HOW TO USE

POD COLOUR CODING

WHO ARE WE?

AquaPod is a market leading provider of **Water Based** cleaning products. The company has worked to develop products that will educate and allow customers to use eco-responsible/sustainable products, that are also **Cruelty Free, Recyclable** and **Vegan**. All AquaPod products are produced in the **United Kingdom** and are made by adopting the highest possible ethical standards.

Our company's aim is to provide products that are :

- Are 100% Biodegradable and Phosphate/Alcohol/Bleach Free
- Reduce packaging by up to 88%, thus reducing waste
- Require less storage and transportation
- Are fully Sustainable and Practical
- Are not tested on Animals
- Are extremely Cost-Effective
- Use fully Recyclable plastics (if required)
- Are Vegan Friendly and Halal Compliant

We invite our customers to join us on our sustainability journey, that will help improve the quality of all our lives, protect our eco-system and preserve natural resources for future generations.

AQUAPOD SOLUBLE PODS

The AquaPod range (soluble pods) are pre-dosed, concentrated cleaning products, encapsulated in fully water-soluble pods. Covering virtually every aspect of everyday cleaning needs for today's demanding consumer, saving money, time and waste, without compromising on high standards of cleanliness, infection prevention and control.

FOOD SAFE

Surface Sanitiser

Dilution ratio

1 sachet per 750ml trigger bottle

Especially for the food & catering industry, the product is safe to be used in all food preparation areas and can be used on all surfaces, catering and kitchen equipment and implements. Independently tested to EN1276 giving a 99.9999% germ kill.

Where to use

Housekeeping

Work Surface

Germ Kill

Catering

Degreaser Cleaner

Dilution ratio

1 sachet per 750ml trigger bottle

A powerful detergent and degreaser formulated to clean, degrease and deodorise washable surfaces such as tiles, walls, floors, cooker hoods and extraction systems.

Where to use

Housekeeping

Work Surface

Catering

Degreaser Floor Cleaner

Dilution ratio

1 sachet per 5L bucket

A powerful detergent and degreaser formulated and designed to be added straight to bucket for ease of cleaning in food safe environments.

Where to use

Floorcare

Multi-surface

Catering

Heavy Duty Scrubber Drier Cleaner

Dilution ratio

1 sachet makes 30L

An alkaline low foam detergent for the machine cleaning of floors. A powerful detergent and degreaser formulated to rapidly remove grease and grime in one pass.

Where to use

Floorcare

Catering

UNFRAGRANCED

WASHROOM

Biological Washroom Cleaner

Dilution ratio

1 sachet per 750ml trigger bottle

Formulated for cleaning all washable surfaces throughout the washroom and maintaining urinal based water management systems.

Where to use

Washroom Cleaner

Dilution ratio

1 sachet per 750ml trigger bottle

This washroom cleaner is for use in all areas including walls, doors, ledges, toilets, urinals, basins and showers. Helps to remove limescale, daily stains and reduce odour.

Where to use

Washroom Disinfectant

Dilution ratio

1 sachet per 750ml trigger bottle

This non-chlorine disinfectant is an effective decontaminant that works in all areas against bacteria. The disinfectant dries quickly to leave surfaces bright and smear free.

Where to use

Washroom Floor

Dilution ratio

1 sachet makes 5L

Formulated for cleaning all washable surfaces in the bathroom or washroom. Safe to use on stainless steel. Effectively removes body fat, soap scum and general soiling from all washable surfaces and prevents the build up of limescale.

