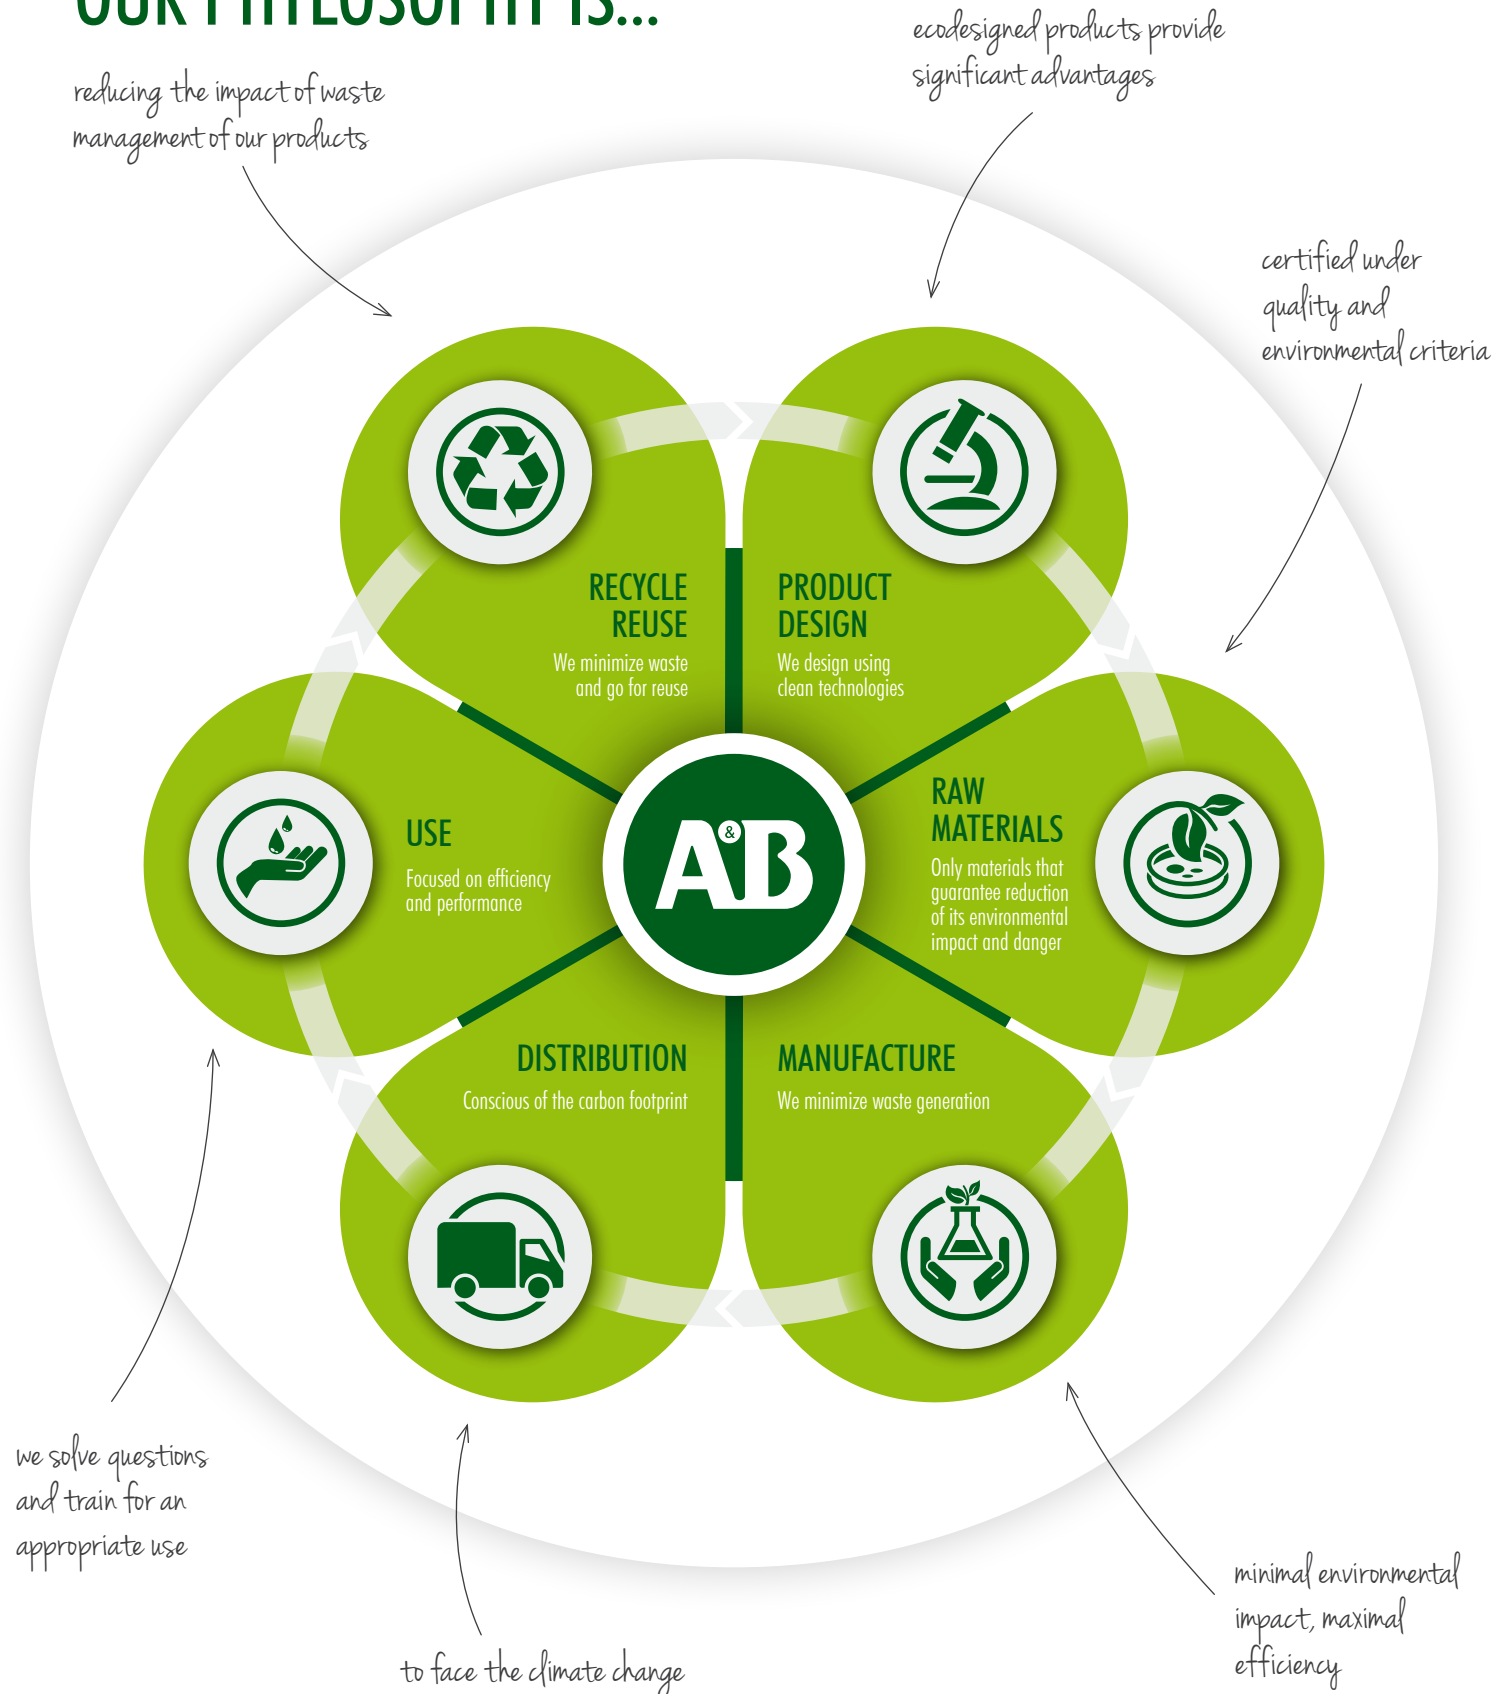

Guserbiot

From our headquarters in Vitoria-Gasteiz, capital of the Basque Country (Spain), we work on our national and international customers' needs. We supply our products to over 20 countries.

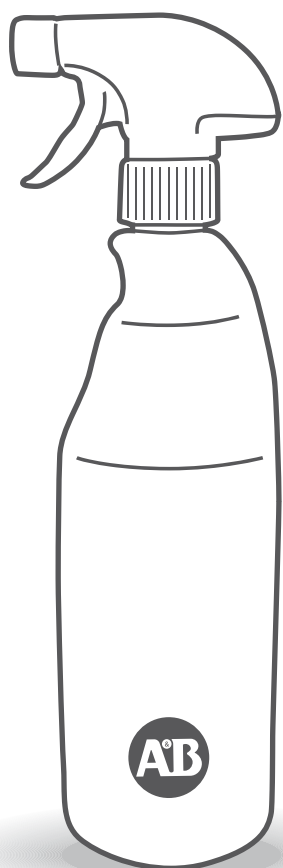

OUR PHYLOSOPHY IS...

