

A Press release from Vileda Professional

Innovative cleaning systems for Controlled Environments

Vileda Professional is a world leader in manufacturing innovative cleaning and disinfecting systems used within Controlled Environments (CE) & Cleanrooms with focus on Pharmaceutical, BioPharma and Medical Device industry. Facilities that are manufacturing products and adopting a contamination control program now have a resource! Vileda Professional offers solutions that help you clean faster and more effectively while lowering your total costs! With Vileda Professional's investments within Research and Development, we are dedicated to providing the most innovative and effective cleaning solution available in the industry.

In Controlled Environments, 0.5-micron particles can cause a major disaster. Expensive downtimes, waste of production batches and increased production costs can be around the corner. But not with the right cleaning solutions from Vileda Professional.

First we analyse and establish your facility's needs, then we provide you with complete systems and solutions for maximum cleaning performance and contamination control – with lower total cost-in-use. Be sure that all systems meet business standards and practices, such as ISO 14644-5, IEST RP CC018 and life science GMPs.

So let us take care of the 'micronic' enemies – so you can grow production instead of contamination.

Today Vileda Professional's Controlled Environment range covers floor-cleaning solutions such as MicroControl, CE Duo, Roll-O-Matic, Foam flat mops which all fit on a functional and versatile CE trolley range. Additionally Vileda Professional provides CE wipes and sponges based on unique and patented own technologies.

The latest development is the CE UltraSpeed Pro™ system. It was developed to be simple to use, flexible enough to clean difficult areas and offer maximum cleaning performance in cleanroom applications up to ISO 4-9/GMP A/B, C, D. It is a comprehensive floor cleaning system that sets new standards in usability, versatility, efficiency and ergonomics. The benefits can be summarized in a single phrase: performance made easy!
