THE ORIGINAL

### Super Concentrate System

Incredible cleaning power  
with a refreshing new look

# CLEENOL

# The original Super Concentrate

We first launched the original Evolution Super Concentrate system in the early 2000's. And today, over two decades later, it's still the original and best super concentrate system. We've continued to improve the range by adding new products and researching new formulations to deliver even better cleaning performance to meet the ever changing conditions that life throws at us.

Evolution Super Concentrates are a complete range of products to cover nearly every aspect of cleaning from catering to housekeeping. Equipment, work surfaces, floors, walls, furniture and more, you name it, there's an Evolution Super Concentrate that does it.

Our specialist dispensers allow Evolution Super Concentrates to be dosed without the need for water connections, plumbing, or electrical supply. The compact design allows each dispenser to be fitted in even the most restricted of spaces.

By purchasing concentrated cleaning chemicals you can create significant savings whilst minimising the environmental impact of packaging and logistics. Other benefits include saving storage space and time as cleaning products need to be ordered less often.

# The Evolution Super Concentrate Range

## Washing Up Liquid

**Former Name: Concentrated Pot Wash Detergent**

A highly concentrated 65% active detergent liquid for use in manual hand washing of crockery, utensils, cutlery, and in pot wash sink applications.

Up to 300 applications per pack (dosing 5ml per 5 litres of water).

**2x1.5L | EV1**

## Multi-Surface Cleaner & Degreaser

**Former Name: Concentrated Heavy Duty Cleaner & Degreaser**

A highly effective surface cleaner degreaser for use where heavy-duty soilings and caramelised grease are evident.

Use through our Flask for Life on exterior areas of equipment, including canopy hoods and filters, fat fryers, cookers, stainless steel wall cladding, and glazed tiles. The product can be diluted into a bucket for cleaning floors, walls and general cleaning of hard washable surfaces.

**2x1.5L | EV2**

**6x750ml | EVOESD-2-RF-6X750**

## Antibacterial Multi-Surface Cleaner

**Former Name: Concentrated Surface Cleaner & Sanitizer**

A highly effective cleaning and sanitising product for all hard surfaces including work surfaces, microwaves, fridges, freezers, chopping boards and tiles. It has been tested to BS EN 1276 and found to kill 99.9% of germs within 30 seconds when diluted 2.7% (20ml in 750ml water).

It also has passed the BS EN 5929 (1984) Triangle Taint Test, showing it to be non-tainting to foodstuffs and safe for use where food is processed.

**2x1.5L | EV3**

**6x750ml | EVOESD-3-RF-6X750**

# Simple, safe and accurate dispensing

Our Evolution Dispensing Systems allow for concentrated chemicals to be diluted at point of use.

Unlike conventional systems, Evolution Super Concentrates require no water connections, plumbing or electrical supply.

## **Simple & Accurate**

---

The easy to use dispenser has a push/pull lever system which consistently delivers the correct amount of chemical concentrate

directly into a pre-filled Flask for Life, sink or bucket.

## **Safety Features**

---

The product filled dispenser will only dispense concentrate when the a heavy duty refill flask is locked into position.

Both the sink and bucket operations have to be enabled before dispensing can take place.

An automatic delay mechanism locks out the system for a set time to prevent accidental overdosing. Additionally, the units

are lockable to prevent tampering and incorrect usage.

Built-in non-return valves and drip trays remove the risk of splashing surfaces or the operator.

## **Environmental Advantages**

---

Making up exact amounts of correctly diluted solution also reduces the impact of wasted solution entering the water systems.

## **Cost effective**

---

Controlled dispensing and consistent dilutions every time, give demonstrable savings in cost in use.

## **Wall Mounted Storage**

---

Dedicated Evolution storage solutions provide trouble-free storage for heavy duty refill flasks, keeping them within easy reach.

Simple to attach to most vertical surfaces, they make any area the ideal cleaning station with a compact, off the ground, design that keeps the area organised.

# The Evolution Super Concentrate Range

## Antibacterial Washing Up Liquid

**Former Name: Concentrated Antibacterial Pot Wash Detergent**

A super concentrated antibacterial washing up liquid for additional peace of mind, designed for manual washing of kitchen utensils and equipment where improved hygiene is required.

Conforms to BS EN 1276 when diluted to 0.1% under dirty conditions.

**2x1.5L | EV4**

## Perfumed Floor Cleaner

**Former Name: Perfumed Floor Cleaner Concentrate**

A highly effective hard floor cleaner containing a floral perfume to neutralise odours.

Leaves areas clean and fresh. Ideal for use on marble and stone floors with polished or natural finishes. For use in reception areas, corridors, bathrooms, etc.

Heavy duty refill flask available for spray application.

**2x1.5L | EV5**

**6x750ml | EVOESD-5-RF-6X750**

## Perfumed Antibacterial Bath & Washroom Cleaner

**Former Name: Concentrated Bath & Washroom Cleaner**

An antibacterial and de-scaling product that effectively removes natural oils, soap deposits and general soil from baths, sinks, showers, WCs, tiles, glass screens and hard floor coverings. Helps prevent hard water deposits from forming on surfaces and leaves a refreshing mild fragrance to deodorise the room. Contains a fresh citrus perfume.

