

Professional solutions for a cleaner world

# Quick Facts

EXCELLENCE  
INNOVATION  
PROFICIENCY  
RELIABILITY  
ENTHUSIASM

*These are the founding values of Idromatic Srl, a family company present in the high pressure washer market since 1976.*

*Three generations worked to design products able to be a valid support for the operators of industrial / professional sector.*

*Durability, reliability, efficiency are our guide lines in the production process.*

*Our products are the result of our long term experience and they are the answer to multiple demands of water cleaning.*

*Our aim is to provide solutions to the customers that need to make the cleaning an efficient and profitable activity.*

*We are small enough to be a very flexible and lively production laboratory, big enough to care.*

# The quality since 1976

# IDROMATIC

IDROPULTRICI  
ad acqua calda pressurizzata

SAILETTO DI SUZZARA  
Via Zara Zanetta, 41  
MANTOVA - Tel. 0376/50158

1976

*The company was founded in 1976 by Lorenzini's family, which started the activity of manufacturing and direct sale of professional pressure washers, both hot and cold water. During the first 5 years, about 2500 pressure washers were produced and sold to the final user.*

1982

*In 1982 the company moved to the new production site in Borgovirgilio (Mantova) and started the B2B sales activity by cooperating with professional retailers in Italy and abroad.*

1995

*In 1995 the headquarter was expanded due to an increase in demand, and the distribution was entrusted almost exclusively to professional operators and retailers.*

2009

*In 2009 the evolution of the cleaning market was clearly directed towards solution to limit water consumption. Idromatic's response to this need was the realization of the first steam generator for professional cleaning, with diesel heated.*