Where to use

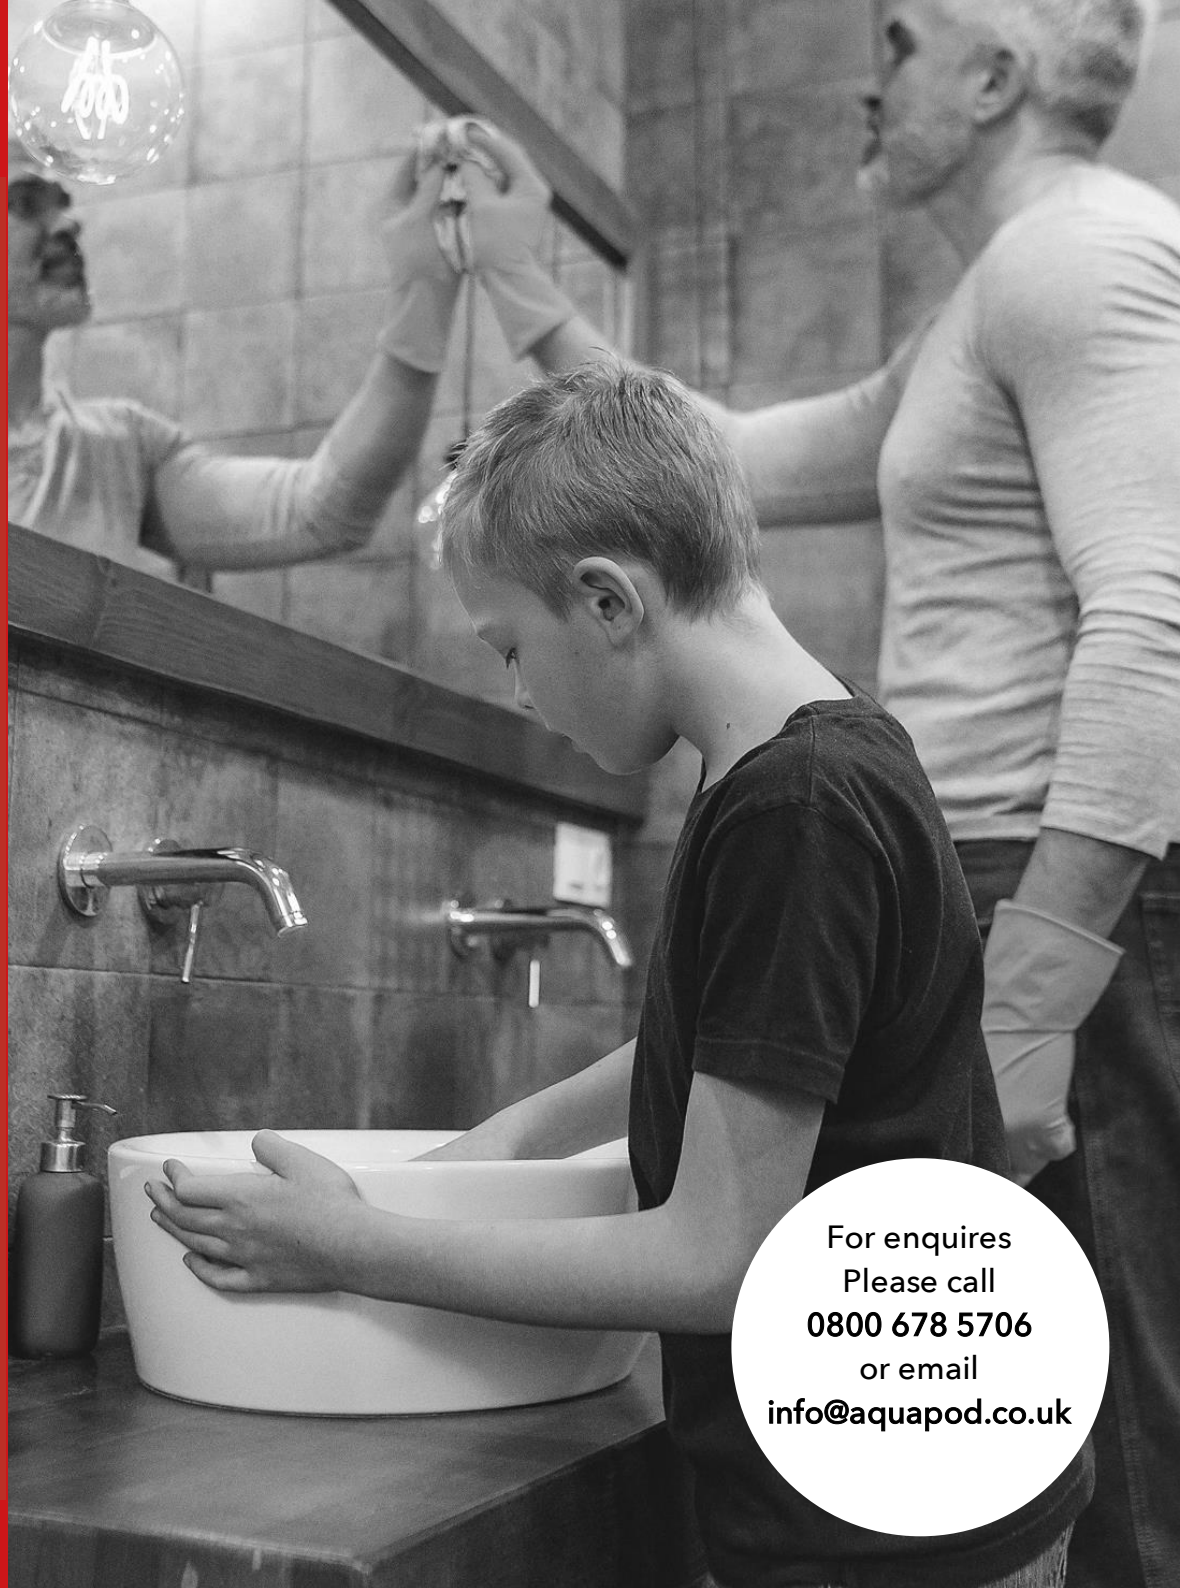

Daily Toilet Cleaner

Dilution ratio

1 sachet per 1L bottle

The highly scented sulphamic acid based toilet cleaner descaler with thixotropic properties rapidly removes limescale and general soiling from toilets and urinals. Its viscous formula clings to vertical surfaces, allowing longer contact time for more effective cleaning.

FLOOR CARE

Neutral Floor Cleaner

Dilution ratio
1 sachet makes 5L

Designed for the regular cleaning of polished floors and sensitive surfaces. Effectively cleans without damage to surfaces or reducing the shine on polished floors and gives a feeling of freshness and cleanliness. No need to rinse.

Where to use

Carpet Extraction Drier Cleaner

Dilution ratio
1 sachet per 10L dilution

A low foam highly concentrated detergent for the machine cleaning of carpets. Can be used as a presprayer and be used in recycling extractors.

Where to use

Neutral Scrubber Drier Cleaner

Dilution ratio
1 sachet makes 30L

A low foam detergent for the machine cleaning of floors. Suitable for all scrubber drier machines, it is designed for the daily cleaning of polished floors and sensitive surfaces.

Where to use

Heavy Duty Scrubber Drier Cleaner

Dilution ratio
1 sachet makes 30L

An alkaline low foam detergent for the machine cleaning of floors. A powerful detergent and degreaser formulated to rapidly remove grease and grime in one pass.

Where to use

Hard Surface Floor Cleaner

Dilution ratio
1 sachet makes 10L

Effectively cleans heavy traffic soil. Contains detergents which emulsify oil and grease, keeping insoluble dirt in suspension leaving a stain and smear free finish.

Where to use

Degreaser Floor Cleaner

Dilution ratio
1 sachet makes 5L

A powerful detergent and degreaser formulated to clean, degrease and deodorise washable surfaces such as tiles, walls, floors, cooker hoods and extraction systems.

Where to use

GERM KILL

Anti Viral Cleaner

Dilution ratio

1 sachet per 750ml trigger bottle

