

FalconBrush

**HIGH PERFORMANCE
BRUSHWARE**

HIGH PERFORMANCE QUALITY TOOLS

We have been manufacturing quality products since 1924

The demand for high-quality brushes came from the cleaning sector. Ergonomics and solidity were the basic requirements. It needed a sturdy brush block with efficient fibres that are resistant to chemicals. Safebrush is Falconbrush's response, with high-performance brushes for industrial and non-food use.

The yellow and black colour combination is characteristic of their sphere of application, where safety colours are a must. The lifespan and resistance of the PBT fibres under intensive and extreme use are particularly suitable for this task.

Our handles with 32mm grip ensure an ergonomic use. A must-have in heavy duty cleaning.

By using Safebrush, you save the sea

The brushblock consists of high quality recycled material, derived from plastic that ends up in the sea. This is an important step towards the use of fewer new raw materials and contributes to the circular economy.

The number of recycled plastic bottles is indicated with a bottle icon for each product in this catalogue. The goal for the future is, of course, that we work towards 100% recycled material for all products.

Performance in maintenance and in the environment, that's Safebrush.

Where tradition and technology meet...

FalconBrush has been designing and selling brushes for almost 100 years, nowadays from its production facility in Izegem, the historic heart of brush-making in Belgium.

Today, we use sustainable technologies and materials to produce our brushes, guaranteeing top quality for our premium label.

High performance brushware

FalconBrush offers a comprehensive range of products that are ideal for many different sectors: carwash, industry, transport and automotive, shipping, emergency services (fire brigade, police), road works, cleaning companies, agriculture, construction, non-food retail...

5S

of FalconBrush

**DESIGN YOUR CUSTOM
SHADOW BOARDS
ON OUR WEBSITE**

The 5S System

A simple process to create a safer, cleaner and well-organised workplace through order and standardisation.

1. SORT

The first step of 5S, Sort, involves going through all the tools, furniture, materials, equipment, etc. in a work area to determine what needs to be present and what can be removed.

2. SET IN ORDER

Organize into designated colour coded zones. Once the extra clutter is gone, it's easier to see what's what. Now work groups can come up with their own strategies for sorting through the remaining items.