**2x1.5L | EV6**

**6x750ml | EVOESD-6-RF-6X750**

# For a cleaner, greener world.

## What's the big deal about concentrates?

### Value

---

Standard pre-filled and ready to use products, whilst still relevant in today's world, are not financially sustainable as a long term solution for your cleaning needs.

Controlled dispensing and consistent dilutions every time, give demonstrable savings in cost in use.

### Performance

---

It's tough to know exactly how well a product will perform without trying it before.

The beauty of our concentrates means that if the job requires a slightly stronger or weaker solution, we give you the dosage instructions to match.

### Environment

---

At Cleanol, we're always looking at ways to help protect the environment in a multitude of ways.

#### Water Savings

Using concentrates means you only use water when you need to make a new solution.

#### Carbon Footprint

Everything from our production overheads, storage and shipping make less of an impact on the environment than traditional ready to use products.

#### Energy

Less energy and resources are used to produce our concentrates.

#### Emissions

Fewer trucks are required to ship concentrates meaning a huge reduction in carbon emissions from vehicles.

# The Evolution Super Concentrate Range

## Air Freshener

**Former Name: Concentrated Air Freshener**

Designed to deodorise a variety of smells from body odours to stale tobacco.

Leaves rooms smelling clean and fresh – complements the scent of the Evolution Perfumed Floor Cleaner.

Always test on fabrics before use. Do not use on hard floor surfaces. Do not use in food areas.

**2x1.5L | EV7**

**6x750ml | EVOESD-7-RF-6X750**

## Window & Stainless Steel Cleaner

**Former Name: Concentrated Window & Stainless Steel Cleaner**

A surfactant based cleaner that effectively cuts through atmospheric grime and nicotine soil. This product is also ideal for cleaning and polishing stainless steel where a streak-free finish is required.

**2x1.5L | EV8**

**6x750ml | EVOESD-8-RF-6X750**

## Reducing Single Use Plastic

A single 1.5 litre pouch from the Evolution Super Concentrate range can make the equivalent of up to:

- 75 - 150 Filled Buckets/Sinks
- 75 - 300 Heavy Duty Refill Flasks\*

Saving you significant amounts of money per year and, most importantly, drastically reducing the equivalent plastic packaging going to landfill. Making the change to our Super Concentrates will not only benefit you, but the future of our planet.

\* These figures will vary based on the dosage set, product type and application.

# A dispenser for every occasion

## Evolution Sink Dispenser

The Evolution Sink Dispenser is installed next to sinks or basins for easy use.

Simply point the nozzle over the sink and dispense using the lever into fresh, hand hot water.

Then it's a simple case of following your standard washing up routine, ensuring you rinse off any suds before allowing to air dry on a draining rack.

The number of doses used is up to you and may vary depending on the degree of soiling.

## Evolution Flask Dispenser

The Evolution Flask Dispenser is designed so that the flask will lock into place for safe and accurate dosing.

Simply pre-fill a heavy duty refill flask with clean, fresh water and sit the flask on the platform.

When in place, press the lever to dose the concentrate.

Then remove from the dispenser and attached the trigger head and you're ready to clean.

A modified flask dispenser is available for our 500ml heavy duty refill bottles used in conjunction with Evolution Toilet Cleaner (EV9).

## Evolution Bucket Dispenser

The Evolution bucket dispenser is fitted with an extension tube that sits closer to ground level so that a bucket can be placed safely and securely underneath before dosing.

The adjustable nozzle allows you to point it directly into the bucket to reduce the risk of spillage.

A simple press of the lever will safely dose the required amount of concentrate into the bucket.

We always advise users to add the concentrate to water and never water to concentrate, this improves dosage, dilution and is safer in use.

# The Evolution Super Concentrate Range

## Toilet Cleaner

**Former Name: Concentrated Toilet Cleaner & Descaler**

For the daily maintenance of urinals and toilets. A fragrant thixotropic toilet cleaner and descaler.

Pleasantly perfumed. Removes soil and scale at the same time.

A complete cleaner that leaves toilets clean and fresh.

**2x1.5L | EV9**

**12x500ml | EVOESD-9-RF-12X500**

## Perfumed Multi-Surface Cleaner

**Former Name: Concentrated Perfumed Multipurpose Cleaner**

Developed for use with a trigger bottle or mop bucket application. Its highly concentrated formulation has been designed as a versatile washroom and general purpose cleaner that has a fresh citrus fragrance.

Ideal for the cleaning of all hard washable surfaces and floors.

Recommended dilutions are dependent on the condition and soiling level of the floor and surfaces to be cleaned.

**2x1.5L | EV10**

**6x750ml | EVOESD-10-RF-6X750**

## Perfumed Antibacterial Multi-Surface Cleaner

**Former Name: Concentrated Perfumed Bactericidal Multipurpose Cleaner**

An effective 4-in-1 product that deodorises, de-scales, cleans and sanitises. Suitable for use on tables, walls and most other hard surfaces. Leaves a refreshing, mild fragrance. Removes limescale.

The product has passed the European Suspension Test EN 1276 when diluted 20ml to 750ml and has been found to be effective against bacteria after a contact time of 5 minutes.

**2x1.5L | EV11**

**6x750ml | EVOESD-11-RF-6X750**