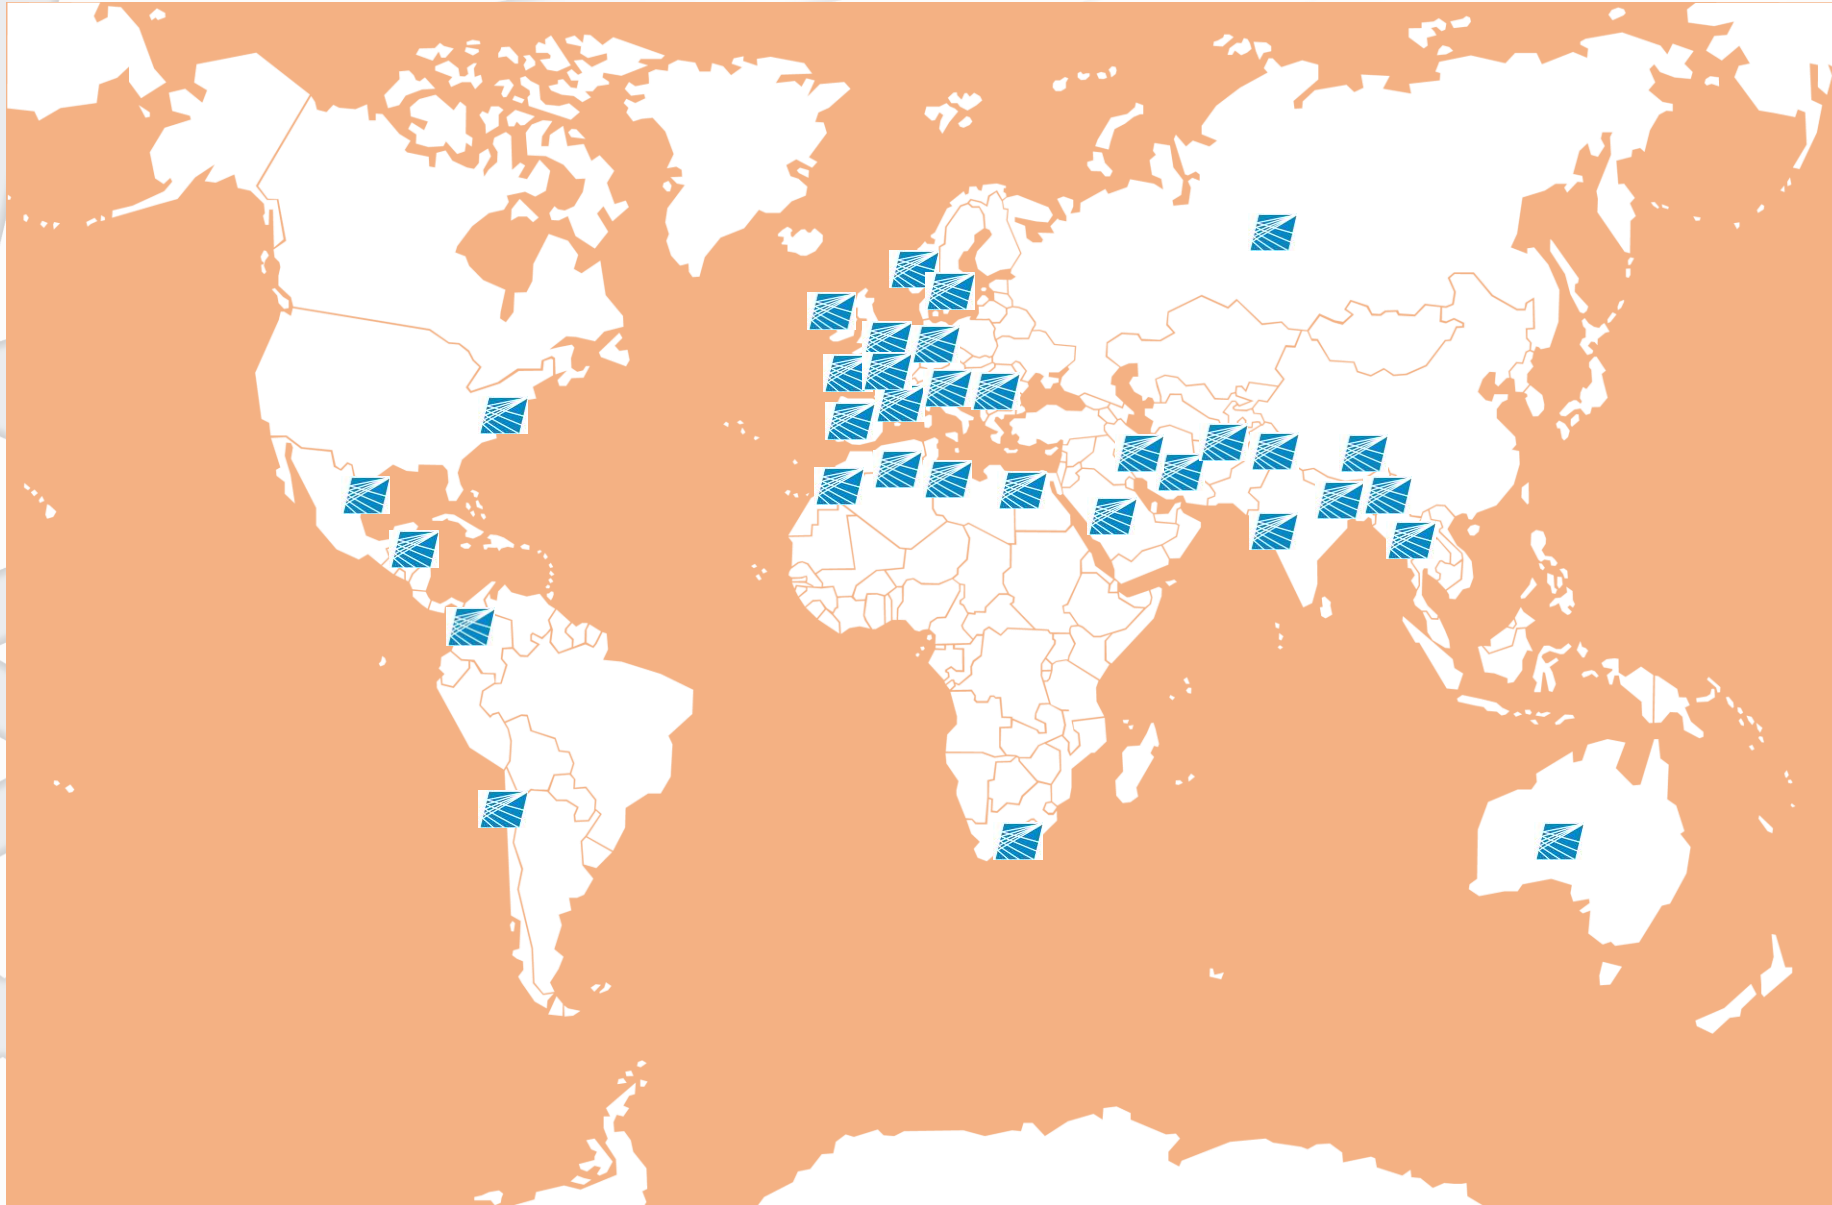

2015

*Started from 2015, the success of steam generators has led to the development of a complete range of steam cleaning solutions, including the electric power supply.*

# The Present

# Steam Generators – Diesel Heated

STEAM SPRAY

CHEMICAL

HIGH PRESSURE

STEAM SPRAY

CHEMICAL

VACUUM

STEAM SPRAY

12 VOLT

*Working Pressure up to 9 Bar  
Max Steam Flow Rate 40 kg/h  
Boiler Temperature up to 220°  
Water Temperature up to 180°*

*Suggested application fields*

- Mobile car washing or washing station
- Repair workshop
- Gum and graffiti removal
- Industrial machine and tools cleaning
- Cleaning of sport equipment and places
- Cleaning of rooms and equipment for animals
- Urban weeding
- Food industries

# Steam Generators – Electric Power

STEAM SPRAY

CHEMICAL

VACUUM

*Working Pressure from 7 to 10 Bar  
Steam Flow Rate between 4,1 and 17,8 kg/h  
Boiler Temperature up to 220°*

*Suggested application fields*

- Repair Workshop
- Industrial Machine And Tools Cleaning
- Cleaning Of Sport Equipments And Places
- Cleaning Of Rooms And Equipment For Animals
- Cleaning companies
- Urban Weeding
- Food Industries
- Hotel Cleaning
- Kitchen Cleaning
- Hospital Cleaning
- Cleaning of Public and Common Areas
- Internal Car Cleaning
- Carpet Cleaning

STEAM SPRAY

CHEMICAL

*Our electrical steam generators are designed to be eco friendly: our technology has been studied to avoid waste of water and cleaning also without chemical products.*

# Pressure Washers – Hot Water

*Working Pressure up to 200 Bar  
Max Flow Rate up to 21 lt/min  
Water Temperature up to 140°*

*Suggested application fields*

- *Improving and facilitating all washing activities by temperature effect*
- *Cleaning oil/greasy surfaces*
- *Melting/washing organic stains*
- *Cleaning of farm stables*
- *Weeds removal*

# Pressure Washers – Cold Water

*Working Pressure up to 200 Bar  
Max Flow Rate up to 21 lt/min*

*Suggested application fields*

- *Car/Truck/Boats Washing*
- *Patio Cleaning*
- *Walls Cleaning*
- *Sand blasting*
- *Sewer & Drain cleaning*
