

skyVac™

With over fifty years' combined experience in high-level cleaning equipment, Spinaclean is renowned as one of the most innovative businesses within the international cleaning industry.

Designed by Andy Whiting in 2003, Spinaclean developed the brand SkyVac – a ground-breaking product that makes high-level cleaning safe, efficient and economical. The bespoke and specially modified system is the leading selling product of its kind and today is the world's most powerful free-standing gutter cleaning machine.

Firmly established in over 35 countries it has now also successfully evolved into an internal high-level cleaning system.

World's First Carbon Fibre Telescopic Vacuum Pole

Safe:

Reaches up to 40ft from the ground with one operative, our system eliminates the risks associated with working at height

Provides a safer, cleaner environment

Efficient:

SkyVac utilises the lightest and most manageable carbon fibre poles: only 186 grams per metre thereby reducing operator fatigue

Reaches awkward areas that scaffolding and other access systems cannot reach

Economical:

Reduces the cost of hire and delivery of high level access equipment

Reduces training costs associated with working at height

- Carbon fibre suction poles
- Lightest pole system at 186 grams p/m
- On board camera system for precision cleaning

Carbon Fibre Poles

Rigid Neck Accessories

NEW

Elite Gutter Cleaning Poles

- Lightest weight to size ratio in the gutter cleaning market
- Only 186 grams per metre
- Fully adjustable clamp mechanism

Our poles are made of advanced ultra light weight and extremely strong material found in aerospace equipment and super cars

Lightweight super strong carbon fibre construction

Internal tools

Internal tools for precise cleaning action in environments susceptible to dust

External tools

Designed specifically for removing heavy soiling in gutters

EXTERNAL SYSTEMS

skyVac™

An Innovation in Gutter Cleaning

Our specifically modified, time efficient, high-level gutter cleaning systems have been specially developed for outdoor robust work. This replaces the requirement for expensive, inflexible and often undesirable time consuming cherry pickers and scaffolding.

SkyVac Commercial 75 (Wet & Dry)

User friendly system ideal for commercial and domestic gutters

KEY FEATURES

- Two industrial strength vacuum motors giving huge suction power of 100 inches of water lift