Independently tested to EN1276, EN14476 and EN13697. This anti viral surface cleaner is suitable for use on all surfaces and in food safe areas where hygiene is paramount. Can be used for deep cleaning purposes to minimise spread of infection.

Where to use

Surface Sanitiser

Dilution ratio

1 sachet per 750ml trigger bottle

Formulated to sanitise and clean all modern surfaces. A versatile sanitiser cleaner for use in non- food areas where hygiene concerns are of paramount importance. Independently tested to EN1276 giving a 99.9999% germ kill.

Where to use

Disinfectant

Dilution ratio

1 sachet per 750ml trigger bottle

This non-chlorine disinfectant is an effective decontaminate which works in all areas against bacteria. The disinfectant dries quickly to leave surfaces bright and smear free.

Where to use

Disinfectant Floor Cleaner

Dilution ratio

1 sachet makes 10L

This non-chlorine disinfectant is an effective decontaminant which works in all areas against bacteria. Designed to be added direct to a mop bucket and leaves a fresh long lasting fragrance.

1

Fill bottle with water

OR

Fill bucket with water

2

Drop pod/s into bottle

OR

Drop pod/s into bucket

3

Swirl bottle to dissolve pod

OR

Stir bucket to dissolve pod

AquaPod

READY TO USE

Apply using a trigger bottle

Apply using a FogPod

Apply using a mop and bucket

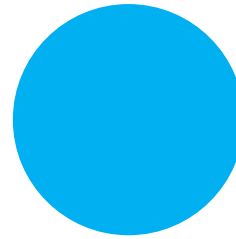

AQUAPOD COLOUR CODES

AquaPods are specifically colour coded when diluted so that they are easily identifiable to reduce risk of cross contamination.

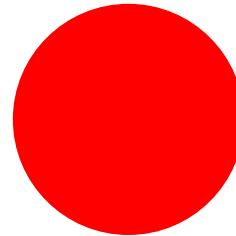

Colour coding is used throughout a variety of industries and trades where health and safety is paramount, in particular catering and healthcare, as cross contamination can lead to illness.

The cleaning equipment colours are representative to their area of use. For example, you would not want to clean the floors of a kitchen with a mop that has been previously used to clean the bathroom floors.
