ECOLABEL LINE

The Ecolabel line is the range of ecological detergents formulated by the Allegrini Research & Development laboratories in order to meet the brand criteria defined at European level. The life cycle of detergents awarded the greenest label in Europe respects the environment in every phase, reducing the environmental impact in terms of energy consumption, pollution, waste production, saving of natural resources, environmental safety and protection of soils.

ECOLABEL VETRI

Non-rinse liquid detergent with a base of surfactants of natural origin, with excellent emulsion properties for dirt. It guarantees efficient cleaning without leaving streaks. Particularly suitable for the washing of windows, mirrors and glass.

Available packaging and code:

Box of 12 bottles - 810ml each - 016ELVS7512

pH

0 1 2 3 4 5 6 7 8 9 10 11 12 13 14

ECOLABEL SGRASSATORE CONCENTRATO

Low-viscosity liquid detergent with a high level of cleaning power. Used daily it removes all stains, guaranteeing impeccable results.

The special formula renders this product universal, ideal for a vast range of surfaces such as plastic, hard and painted surfaces, and surfaces in stoneware, formica, marble and steel. In the recommended dilutions, the dermo-protective substances render it safe and non-irritating for hands.

Available packaging and code:

Box of 4 containers - 5L each - 016ELSC0020

pH

0 1 2 3 4 5 6 7 8 9 10 11 12 13 14

ECOLABEL DISINCROSTANTE WC

Organic-acid based detergent for the daily cleaning of toilets and urinals. The viscose formula allows the active ingredients to adhere evenly to vertical surfaces in toilets and urinals guaranteeing complete cleaning.

Available packaging and code:

Box of 12 bottles - 1030ml each - 016ELDW1012

pH

0 1 2 3 4 5 6 7 8 9 10 11 12 13 14

ECOLABEL DETERGENTE ANTICALCARE

Organic-acid based liquid detergent which is ideal for the removal of limescale, dirt and soap residues from hard and enamelled surfaces, taps, toilets, showers, etc. It restores the shine to surfaces, leaving a fresh and clean fragrance.

Available packaging and code:
Box of 4 containers - 5L each - 016ELAC0020

ECOLABEL PIATTI

Liquid detergent for the manual washing of dishware. Contains highly foaming and degreasing surfactants of natural origin with an excellent dampening effect and dispersive power against dirt. In the recommended dilutions, the presence of dermo-protective substances, and the products neutrality, render it safe and non-irritating for hands.

Available packaging and code:
Box of 4 containers - 5L each - 016ELPI0020

ECOLABEL STOVILMATIC

Ecological controlled-foaming liquid detergent with elevated degreasing power, which guarantees the complete cleaning of plates, cutlery, pots and glasses. It easily eliminates dried residual food and all kinds of dirt, leaving dishware perfectly clean. Its elevated degreasing power ensures a perfect rinse without leaving residue or streaks.

Available packaging and code:
Box of 4 containers - 6Kg each - 016ELST0024

ECOLABEL BRILLMATIC

Ecological rinse and drying aid which allows for the perfect drying of dishware by facilitating the running-off of water and inhibiting the formation of marks, lime scale stains and white streaks. It acts during the rinse cycle, guaranteeing sparkling and dry dishware every time, restoring plates and glasses to their original splendour. Formulated for the mechanical washing of dishware, it is essential in glass washing machines. The presence of acid sequestrants renders it particularly effective in the presence of hard water.

Available packaging and code:
Box of 4 containers - 5Kg each - 016ELBR0020
