TOPFORMULA⁺

THE NEW LINE OF ALLEGRINI
PROFESSIONAL SUPER
CONCENTRATED DETERGENTS.

The result of new investments in the search for excellent raw materials, the TopFormula⁺ line is much more than a new range of detergents: with innovative cutting-edge formulas, tested for high performance, it is ideal to meet the needs of the most demanding customers. Its conception was designed down to the smallest detail by a real pool of professionals in the sector: the Allegrini Research & Development laboratories, in collaboration with university professors and IT engineers, thought of boosting the cleaning and hygiene performance through FMX, a sophisticated 12 detergent dilution system that completes Allegrini's top-class offer.

Indicated for:

- hotel chains
- restaurant chains
- health structures
- shipping companies

ADVANTAGES

- correct dilution of 12 detergents, each for a specific need
- information on each individual product thanks to the touch-screen monitor
- control of the quantities taken, thanks to the operator identification by badge
- 95% reduction in packaging
- lower environmental impact
- optimization of costs and consumption
- remote monitoring of consumption and billing
- improvement of the standard of cleanliness
- assistance, training and periodic checks

FM

THE LINE OF CONCENTRATED
DETERGENTS FOR THE BEST VALUE
FOR MONEY.

The selection of products in this line covers the main cleaning needs, ensuring excellent results in all areas thanks to the use of FM5, the dilution system specially designed to dilute this range. FM5 was elected winner of the "Smart Label" award at Host 2015, the International Professional Hospitality Exhibition, for the innovative way it is used, the technologies and the benefits for users.

Indicated for:

- medium-large hotels and resorts
- restaurants with a high seating capacity
- hospitals and nursing homes
- large cleaning companies

ADVANTAGES

- correct dilution of 7 must-have detergents
- best quality/price ratio: significant reduction in the price of the ready-to-use bottle
- practical and simple to use
- 95% reduction in packaging
- lower environmental impact
- optimization of costs and consumption
- improvement of the standard of cleanliness
- assistance, training and periodic checks

ECOLOGICALL

THE NEW LINE THAT IS NOT ONLY ECOLOGICAL IN ITS NAME.

Expression of a green philosophy that has always been inherent in the entrepreneurial spirit of Allegrini, EcologicAll is the range of ecological detergents compliant with CAM criteria, the requirements aimed at identifying the best product from an environmental point of view throughout its life cycle: from packaging to formulation. In Italy, CAMs are defined in the National Action Plan on Green Public Procurement (PANGPP) and adopted with the 2012 Decree, for the civil sector, and the 2016 Decree for the health sector, by the Minister of the Environment for the Protection of the Territory and Sea. The conformity report for each product of the EcologicAll line has been released by an ISO 17025 accredited laboratory operating in the chemical sector.

Indicated for:

- green hotels and ecofriendly hotels
- restaurants
- hospitals and nursing homes
- cleaning companies
- schools, offices and public buildings

ADVANTAGES

- ecofriendly formulations with excellent performances
- wide choice of detergents: also ready for use
- recycled packaging
- respect for the environment

ECOLABEL

THE GREENEST LABEL IN EUROPE FOR AN EXCLUSIVE SELECTION OF DETERGENTS.

The Ecolabel line is the range of ecological detergents formulated by the Allegrini Research & Development laboratories in order to meet the brand criteria defined at European level.

The life cycle of detergents awarded the greenest label in Europe respects the environment in every phase, reducing the environmental impact in terms of energy consumption, pollution, waste production, saving of natural resources, environmental safety and protection of soils.

ADVANTAGES

- ecofriendly formulations with performances comparable to the same class of non-ecological products
- the range includes ready-to-use products
- top products for the professional dishwasher
- attention to packaging: weight/utility ratio, specifications on the materials used
- respect for the environment

THE SERVICE

PARTNERS TO PARTNERS.

Alongside the product offer, Allegrini encourages a close collaboration with the customer: from listening to their needs to the design of a tailor-made proposal, entirely made in Italy.

Inspection, consultancy, supply of accessories and equipment, training, technical assistance and periodic checks complete Allegrini's services, enhancing each product line.

The result is a partnership directed towards quality and customer satisfaction.
