The ultimate concentrate system for professional automatic dishwashing

What is Indupock?

Indupock is an innovative concept indicated for the professional automatic dishwashing, obtaining excellent washing results.

This system is studied to obtain the maximum benefit generating the minimum residue. In this way Indupock contributes actively to sustainability and respect for the environment.

Savings and benefits

- Increase in profit and savings
- Maximum profitability in the processes
- Maximum use of the product
- Cost savings in use

Safety

- Overdoses
- Spills and drips
- Product contamination
- Maximum safety in use
- Full Proof connector of CPC

Sustainability

- Reduction of the carbon footprint (Less CO2 emissions to the atmosphere)

+ Benefits

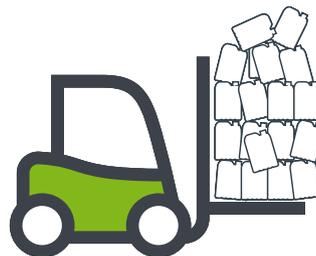

- Easy application, handling and storage
- Ergonomics
- Technology and Design

Connector
