Looking back at ourselves

with Rain Eco 2S and 3

The use of plastic umbrella bags **will be banned** starting from 2022 at buildings occupying a space of **at least 3,000m²** in Korea.

▲ It's difficult to recycle plastic umbrella bags because they get wet

▲ Microplastics spread across 5 Oceans

Protecting ourselves

with Rain Eco 2S and 3

You can see Rain Eco 2S used at many government offices, major corporations and religious facilities in Korea.

Rain Eco 2S is **the only umbrella** dryer that has passed government's rigorous evaluation process and is **supplied to Seoul Metropolitan Rapid Transit Corporation**.

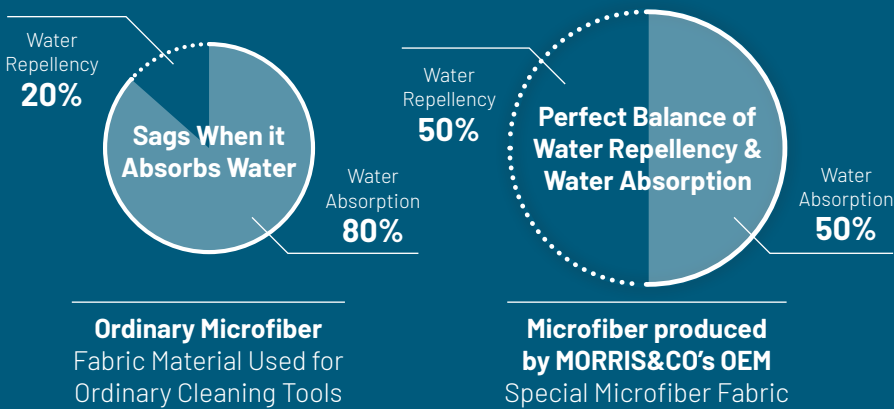

Rain Eco 2S installed at spacious places like subway stations and Seoul City Hall.

Rain Eco 3 for places with limited spaces like restaurants, cafes and commercial buildings