...OUR WINNING FORMULA

WHY ARE WE DIFFERENT?

Biotechnology + Green Chemistry + Ecolabel + Ecodesign

BIOTECHNOLOGY

Enzymes and microorganisms selected and produced in our laboratories. NON genetically modified organism

GREEN CHEMISTRY

Environmentally friendly and safe raw materials

ECOLABEL

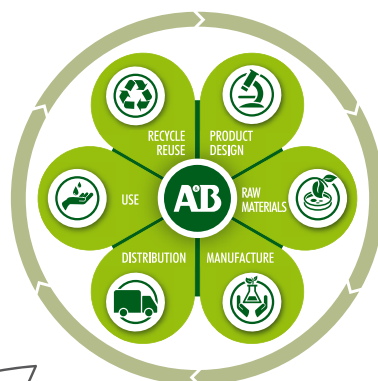

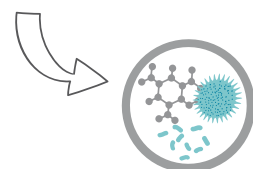

It takes into account the product's environmental criteria

ECODESIGN

Strict environmental and safety criteria in all of its life cycle

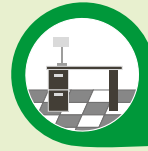

smartcleaning

Suitable for ALL TYPES of surfaces - One single product, several solutions

CERTIFICATED PRODUCTS

ECODESIGNED PRODUCT

The product is developed with environmental improvements in all its life cycle to reduce its environmental impact. Designed under ISO 14006

PRODUCT WITH BIOLOGICAL INGREDIENTS

PRODUCT WITH ECOLABEL

The product has been awarded the European Ecolabel

PRODUCT THAT ITS CARBON FOOTPRINT WAS CALCULATED

PRODUCT WITH NSF CERTIFICATION FOR ACCIDENTAL CONTACT WITH FOODSTUFF

WATER BASED PRODUCT

PRODUCT WITH EUROPEAN BUSINESS AWARD FOR THE ENVIRONMENT

PRODUCT WITH CERTIFICATE OF APPROVAL AS A DISINFECTANT FOR THE FOOD INDUSTRY

THE PRODUCT DOES NOT CONTAIN VOLATILE ORGANIC COMPOUNDS IN ITS COMPOSITION

WHY DO WE DO EVERYTHING?

QUALITY CONTROL

We control all the phases of the production process to guarantee the maximum quality at all times.

FLEXIBILITY

We adapt to our clients' needs with formulations, container formats and custom-made applications.

CONTINUOUS IMPROVEMENT

We improve and adapt the production process based on our clients' indications.

QUICK DELIVERY

We send our products in less than 48 hours.

INTERNATIONAL RECOGNITION

At A&B we innovate
for everybody's
benefit

We are working for a better world. At A&B Laboratorios de Biotecnología we have a clear sustainable development strategy, minimizing the consumption of energy resources and hazardous raw materials and environmental improvement of products under the **ecodesign** methodology.

Currently we are the leading company in our sector in the ecodesign of chemical product field and a major Spanish manufacturer with **Ecolabelled** industrial products.

- First company in the Spanish chemical sector to be certified in **Ecodesign**.
- First company in the Basque Country to obtain a **European Ecolabel**.
- First company in Spain to be certified in **quality, environment, ecodesign and R&D&I**.

Continuous improvement

Our Integrated
Management System
comprises all processes
certified by AENOR

At **A&B Laboratorios de Biotecnología** we establish periodic objectives and challenges and integrate R&D&I management with ecodesign in our production.

QUALITY MANAGEMENT

ISO 9001 Certificate No. ER-1475/2001

ENVIRONMENTAL MANAGEMENT

ISO 14001, Certificate No. GA-2005/0064

R&D&I MANAGEMENT

UNE 166002, Certificate No. IDI-0013/2005

ECODESIGN MANAGEMENT

ISO 14006, Certificate No. ED-0003/2007

A REWARDED EFFORT...

A&B Laboratorios de Biotecnología has been awarded four times at the **European Business Awards for the Environment**, awards organised biennially by the Directorate General for Environment of the European Union (DG ENV). These Awards **recognise and reward those companies that stand out for their environmental performance** and contribution to a sustainable economic development by management innovation, products and services, processes, international cooperation or combining business with biodiversity.

For **A&B Laboratorios de Biotecnología** the fact of being awarded in several editions is a great public recognition for the work and effort made as a team, which have adopted innovative solutions and have achieved benefits for the sustainable development.