3. SHINE

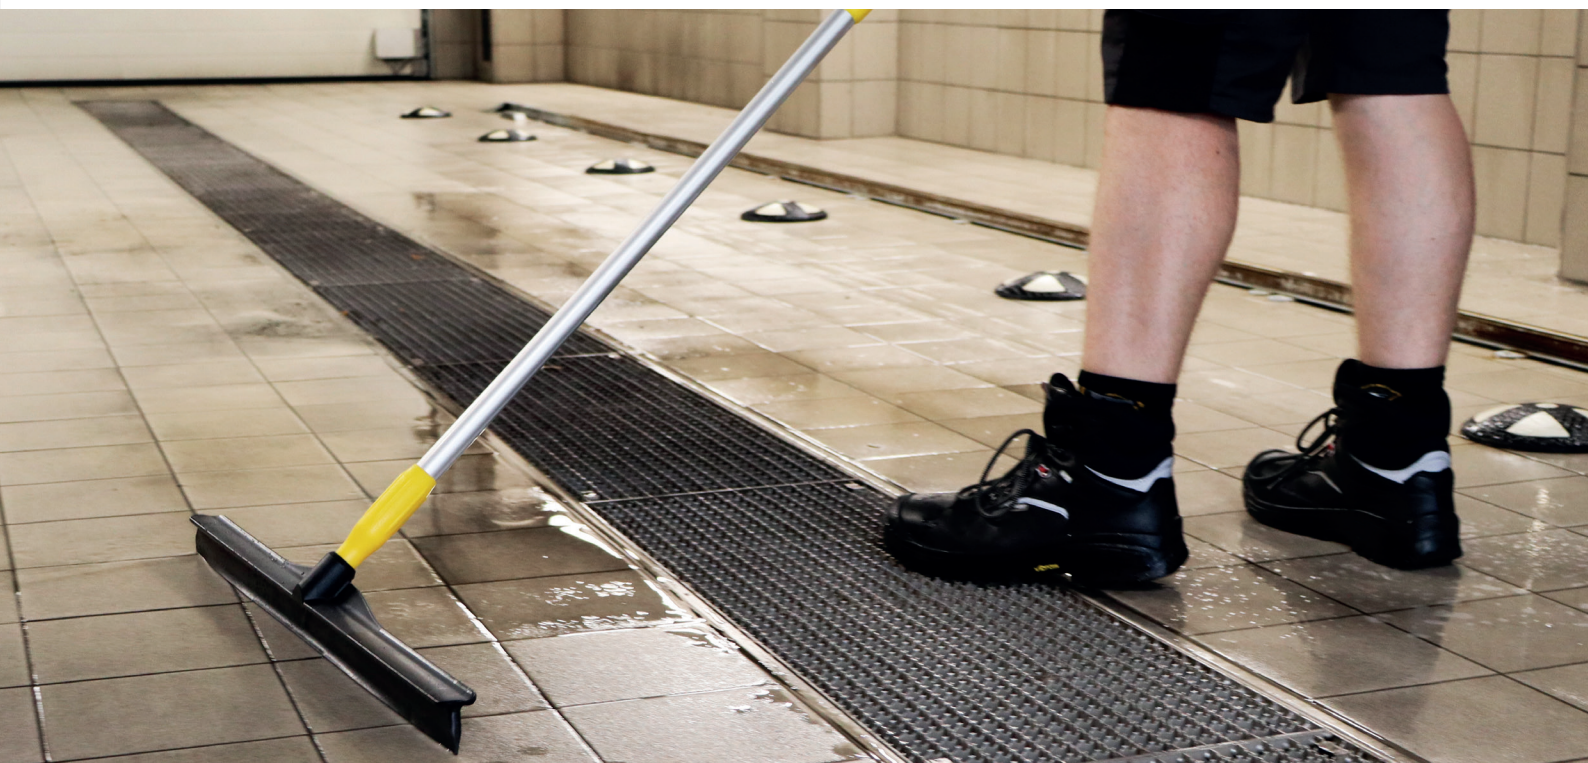

Carry out regular cleaning and maintenance. The Shine stage of 5S focuses on cleaning up the work area, which means sweeping, mopping, dusting, wiping down surfaces, putting tools and materials away, etc.

4. STANDARDISE

Set out cleaning and maintenance procedures. Once the first three steps of 5S are completed, things should look pretty good. All the extra stuff is gone, everything is organized, spaces are cleaned, and equipment is in good working order.

5. SUSTAIN

Ensure standards are followed. Sustain refers to the process of keeping 5S running smoothly, but also of keeping everyone in the organization involved.

Chemical resistance data

Resistance Key: G = Good F = Fair P = Poor N = No

Chemical	Concentration %	Nylon 66	Polyester PBT	Polypropylene	PVC

INDUSTRY HEAVY DUTY BROOM

SBST30	300 x 55 x 135 mm	PBT 1,00 mm	75mm	8	12
SBST40	400 x 55 x 135 mm	PBT 1,00 mm	75mm	6	15
SBST50	500 x 55 x 135 mm	PBT 1,00 mm	75mm	6	19
SBST60	600 x 55 x 135 mm	PBT 1,00 mm	75mm	6	23

INDUSTRY SCRUBBER

SBSC30	300 x 55 x 95 mm	PBT 0,50mm	35mm	12	12
SBSC40	400 x 55 x 95 mm	PBT 0,50mm	35mm	15	15

INDUSTRY BI-LEVEL SCRUBBER

SB9010	250 x 55 x 95 mm	PBT 0,50mm	40mm	2
--------	------------------	------------	------	---

The Bi-Level scrub is a scrubbing brush specially designed to be able to brush every corner. Due to the shape, it is ideal for cleaning hard-to-reach areas: under work tables, under machines, in corners, on walls, skirting boards

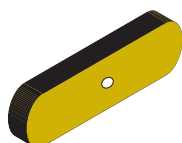

H2O SINGLE JET

SB1092P 260 x 75 x 110 mm PBT flagged 0,25mm

60mm 8 10

Perfect match with H2O waterflow handle

H2O WATER TROUGH TUFT

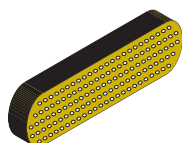

SBWAPBT25 250 x 90 x 120 mm PBT flagged black 0,25mm

55mm 7 10

PREVENTS GRINDING: Water flows through tuft holes.
Dirt and sand are continuously washed out of each one of the tufts.

Perfect match with H2O waterflow handle

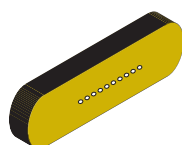

H2O BI-LEVEL MULTI JET

SBBILEVSOFT 250 x 160 x 110 mm PBT flagged 0,25mm

55mm 2

Perfect match with H2O waterflow handle

TOP brush to clean solar panels and cars.
